

**NLA Research Paper – call for entries**

## Factory-made Housing: a solution for London?

New London Architecture (NLA) is seeking submissions of **live housing projects, products, and prototypes** employing innovative or new manufacturing processes in their construction and delivery.

NLA are investigating how far modern methods of construction can support or improve the delivery, quality and quality of London's housing. This call for entries asks for examples of innovation and design quality, those which are making a positive contribution to London's housing needs.

In addition to London based projects, you can also submit UK and international 'exemplar housing' projects that use innovative or new manufacturing processes, as well as projects across other sectors that employ new thinking in this field. However, your submission must demonstrate how these projects illustrate particular lessons or applications for the London housing market.

All projects submitted can be either completed or in the design stage. All submitted projects will go through a curated selection process for entry into a publication; payment will only be requested on selection.

This call out forms part of 'Factory-made Housing: a solution for London?' – a major NLA Research Paper examining the design, construction and delivery of factory-made houses, investigating the innovative methods and systems that are reshaping how we deliver homes in the capital. From individual houses to masterplans, from a lot of parts to full modular units, from offsite to onsite production, this Research Paper will capture the best housing projects utilising modern methods of construction.

The Project Showcase will highlight the exemplar developments and products, with all selected submissions featuring in a major research publication, distributed to key policy makers, the NLA network, visiting delegations and partners.

The results will be launched in October, supported by an accompanying exhibition in the NLA Gallery at The Building Centre, WCL, from October – December 2018, alongside a series of supporting events.

**Deadline for entries: Thursday 12 July 2018, 5pm – [Click here to submit](#)**

### SUBMISSION OPTIONS

You can choose to submit either a **Project** or a **Case Study**. There is no charge for submissions, except will apply as follows on selection:
