### **Tepoztlán and the Transformation of the Mexican State** JoAnn

Martin, 2022-09-13 During the 1980s and 90s Mexico weathered an economic crisis witnessed electoral upheaval and saw the dismantling of state subsidies to farmers and the privatization of nationally owned industries This book considers how popular movements found fresh footing in this new political economic landscape as villagers in Tepoztlán fought to keep communal lands out of the hands of outsiders the state and increasingly global capitalists Examining social movement politics from the margins rather than the center JoAnn Martin revisits the famous Redfield Lewis debate on Tepoztlán to argue that the gossip seen by Oscar Lewis as undermining community coherence is really a form of political practice During more than fifteen years of research she observed the metamorphosis of a movement founded as a revolutionary popular struggle into what she terms a politics of loose connections in which temporary alliances flexible identities and shifting rhetoric are adapted to the demands of the moment Martin examines contemporary land struggles with an emphasis on the Comit para la Defensa de Tierra and its attempts to weave together strands of an invented tradition contemporary agrarian reform law and revolutionary ideology She shows how Tepoztecan politics borrows discourses from the Mexican state she then tells how this process shaped local politics in the midst of the contested 1988 national presidential election when local actors elaborated a discourse of democracy as a technique for disciplining gossip and in 1991 when Tepozteicans began to draw on the support of international environmental NGOs Throughout her analysis Martin explores how Tepoztecan politics unfolds in the climate of mistrust first nurtured by the role of the state in local politics and later by the demands of working with U S and Western European environmentalists Martin shows that the politics of loose connections is above all else a style of political participation that has proved adaptive in the contemporary political landscape and that understandings of politics have been dogged by a conception of connections that may well be obsolete in the contemporary world Her study is a balanced re evaluation of Tepoztlán that reveals how politics succeeds through loose connections a strategy that may be instructive for others seeking to survive in either local or global coalitions

*Theory of the Rearguard* Iván de La Nuez, 2025-04-22 Cuban art critic and curator Iván de la Nuez returns with an ironic epitaph for contemporary art Art criticism that examines contemporary art in the 21st century in relationship to politics iconography and literature Iván de la Nuez transforms art criticism into an art form Letras Libres *Theory of the Rearguard* examines how contemporary art is in tension with survival rather than in relation to life In the twentieth century Peter Bürger's *Theory of the Avant Garde* was a cult book focused on the two main tasks that art demanded at the time to break its representation and to destroy the barrier that separated it from life Forty years later *The Theory of the Rearguard* is an ironic manifesto about contemporary art and its failures even though Iván de la Nuez does not waste his time mourning it or disguising it He argues that our times are not characterized by the distance between art and life but by a tension between art and survival which is the continuation of life by any means necessary In the twenty first century Iván de la Nuez examines art in relationship to politics iconography and literature This

austere and sharp book in which Duchamp stumbles upon Lupe the revolution upon the museum Paul Virilio upon Joan Fontcuberta or Fukuyama upon Michael Jackson wonders if contemporary art will ever end Because if it were mortal just as mortal as everything it invokes or examines under its magnifying glass de la Nuez argues would be worth writing an epitaph for it as he has done in this sparkling book of art criticism      *Screening Neoliberalism* Ignacio Sanchez Prado,2014-06-30

Cavernous often cold always dark with the lingering smell of popcorn in the air the experience of movie going is universal The cinematic experience in Mexico is no less profound and has evolved in complex ways in recent years Films like Y Tu Mama Tambien El Mariachi Amores Perros and the work of icons like Guillermo del Toro and Salma Hayek represent much more than resurgent interest in the cinema of Mexico In *Screening Neoliberalism* Ignacio Sanchez Prado explores precisely what happened to Mexico s film industry in recent decades Far from just a history of the period *Screening Neoliberalism* explores four deep transformations in the Mexican film industry the decline of nationalism the new focus on middle class audiences the redefinition of political cinema and the impact of globalization This analysis considers the directors and films that have found international notoriety as well as those that have been instrumental in building a domestic market *Screening Neoliberalism* exposes the consequences of a film industry forced to find new audiences in Mexico s middle class in order to achieve economic and cultural viability      *The Anthropology of Globalization* Ted C. Lewellen,2002-06-30

Lewellen gives us the first analytic overview of an important new subject area in a field that has long been identified with the study of relatively bounded communities Globalization refers to the increasing flows of trade finance culture ideas and people brought about by the sophisticated technology of communications and travel and by the worldwide spread of neoliberal capitalism Unlike dependency theory and world systems analysis which tended to assume a bird s eye perspective globalization offers a down and dirty ground up approach in which ethnographic research is not marginal but essential Through multiple examples selected from the latest ethnographic research from all over the world Lewellen examines the ways that globalization impacts migrants and stay at homes peasants and tribal peoples men and women A crucial theme is that the global local nexus is one of unpredictable interaction and creative adaptation not of top down determinism Theoretically globalization studies have become the focal point for the convergence of interpretive anthropology critical anthropology postmodernism and poststructuralism which are combined with a tough empiricism For the casual reader or the classroom this work draws together the ethnographic studies and cutting edge theories that comprise the anthropology of globalization      *Political Modernity and Social Theory* Jose Mauricio Domingues,2024-05-28

Modern liberal democracy and authoritarian collectivism have known diverse political regimes autocratic oligarchic or democratic they each consist of a mixed partly oligarchic regime in which plebeian politics are subordinated With authoritarian collectivism s defeat a return to modernity has produced one more hybrid configuration An in depth investigation of political modernity and how it is differentiated from other forms of society this book researches its origins and trajectory as a specific dimension of modern civilisation

articulating a renewed critical theory through an analysis of rights and law politics state and autonomy social reproduction crisis and political change Examining these diverse aspects Political Modernity and Social Theory proposes an encompassing and far reaching approach spanning past and present stressing radical plebeian democracy and maintaining a strong opening to the future and to possible alternatives to modernity The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution CC BY 4.0 license
