The Conservation Of Enemies A Study In Enmity:

The Conservation of Enemies Frederick H. Hartmann, 1982 The Conservation of enemies, 1982 *The Challenge of Grand Strategy* Jeffrey W. Taliaferro, Norrin M. Ripsman, Steven E. Lobell, 2012-08-06 Historians and political scientists re-examine the conventional wisdom of grand strategies pursued by the great powers during the interwar years

Reconciling Enemy States in Europe and Asia Seunghoon Emilia Heo, 2012-04-24 Heo conceptualizes reconciliation in International Relations theory and fills a gap by building a theoretical framework for interstate reconciliation Combining historical and political scientific approaches she analyses case studies from Europe the Middle East and Northeast Asia

Demonization in International Politics Linn Normand, 2016-06-08 This book investigates demonization in international politics particularly in the Middle East It argues that while demonization's origins are religious its continued presence is fundamentally political Drawing upon examples from historical and modern conflicts this work addresses two key questions Why do leaders demonize enemies when waging war And what are the lasting impacts on peacemaking In providing answers to these inquiries the author applies historical insight to twenty first century conflict Specific attention is given to Israel and Palestine as the author argues that war time demonization in policy media and art is a psychological and relational barrier during peace talks

Balance of Power T.V. Paul, James J. Wirtz, Michel Fortmann, 2004-09-08 Since the 16th century balance of power politics have profoundly influenced international relations But in recent years with the sudden disappearance of the Soviet Union growing power of the United States and increasing prominence of international institutions many scholars have argued that balance of power theory is losing its relevance This book examines the current position and future of balance of power dynamics in international politics In this book prominent scholars pay special attention to the theoretical and historical criticisms of balance of power theory while empirically assessing its validity at both global and regional levels The volume also looks at systemic factors favoring or hindering a return to balance of power politics It evaluates the challenges posed by subnational actors such as terrorist groups and weapons of mass destruction to international order Further it examines the relevance of balance of power axioms in selected regions Western Europe Eastern Europe East Asia South Asia and Latin America The Accidental Guerrilla David Kilcullen, 2011 A Senior Counterinsurgency Advisor to General David Petraeus Kilcullen's vision of war dramatically influenced America's decision to rethink its military strategy in Iraq Now Kilcullen provides a remarkably fresh perspective on the War on Terror

Perceptions and Policy in Transatlantic Relations Natividad Fernández Sola, Michael Smith, 2009-01-13 In this book experts from both sides of the Atlantic examine the recent tensions between Western Europe and the United States over such issues as transatlantic security policies towards terrorism and relations with Russia and the former Soviet Union against the broader background of perceptions and misperceptions in transatlantic relations Drawing on Professor Robert Jervis work *Perceptions and Misperceptions in International Politics* this book examines whether Jervis thesis has a new relevance given

the current challenges in transatlantic relations Some of the issues examined include perceptions and misperceptions in general focusing on US foreign policy issues of decision making and implementation and issues of alliance management the capacity of the United States and the European Union to cooperate effectively within the broader transatlantic framework studies focusing on the alliance security dilemma and the transatlantic security community case studies of transatlantic relations in the war on terror and relations with Russia the present and future of the western alliance Providing a global and multilateral analysis from American and European perspectives and exploring fields of cooperation and competition Perceptions and Policy in Transatlantic Relations will be of strong interest to students of International Relations American politics and European politics *Quarterly Review of Military Literature* ,1982 **The Pursuit of Dominance** Christopher J. Fettweis,2023 In *The Pursuit of Dominance* Christopher J Fettweis examines the grand strategy of previous superpowers to see how they maintained or failed to maintain their status Over the course of six cases from Ancient Rome to the British Empire he seeks guidance from the past for present US policymakers Fettweis is most interested in how these superpowers defined their interests the grand strategies these regimes followed to maintain superiority over their rivals and how the practice of that strategy worked A sweeping history of grand strategy this book looks at the past 2 000 years to highlight what if anything current US strategists can learn from the experience of earlier superpowers
