The Conservative Agenda Ideas In Conflict Series:

A Paleoconservative Anthology Paul Gottfried, 2023-02-15 This anthology provides detailed examinations of the major themes and perspectives of the paleoconservatives as political thinkers and activists A long forgotten and persistently disregarded group within the American Right but their ideas show a remarkable staying power Paleoconservatives as this anthology undertakes to show have been among the most original and insightful representatives of the Right over the last thirty years but because of internal quarrels and their conspicuous defiance of the conservative establishment they have become isolated voices Almost everything about the paleoconservatives should be of interest to historians of political movements including the process by which they became a marginalized force on the intellectual right and their periodic attempts to build bridges across the political spectrum *Presidential Lecture Series on Academic Values*, 1993 **Social**

Handbook of Language in Conflict Matthew Evans, Lesley Jeffries, Jim O'Driscoll, 2019-05-10 The Routledge Handbook of Language in Conflict presents a range of linguistic approaches as a means for examining the nature of communication related to conflict Divided into four sections the Handbook critically examines text interaction languages and applications of

linguistics in situations of conflict Spanning 30 chapters by a variety of international scholars this Handbook includes real life case studies of conflict and covers conflicts from a wide range of geographical locations at every scale of involvement from the personal to the international of every timespan from the fleeting to the decades long and of varying levels of intensity from the barely articulated to the overtly hostile sets out the textual and interactional ways in which conflict is engendered and in which people and groups of people can be set against each other considers what linguistic research has brought and can bring to the universal aim of minimising the negative effects of outbreaks of conflict wherever and whenever they occur The Routledge Handbook of Language in Conflict is an essential reference book for students and researchers of language and communication linguistics peace studies international relations and conflict studies [El-Hi Textbooks and Serials in Print](#) ,1985 *Paideia: The Ideals of Greek Culture: III.
