The Intelligence Of The Flowers:

The Intelligence of the Flowers Maurice Maeterlinck, 2001 **The Intelligence of Flowers** Maurice Maeterlinck, 2008-01-01 A new translation of one of Maeterlinck's four great nature essays *INTELLIGENCE OF THE FLOWERS* MAURICE. MAETERLINCK, 2018 The Intelligence of the Flowers Maurice Maeterlinck, 1913 The Intelligence of the Flowers Maurice Maeterlinck, Tbd, 2021-10-12 This vegetable world which to us appears so placid so resigned in which all seems acquiescence silence obedience meditation is on the contrary that in which the revolt against destiny is the most vehement and the most stubborn Far from being a botanical study this magnificent poetic work puts the special nature of flowers The Intelligence of the Flowers constitutes a real philosophical discovery of the floral world and particularly its interaction with social insects to give birth to life This original text is surprising by its scientific precision and accuracy Maeterlinck's meticulous observations lead us to a veritable masterpiece of descriptions and fundamental questions bringing into question the observer and the observed Indeed the analogies that he uses between the floral kingdom and that of men make us humble and inquiring moved and pensive This portrayal of the intellectual mechanisms of flowers becomes simultaneously poetic philosophical and political Moving between wonder and knowledge Maeterlinck asks us to preserve the links that unite us with nature Now that an ecological disaster is threatening to destroy this fragile harmony this book is well worth reading Maurice Maeterlinck was awarded the Nobel Prize in Literature in 1911 in appreciation of his many-sided literary activities and especially of his dramatic works which are distinguished by a wealth of imagination and by a poetic fancy which reveals sometimes in the guise of a fairy tale a deep inspiration while in a mysterious way they appeal to the reader's own feelings and stimulate their imaginations Large print edition easy to read layout illustrated *The Intelligence of the Flowers (Classic Reprint)* Maurice Maeterlinck, 2017-10-11 Excerpt from The Intelligence of the Flowers It would be superfluous once more to trace the picture of the great systems of oral fertilization the play of stamens and pistil the seduction of perfumes the appeal of harmonious and dazzling colours the concoction of nectar which is absolutely useless to the owner and is manufactured only to attract and retain 02 1040 About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state-of-the-art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Intelligence of the Flowers** , 2020-03-07 The Intelligence of the Flowers - Primary Source Edition Maurice Maeterlinck, 2013-11 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We
