steps needed to reach a long term goal Are you good with science and math Can you weigh competing alternatives to determine the best solution Are you organized If so you may be well positioned to succeed as a construction manager While a four year college degree is not mandatory a growing number of employers look for a combination of formal training and on the job experience when hiring a new building CM Additional certification from a professional organization can be important to advancing your career Many construction managers are specialists in a certain industry such as renovating schools or building new office parks Managers must also keep up to date on new building materials and techniques and use sophisticated software tools to track project costs and schedules If you have good analytical and interpersonal skills you can enjoy a financially rewarding career in construction management A combination of training hard work aptitude and positive personal traits can help you achieve personal and professional satisfaction in the construction management field

Construction Management Robert A. DeGoff, Howard A. Friedman, 1985 This comprehensive handbook covers basic construction management and principles for the design professional It explores the general meaning rationale and application of construction management as well as its impact on the construction industry The book focuses on both the formal contractual duties and the informal responsibilities of the construction manager and discusses procedures to monitor and anticipate the expenses of construction management whilst introducing the special management techniques related to organizational decision with an overview of problems of motivation participation and delegation Real Life Jamil Soucar, 2017-10-02 Have you ever experienced discrepancies between the concepts you read in textbooks and their real life application In order to successfully enter the field of construction management one must incorporate both theoretical concepts and practical experiences This book does just that The book combines theoretical principles with real life insight offering a practical guide of best practices to be a successful construction manager This book is a complete manual taking you through all phases of a project from its inception to design to completion of construction It will cover all the challenges you will face as a construction manager whether you are working as an owner s representative for a contractor for an architect or for an owner This book is written in an easy to read conversational style and will benefit anyone from a new construction manager to a seasoned professional About the Author Jamil Soucar has passionately worked in the construction industry since 1983 He holds a Bachelor s degree in Civil Engineering a Certificate in Engineering Management for Construction from UCLA and is licensed as a B General Contractor He has a construction management consulting business in Los Angeles through which he consults to general contractors owners and architects and provides expert witness service to construction attorneys Jamil has overseen over 500 projects from inception to closeout He has worked as a superintendent a project manager for contractors and a construction manager consulting to owners He has worked in civil engineering design and drafting surveys Jamil was inspired to write this book after teaching construction management at night to working adults He realized the need for construction management taught from the perspective of real life experiences *Field Guide for*

Construction Management Dennis H. Sanders, 2011-12-19 From any perspective the ideal construction project is one in which the contractor shows up on your doorstep with the right price and all of his tools people and equipment ready to start and builds exactly what you want for the price you want and finish on schedule Everyone then goes away happy as clams This is the ideal but it never occurs The world is a competitive place to survive contractors must think competitively in order to win work They must find a way to complete a quality project for the lowest price Circumstances can easily derail even the best plans and contractors but with planning delays and cost overruns can be minimized This handbook helps guide the construction manager through the trials and tribulations of selecting expecting rejecting prompting requiring and documenting what the contractor produces on the project Contracts can be written that foresee common problems and provide the construction manager with their resolution The concepts in *Field Guide for Construction Management* can help you do just that

The Construction Manager Stuart M. Levine, 1986

The Road to Purpose-fit Selection of the Construction Manager Hennie Hendrik Gustavus van Heerden, 2018 A shortage in experienced skilled construction managers is foreseen in the near future A big contributing factor is the entering of non purpose fit candidates into construction management programmes Valuable time and resources are wasted on students enrolled in construction management programmes entering construction management positions and ultimately leaving these positions due to a common misconception of the actual work conditions of a construction manager The philosophical framework constituted an underlying pragmatic philosophical underpinning The researcher opted for mixed methods and action research approached within this study The research study was restricted to cross sectional time horizons as the thesis had to be completed within a specific time frame The aim of this research study is to suggest a purpose fit selection of the construction manager in South Africa This will link with the soft skills in the competency domain that is currently needed in the industry and in the profession itself It is suggested that construction management students should do practical work for a year before they start their studies This will give them a better understanding of the work conditions pressure and work life balance associated with the construction industry as this is not tested in the online SAPI personality test Tertiary education in construction management and proper practical experience are crucial but without the necessary soft skills and purpose fit personality profile the construction manager would not be successful on a project
