The Complete Analects Of Confucius Volume 2:

The Principles of New Ethics III Wang Haiming, 2020-05-17 From Descartes to Spinoza Western philosophers have attempted to propose an axiomatic systemization of ethics However without consensus on the contents and objects of ethics the system remains incomplete This four volume set presents a model that highlights a Chinese philosopher s insights on ethics after a 22 year study Three essential components of ethics are examined metaethics normative ethics and virtue ethics This volume is the second part of the discussion on normative ethics The author analyzes humanity liberty justice happiness and systems of moral rules He puts forward 26 value standards that construct a system of measuring state instruction reveals the relationship between humanity liberty and justice puts forward three objective laws of happiness and discusses the goodness of important moral rules such as honesty self respect and courage This set is an essential read for students and scholars of ethics and philosophy in general Between Deontology and Justice Genyou Wu, 2019-12-05 In China political philosophy is still a comparatively new academic discipline While there is no such phrase as political philosophy in ancient Chinese texts there are elements within them that could be considered part of that field Central questions of Chinese ancient political philosophy include the legitimacy of the source of political power the foundation of moral rationality for the use of political power and the purpose of political activities This book explores the ideas of rights the foundations of law transference of power democracy and other topics as debated in ancient times Focusing on important political thinkers in Chinese history such as Kongzi Laozi Xu Fuguan Liang Qichao and Li Dazhao the book explains characteristics that are particular to China such as the system of abdication the general will of the people and the society of Great Harmony While making comparisons between Chinese and Western political philosophy the book also discusses how to establish a Chinese modern state and how to promote Chinese culture today so that it can influence more and more people around the world The book will be a valuable reference for scholars of Chinese philosophy political philosophy and Chinese culture **New Horizons in Eastern Humanism** Tu Weiming, Daisaku Ikeda, 2011-03-31 China now attracts global attention in direct proportion to its increasing economic and geopolitical power But for millennia the philosophy which has shaped the soul of China is not modern Communism or even new forms of capitalism but rather Confucianism And one of the most striking phenomena relating to China s ascendancy on the world stage is a burgeoning interest throughout Asia and beyond in the humanistic culture and values that underlie Chinese politics and finance particularly the thought of Confucius passed on in the Analects In this stimulating conversation two leading thinkers from the Confucian and Buddhist traditions discuss the timely relevance of a rejuvenated Confucian ethics to some of the most urgent issues in the modern world Sino Japanese US relations the transformation of society through education and dialogue and the role of world religions in promoting human flourishing Exploring correspondences between the Confucian and Buddhist world views the interlocutors commit themselves to a view of spirituality and religion that without blurring cultural difference is focused above all on the universal heart on

harmony between people and nature that leads to peace and to a hopeful future for all humanity **Metaphorical Metaphysics in Chinese Philosophy** Derong Chen, 2011-08-16 In *Metaphorical Metaphysics in Chinese Philosophy* Illustrated with Feng Youlan's New Metaphysics Derong Chen examines Chinese philosophy through a critical analysis of Feng Youlan's new metaphysics. He views metaphysics in Chinese philosophy as a metaphorical metaphysics separate from Western metaphysics. In examining the historical influences and contemporary reaction to Feng's work, he identifies Feng's system as the continuation of the Chinese philosophical tradition. This approach is most applicable to scholars of comparative philosophy and Chinese philosophy *The Expressiveness of the Body and the Divergence of Greek and Chinese Medicine* Shigehisa Kuriyama, 2023-10-17 An illuminating account of how early medicine in Greece and China perceived the human body. Winner of the William H. Welch Medal, American Association for the History of Medicine. The true structure and workings of the human body are we casually assume everywhere the same: a universal reality. But when we look into the past, our sense of reality wavers: accounts of the body in diverse medical traditions often seem to describe mutually alien, almost unrelated worlds. How can perceptions of something as basic and intimate as the body differ so? In this book, Shigehisa Kuriyama explores this fundamental question, elucidating the fascinating contrasts between the human body described in classical Greek medicine and the body as envisaged by physicians in ancient China. Revealing how perceptions of the body and conceptions of personhood are intimately linked, his comparative inquiry invites us, indeed compels us, to reassess our own habits of feeling and perceiving **Kinesis** Dónal Mac Erlaine, 2024-03-01 Our universe is characterized by constant motion. From electrons to galaxies, all things are on the move. This resonates within the human condition: we are born to move. From the earliest hunters, sailors, and horse riders to the modern world of trains, bicycles, and cars, movement is everywhere in human life. Our history as nomads compares starkly to our increasingly sedentary life today. This fundamental disruption of the human as a moving being led to the invention of the wheel, new religious cultures, and even the rational mind. This book considers the full depth of the link between humanity and motion, examining how it manifests in us and how we embody it. Broad and multidisciplinary, it blends history, geography, psychology, philosophy, architecture, anthropology, and spirituality Metaphor and Analogy in Chinese Thought David B. Wong, 2025-09-09 David B. Wong is one of the most distinguished moral philosophers today, recognized for his research in ethics, moral psychology, comparative ethics, and Chinese philosophy. In this collection, volume editors Ellie Hua Wang and Kai Marchal interweave five of Wong's career-defining lectures with responses and reflections from contemporary philosophers and scholars who specialize in Chinese philosophy, allowing readers to more easily comprehend philosophical debates and engage with the deeper questions at stake *Literature and Religion* Ou Guang-an, David Jasper, 2022-07-28 How does one culture read another? In *Literature and Religion*, two scholars, one from China and one from the West, each read texts from the other's culture as a means of dialogue. A key issue in such an enterprise is the nature of religion and what we understand by that term in a world in which ancient religious customs seem

to be dying or under threat Does a comparative study of religious literature offer a way towards mutual understanding or merely illustrate our differences Underpinned by their own friendship these two partners in conversation show what is possible
