The Informed Soul Dovid Gottlieb,1990 **The publishers weekly** ,1991 **Sh'ma** ,1992 1994, ספר ספר

Repair of the Soul Karen E. Starr,2010-04-15 Repair of the Soul examines transformation from the perspective of Jewish mysticism and psychoanalysis addressing the question of how one achieves self understanding that leads not only to insight but also to meaningful change In this beautifully written and thought provoking book Karen Starr draws upon a contemporary relational approach to psychoanalysis to explore the spiritual dimension of psychic change within the context of the psychoanalytic relationship Influenced by the work of Lewis Aron Steven Mitchell and other relational theorists and drawing upon contemporary scholarship in the field of Jewish studies Starr brings the ideas of the Kabbalah the ancient Jewish mystical tradition into dialogue with modern psychoanalytic thought Repair of the Soul provides a scholarly integration of several kabbalistic and psychoanalytic themes relating to transformation including faith surrender authenticity and mutuality as well as a unique exploration of the relationship of the individual to the universal Starr uses the Kabbalah s metaphors as a vivid framework with which to illuminate the experience of transformation in psychoanalytic process and to explore the evolving view of the psychoanalytic relationship as one in which both parties the analyst as well as the patient are transformed *Art and Belief* Ruth Illman,2014-09-19 *Art and Belief* explores communication between faiths through an examination of contemporary artistic practice The book discusses how a range of artists formulate their worldview and what motivates them to engage in dialogue These artists are engaged in a wide range of artistic forms and practice and come to dialogue from diverse religious positions The aim of the book is to question the assumptions of interreligious dialogue as a largely intellectual exercise in defining the religious other and to explore dialogue as a manifestation of interpersonal ethics

Bulletin of the Atomic Scientists ,1955-04 *The Bulletin of the Atomic Scientists* is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *The Bible Doctrine of the Soul* Charles Linnaeus Ives,1877

I You We Them, Vol. 1 Dan Gretton,2020-07-21 A powerful historical investigation into crimes against humanity and those who give the orders from the safety of their desks *The Spectator* A Washington Post Notable Nonfiction Book of the Year A *Spectator* UK Best Book of the Year *I You We Them* is an unprecedented study of the perpetrators of crimes against humanity the desk killers who ordered and directed some of the worst atrocities of the modern era From Albert Speer s complicity in Nazi barbarism to Royal Dutch Shell s role in the murders of Nigerian activist Ken Saro Wiwa and the rest of the Ogoni Nine Dan Gretton probes the depths of the figure who by giving orders uses paper or a phone or a computer to kill instead of a gun Over twenty years Gretton interviewed survivors and perpetrators and pored over archives and thousands of pages of testimony His insight into the psychology of the desk killer is contextualized by the journey he took to penetrate it Woven into the narrative are his contemplative interludes perspectives gleaned during walks in the woods reminiscences about a lost

love and considerations of timeless moral conundrums The result is a genre bending work steeped as much in personal reflection as it is in literature and historical and psychological illumination A synthesis of history reportage and memoir I You We Them is the first volume of a groundbreaking journal of discovery that bears witness to and reckons with the largest and most pressing questions we face Gretton raises profoundly unsettling questions about the capacity for doing evil that exists within all of us and the ways in which the distancing effect of technology allows perpetrators to avoid thinking about the consequences of their actions Irish Times The subject is tremendously important in a time grown ever darker and ever more reminiscent of the darkest days in modern world history Kirkus Reviews A uniquely gripping journey around the landscapes of mass murder Philippe Sands author of East West Street On the Origins of Genocide and Crimes against Humanity

Jewish Records. [With] The Jubilee Record. March, 1878 London society for promoting Christianity amongst the Jews,1818 On the Psychotheology of Everyday Life Eric L. Santner,2007-11-01 In On the Psychotheology of Everyday Life Eric Santner puts Sigmund Freud in dialogue with his contemporary Franz Rosenzweig in the service of reimagining ethical and political life By exploring the theological dimensions of Freud s writings and revealing unexpected psychoanalytic implications in the religious philosophy of Rosenzweig s masterwork The Star of Redemption Santner makes an original argument for understanding religions of revelation in therapeutic terms and offers a penetrating look at how this understanding suggests fruitful ways of reconceiving political community Santner s crucial innovation in this new study is to bring the theological notion of revelation into a broadly psychoanalytic field where it can be understood as a force that opens the self to everyday life and encourages accountability within the larger world Revelation itself becomes redefined as an openness toward what is singular enigmatic even uncanny about the Other whether neighbor or stranger thereby linking a theory of drives and desire to a critical account of sociality Santner illuminates what it means to be genuinely open to another human being or culture and to share and take responsibility for one s implication in the dilemmas of difference By bringing Freud and Rosenzweig together Santner not only clarifies in new and surprising ways the profound connections between psychoanalysis and the Judeo Christian tradition he makes the resources of both available to contemporary efforts to rethink concepts of community and cross cultural communication *The Oracle of Reason, Or, Philosophy Vindicated* ,1842
