Corinna Treitel explores the appeal and significance of German occultism in all its varieties between the 1870s and the 1940s locating its dynamism in the nation's struggle with modernization and the public's dissatisfaction with scientific materialism Occultism Treitel notes served as a bridge between traditional religious beliefs and the values of an increasingly scientific secular and liberal society Drawing on a wealth of archival materials Treitel describes the individuals and groups who participated in the occult movement reconstructs their organizational history and examines the economic and social factors responsible for their success Building on this foundation Treitel turns to the question of how Germans used the occult in three realms of practice Theosophy where occult studies were used to achieve spiritual enlightenment the arts where occult states of consciousness fueled the creative process of avant garde painters writers and dancers and the applied sciences where professionals in psychology law enforcement engineering and medicine employed occult techniques to solve characteristic problems of modernity In conclusion Treitel considers the conflicting meanings occultism held for contemporaries by focusing on the anti spiritualist campaigns mounted by the national press the Protestant and Catholic Churches local and national governments and the Nazi regime which after years of alternating between affinity and antipathy for occultism finally crushed the movement by 1945 *Nostalgia for the Future: Modernism and Heterogeneity in the Visual*

*Arts of Nazi Germany* Gregory Maertz, 2019-04-30 In the first chapter on the German military's unlikely function as an incubator of modernist art and in the second chapter on Adolf Hitler's advocacy for eugenic figurative representation embodying nostalgia for lost Aryan racial perfection and the aspiration for the future perfection of the German Volk Maertz conclusively proves that the Nazi attack on modernism was inconsistent In further chapters on the appropriation of Christian iconography in constructing symbols of a Nazi racial utopia and on Baldur von Schirach's heretical patronage of modernist art as the supreme Nazi Party authority in Vienna Maertz reveals that sponsorship of modernist artists continued until the

collapse of the regime Also based on previously unexamined evidence including 10 000 works of art and documents confiscated by the U S Army Maertz s final chapter reconstructs the anarchic denazification and rehabilitation of German artists during the Allied occupation which had unforeseen consequences for the postwar art world
