The Intelligence Files Olivier Schmidt, 2005 These potential scandals are culled from the files of the French language ADI Journal Intelligence the bible for conspiracy theorists and avidly read in intelligence agencies because it is so rich in insider gossip Plato's Dreams Realized Aleksandr Vladimirovich Avakov, 2006 In this study of the philosophical and political nature of law morality rights and security a Russian dissident shares his experience with the KGB and then with the US national security state and details the history of political surveillance in the US **Understanding Shadows** Michael Quilligan, 2013-08-29 Vague references to the war on terror and the threat to national security are frequently used by venal politicians to cover up criminal associations and covert illegal activity ranging from money laundering narcotics trafficking abduction and murder to the wholesale slaughter of non combatant civilians glibly dismissed as collateral damage in mainstream media coverage of state terror from the Caucuses to the Middle East and the streets of European capitals while locally in towns and villages that never make headlines predatory Catholic clergy and radical Islamic academics and imams abuse trust to accommodate their personal agendas of greed lust and revenge The issues in Understanding Shadows include how the overweening pride of US and European intelligence agencies contributed to the development of the Islamic bomb and the proliferation of nuclear technology crime and extra judicial punishment in Russia and abroad under President Putin and how the bloody and brutal end of democratic Islam in Algeria has facilitated the fear and loathing which has dominated the West s security agenda since 9 11 The arrogance and political hubris of former British PM Tony Blair and the corrupt use of intelligence took the UK to war in Iraq and was a factor in the lonely death of WMD specialist Dr David Kelly while off stage Israel continued its colonization of occupied Arab lands and upgraded its collective punishment of Gaza There is an account of the curious journey the CIA s USSR dangle Lee Harvey Oswald made across Cold War Europe in June 1962 while the end of the apartheid regime in South Africa provided an opportunity for self serving power hungry ANC politicians to feather their own nests at the expense of the impoverished majority a depressing example of a righteous liberation struggle turned sour Meanwhile the long war continued Operation Banner was the codename given to the longest British Army deployment since 1945 In the North of Ireland where the 36 year period of active service is referred to as the Troubles clandestine military units including the murderous Force Research Unit waged a dirty war against the Provisional IRA in particular and the nationalist community in general An estimated 763 British soldiers died and over 6 000 were injured during the Troubles An awareness of the back stories to these issues is an important factor for the understanding of shadows
