Learning from the Past Jon Balserak,Richard Snoddy,2015-08-27 This collection of essays in honour of Anthony N S Lane has two main foci picking up themes which resonate with some of Lane s most important work The first broad theme is the reception of the thought of earlier generations of biblical interpreters and theologians The essays here explore various facets of reception history textual transmission the identification of editions used the deployment of these sources in doctrinal formulation in polemic and in relation to the contested site of catholicity The second broad theme is engagement with other confessional identities and allegiances The essays presented here shed light on the past and stimulate contemporary theological reflection God as Revealed by Bahá'u'lláh Reynaldo Pareja,2021-03-15 Is it possible that humans can actually know God s intimacy or Essence to the point that they can affirm that such knowledge is correct authentic and authoritative No For the simple reason that man is a created being and thus he is simply incapable of knowing his Creator in such a way and depth that he can affirm that he knows Who God is In fact the contrary is true For any created being the Innermost Essence of his creator is simply Unknowable No human being can fully entirely of sufficiently know its Creator His condition of created being has inherently given each one of us a limited understanding of any reality If this is the human condition in relation to our Creator how can we then be assured that we have an authoritative source that can tell us something about God s Attributes in a way that we can be confident that it is the best and most accurate description At this moment we humans have to rely on a Revelation given to us by a Messenger of God who is so close to Him that he actually has an experience of God that no other human being has This is the objective and intention of this book It is an exploration into what the most recent Messenger of God Bah u ll h has given us as a description of God s Attributes in terms that we can make sense and comprehend a glimpse of the depth and excellence of our Creator You are invited to explore it **The Doctrine of Awakening** Julius Evola,2018-07-13 In a probing analysis of the oldest Buddhist texts Julius Evola places the doctrine of liberation in its original context The early teachings he suggests offer the foremost example of an active spirituality that is opposed to the more passive modern forms of theistic religions This sophisticated highly readable analysis of the theory and practice of Buddhist asceticism first published in Italian in 1943 elucidates the central truths of the eightfold path and clears away the later accretions of Buddhist doctrine Evola describes the techniques for conscious liberation from the world of maya and for achieving the state of transcendence beyond dualistic thinking Most surprisingly he argues that the widespread belief in reincarnation is not an original Buddhist tenet Evola presents actual practices of concentration and visualization and places them in the larger metaphysical context of the Buddhist model of mind and universe The Doctrine of the Awakening is

a provocative study of the teachings of the Buddha by one of Europe's most stimulating thinkers Creation Gore Vidal, 2018-08-22 Once again the incomparable Gore Vidal interprets and animates history this time in a panoramic tour of the 5th century B.C. and embellishes it with his own ironic humor, brilliant insights and piercing observations. We meet a vast array of historical figures in a staggering novel of love, war, philosophy and adventure. There isn't a page of CREATION that doesn't inform and very few pages that do not delight. The New Testament in Comparison John M.G. Barclay, B.G. White, 2020-01-23 The nine essays in this volume written by leading international scholars in New Testament studies examine in new depth the method of comparison so frequently deployed in the study of the New Testament. They raise and reflect on deep questions on the possibility and validity of such comparative exercise on the methods that are most effective and intellectually defensible on the purpose of such comparison and on the perils and pitfalls in such exercises. Addressing these questions at both a theoretical hermeneutical level and through case studies of actual examples, the book provides a much needed and up to date methodological resource for the numerous comparative projects spawned by New Testament studies throughout the world
