The International Political Economy Of Investment Bubbles

David N. Balaam, Bradford Dillman

The International Political Economy Of Investment Bubbles:

The International Political Economy of Investment Bubbles Paul Sheeran, 2017-11-28 Providing a historical appraisal of bubble investments and blending theory with field observations this insightful work will benefit academics researchers and professionals observing the nexus of relationships between speculation states and markets The book presents an analysis of the development and decline of investment bubbles and helps develop the models that inform the risk assessment of bubble behaviour By identifying particular trends and consequences the book presents insight into the operation of speculative activity and its social economic and political repercussions

International Political Economy James H. Nolt, 2014-12-17 This book offers a completely new and unique introduction to the economics of international relations It treats all the traditional major themes of international relations theory while giving each a refreshing new twist with the incorporation of the influence of private power particularly in the realm of war and peace It reframes the history of the modern global economy and politics by thoroughly purging the myth of the market a systematic blindness to private power It not only draws on but also illuminates major themes and empirical findings of comparative politics business history business strategy business cycle theory social evolutionary theory as well as the practical wisdom of traders and investors Part one introduces the major concepts of competing theories of international relations emphasizing a unique approach corporatism Part two introduces the critical importance dynamic and oppositional analysis of issues Part three traces the rise of the modern world from the mercantilist period until the rise of modern corporate organizations and the demise of imperialism in the crucible of World War I Part four begins with the origins of the contemporary dominance of business internationalism before and during World War II then analyzes three major facets of the postwar era the unification of much of Europe the industrialization of the Third World and the Cold War and its aftermath The final chapter considers the present and future of a fairly peaceful yet economically unstable world This book presents a refreshing and exciting portrayal of the global economy which challenges every major subject from money to markets to the business cycle This book eschews the economics of dull averages to restore the drama of contending business forces struggling for wealth and in the process influencing war and peace

Contemporary Issues in International Political Economy Fu-Lai Tony Yu, Diana S. Kwan, 2019-05-22 This book is the product of a team teaching course entitled Issues in Economic Development offered to the final year students of Department of Economics and Finance at Hong Kong Shue Yan University In this volume the authors comprehensively survey world s most controversial issues in economic and political affairs Topics in this volume cover Christianity Islam confrontation ISIS and anti terrorism North Korea and Taiwan Strait Crises China s rise as a global power Brexit Artificial Intelligence Bitcoin same sex marriage global warming happiness and well being This book can be used as a reader or textbook in courses such as International Political Economy and International Development or as a reference for scholars and policy makers

Routledge Encyclopedia of International Political Economy R. J. Barry Jones, 2002-09-11 This three volume

Encyclopedia offers the first comprehensive and authoritative survey of the rapidly developing field of international political economy Its entries cover the major theoretical issues and analytical approaches within the field The set also provides detailed discussion of the contributions of key individuals and surveys a wide range of empirical conditions and developments within the global political economy including its major institutions The Encyclopedia has been designed to be eclectic in approach and wide ranging in coverage Theoretical entries range from discussions of the definition and scope of the field through core methodological questions such as rationalism and the structure agent problem to surveys of the major theories and approaches employed in the study of the international political economy

International Political Economy Thomas Oatley, 2015-10-05 Broadly viewing the global economy as a political competition that produces winners and losers International Political Economy holistically and accessibly introduces the field of IPE to students with limited background in political theory history and economics This text surveys major interests and institutions and examines how state and non state actors pursue wealth and power Emphasizing fundamental economic concepts as well as the interplay between domestic and international politics International Political Economy not only explains how the global economy works it also encourages students to think critically about how economic policy is made in the context of globalization

Introduction to International Political Economy David N. Balaam, Bradford Dillman, 2018-07-31 In a revolutionary revision of this best selling text David Balaam and Bradford Dillman show how the postwar world order is at once under threat and yet resilient This classic text surveys the theories institutions and relationships that characterize IPE and highlights them in the context of a diverse range of regional and transnational issues Introduction to International Political Economy positions students to critically evaluate the global economy and to appreciate the personal impact of political economic and social forces New to the Seventh Edition Streamlined yet comprehensive coverage reducing the text from 20 to 17 chapters There is also one unified chapter on global finance and a single chapter on energy and the environment A new chapter on Constructivism shows sociological and ideational forces at work A new chapter on Global Production encompasses transnational corporations and labor A new chapter on Global Health incorporates food and refugee issues Substantial revisions to 10 chapters including new material on Brexit the EU debt and refugee crises populist nationalist movements inequality trade conflicts and negotiations cyber weapons the rise of China Middle East conflicts and international responses to climate change Significant focus throughout on President Trump s impact on U S foreign policy international order and global security Extensive new graphs and tables of data plus 27 fascinating new text boxes throughout An author written Instructor s Manual and Test Bank are provided along with additional online resources

Handbook of the International Political Economy of Production Kees van der Pijl, 2015-01-30 This Handbook provides a state of the art overview of the changing world of global production Chapters cover the geography of why and where jobs are moving in both manufacturing and services The authors discuss topics relating to the human and natura

Handbook of the International Political Economy of

Monetary Relations Thomas Oatley, W. Kindred Winecoff, 2014-06-27 This extensive Handbook provides an in depth exploration of the political economy dynamics associated with the international monetary and financial systems Leading experts offer a fresh take on research into the interaction between system structure t **Routledge Encyclopedia of International Political Economy: Entries A-F** R. J. Barry Jones, 2001 This important new work is the first comprehensive reference to the rapidly developing field of international political economy IPE Featuring over 1200 A Z entries the coverage encompasses the full range of issues concepts and institutions associated with IPE in its various forms Comprehensively cross referenced and indexed each entry provides suggestions for further reading along with guides to more specialized sources Selected entries include African Development Bank benign neglect Black Monday casino capitalism debt management efficiency floating exchange rates General Agreement on Tariffs and Trade GATT information society economy Organization of Petroleum Exporting Countries OPEC Microsoft multinational corporations definitions NATO patents rent seeking Schellin Thomas tax havens trusts Value Added Tax VAT zero sum games and many more *International Political Economy* Thomas D. Lairson, David Skidmore, 2016-12-08 This text offers a rethinking of the field of international political economy in an era of growing but uneven globalization Even as global integration advances states play central roles as partners with the largest of global firms as the catalysts of competitiveness and economic growth as the creators of global institutions and in promoting and responding to global interdependence Indeed the struggle for power and wealth within and among states underscores the primacy of politics in understanding current realities At the same time new issues and actors complicate the global agenda as it expands to address the environment global health and food security By offering a clear explanation of basic concepts contextualizing the presentation of theoretical debates and placing current events in historical context International Political Economy ensures students a deep understanding of how the global economy works and the ways in which globalization affects their lives and those of people around the world Key Content and Features Engages debates over the reach and significance of globalization Examines the sources and consequences of global financial instability Explores the origins and consequences of global inequality Compares various strategies of development and state roles in competitiveness Discusses the role of key international economic institutions Considers the impact of the rise of China on the global economy and the potential for war and peace Illustrates collective efforts to fight hunger disease and environmental threats Includes numerous graphs and illustrations throughout and end of chapter discussion questions Links key concepts for each chapter to a glossary at the end of the book Provides a list of acronyms at the outset and annotated further readings at the end of each chapter Offers additional resources on a web site related to the text including a list of links to IPE related web pages The Political Economy of International Financial Crisis Shale Asher Horowitz, Uk Heo, 2001 The world financial crisis of 1997 99 was the most important international economic event since the oil shocks of the 1970s and the associated debt crisis of the 1980s What were its political causes and consequences In particular how did interest

group coalitions and political institutions affect pre crisis economic policies and post crisis responses This book focuses on how policymaking coalitions are formed and how political institutions mediate the pressure of rival coalitions This approach is applied to 13 countries drawn from the main crisis affected regions of the world economy East Asia Southeast Asia Latin America and Eastern Europe Journal of Economic Literature ,2004 *The International Political Economy of Risk* Robert Deuchars,2017-11-28 The discipline of international political economy faces a number of critical challenges at present as it seeks to incorporate a number of relatively new issues one of these being risk This captivating and enlightening study redresses the neglect of risk in this field by focusing on objectivist rationalism Highlighting some of the calculative practices rationalism makes possible it demonstrates the deeply political nature of supposedly value neutral technical pursuits such as accounting auditing the practice of statistics sampling and credit rating All these practices are implicated in modernist forms of power and governance The volume draws on work from various disciplines including sociology anthropology political economy and philosophy to explain the apparent unravelling of the rationalist quest for more reliable forms of knowledge It is highly suitable for courses on international relations international political economy **Handbook on the International Political Economy of China** Ka Zeng,2019 This book examines the processes evolution and consequences of China s rapid integration into the global economy Through analyses of Beijing s international economic engagement in areas such as trade investment finance sustainable development and global economic governance it highlights the forces shaping China s increasingly prominent role in the global economic arena Chapters explore China s behavior in global economic governance the interests and motivations underlying China s international economic initiatives and the influence of politics including both domestic politics and foreign relations on the country s global economic footprint **The British National Bibliography** Arthur James Wells,2005 **The Palgrave Handbook of the International Political Economy of Energy** Thijs Van de Graaf,Benjamin K. Sovacool,Arunabha Ghosh,Florian Kern,Michael T. Klare,2016-08-05 This Handbook is the first volume to analyse the International Political Economy the who gets what when and how of global energy Divided into five sections it features 28 contributions that deal with energy institutions trade transitions conflict and justice The chapters span a wide range of energy technologies and markets including oil and gas biofuels carbon capture and storage nuclear and electricity and it cuts across the domestic international divide Long standing issues in the IPE of energy such as the role of OPEC and the resource curse are combined with emerging issues such as fossil fuel subsidies and carbon markets IPE perspectives are interwoven with insights from studies on governance transitions security and political ecology The Handbook serves as a potent reminder that energy systems are as inherently political and economic as they are technical or technological and demonstrates that the field of IPE has much to offer to studies of the changing world of energy The International Political Economy of Direct Foreign Investment Benjamin Gomes-Casseres,David B. Yoffie,1993 These important volumes focus on multinational corporations and present the most important articles seeking to explain the

reasons for their appearance their growth and their effects on both host and home countries and the world economy They also includes literature addressing the effect of the international political economy on multinationals and their impact on the international systems Country strategies as well as corporate ones are also included *The Post-Bubble US Economy* P. Arestis, E. Karakitsos, 2004-09-07 The US is slowly recovering from the aftermath of the burst of the new economy bubble which was one of the worst in monetary history Philip Arestis and Elias Karakitsos examine the causes and consequences of the burst of the new economy bubble and investigate the impact on financial markets The risks and long term prospects for the economy and financial markets are also examined *A Research Agenda for International Political Economy* Deese, David A., 2022-10-13 With contributions from an international range of experts this cutting edge Research Agenda collates the most important and emerging research in the field to map out the new directions and promising paths ahead for the international political economy IPE **A Political Economy of American Hegemony** Thomas Oatley, 2015-02-16 In *A Political Economy of American Hegemony* Thomas Oatley explores how America s military buildups have produced postwar economic booms that have culminated in monetary and financial crises The 2008 subprime crisis as well as the housing bubble that produced it was the most recent manifestation of this buildup boom and bust cycle developing as a consequence of the decision to deficit finance the wars in Afghanistan and Iraq Earlier instances of financial crises were generated by deficit financed buildups in the 1980s and the late 1960s The buildup boom and bust pattern results from the way political institutions and financial power shape America s response to military challenges political institutions transform increased military spending into budget deficits and financial power enables the United States to finance these deficits by borrowing cheaply from the rest of the world Oatley examines how this cycle has had a powerful impact on American and global economic and financial performance
