The Impressionists William Gaunt, 1970 The purpose of this book is to describe the aims and achievements of the Impressionist movement and to illustrate them in a magnificent series of colour plates It shows how within the framework of the movement each artist has applied his own interpretation of these aims to landscape portraiture and still life employing new technical methods as he discovered them Jacket **The Impressionists** Michael Wilson, 1990 The fascinating and moving story of the Impressionist painters

Growing Up with the Impressionists Julie Manet, 2017-08-24 Julie Manet the niece of Edouard Manet and the daughter of the most famous female Impressionist artist Berthe Morisot was born in Paris on 14 November 1878 into a wealthy and cultured milieu at the height of the Impressionist era Many young girls still confide their inner thoughts to diaries and it is hardly surprising that with her mother giving all her encouragement Julie would prove to be no exception to the rule At the age of ten Julie began writing her memoirs but it wasn't until August 1893 at fourteen that Julie began her diary in earnest no neat leather bound volume with lock and key but just untidy notes scribbled in old exercise books often in pencil the presentation as spontaneous as its contents Her extraordinary diary newly translated here by an expert on Impressionism reveals a vivid depiction of a vital period in France's cultural history seen through the youthful and precocious eyes of the youngest member of what was surely the most prominent artistic family of the time

The Impressionists Handbook Robert Katz, Dars Celestine, 1999 The two authors who are both knowledgeable writers with extensive background in the study of art and art history write engagingly about the history of impressionism and the life and works of Pissarro Manet Degas Monet Renoir and Sisley At 7x8.5 the book is compact but the format is large enough to accommodate decent reproductions of many of the paintings under consideration This is a thoughtfully prepared well written treatment of the subject with none of the ponderousness that handbook might imply It was originally published in 1991 by Bookmart Ltd UK Annotation copyrighted by Book News Inc Portland OR

Impressionism John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush. Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet, Cézanne, Renoir, Degas and van Gogh. Basically impressionism involved the shedding of traditional painting methods. The subjects of art were taken from everyday life as opposed to the pages of mythology and history. In addition, each artist painted to express feelings of the moment instead of hewing to time-honoured standards. This description of impressionism obviously is quite broad and can apply to a wide array of styles. Nonetheless, it remains a very important school in the annals of art. Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world. This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history's most revered painters. Following this overview is a substantial and selective bibliography featuring access through author, title and subject indexes.

The Impressionists Martha Kapos, 1991 A group of young artists in 1874 in opposition to the established authority of the Salon and the Academy decided to show their work directly to the public in an exhibition which they organized themselves. The artists forming the core of this group, Pissarro, Degas, Sisley, Cézanne, Monet, Renoir and Morisot, came to be known as the Impressionists. Seen to be following the independent spirit of Manet, they were immediately identified as the avant-garde and their first exhibition became an historic landmark in the development of modern art. We now tend to see the landscapes of Impressionist paintings as perfect images of nature. It is easy to overlook their startling and fragmented appearance at the time they were painted. The documents in this book show how the paintings looked to contemporary eyes, to both the critics and the artists. Some of the criticism these paintings received is almost as famous as the works themselves, and several important documents appear here in English translation for the first time. The book tells the story of the personal struggles, debates, problems and solutions involved in a new way of painting that quickly led in unforeseen directions and took enormous risks with the traditional means of representing the world in art. These experiences are revealed in the letters and recorded comments of the artists themselves and in the writings of friends and contemporary critics, many of whom, such as Baudelaire, Zola, Valéry, Mallarmé, Huysmans, Laforgue and Mirbeau, were also novelists and poets. The continuing interpretation of Impressionism within the changing art and art criticism of the twentieth century is examined through the writings of artists such as Leger, Kandinsky, Masson, Matisse and Hofmann, as well as recent critics, philosophers and art historians including Meyer Schapiro, Gaston Bachelard, Clement Greenberg and Lawrence Gowing. The text is illustrated with 116 colour plates and 117 black and white reproductions of photographs, documents and contemporary cartoons, prints and drawings. After Harvard, Martha Kapos studied painting and the history of art at the Chelsea School of Art where she is now teaching. Her art criticism has appeared in various magazines including *Artscribe*, *Art Monthly* and *Screen*. A collection of
