Snake Oil And Other Preoccupations:

Snake Oil and Other Preoccupations John Diamond, 2001 At his death from cancer journalist John Diamond had completed six chapters of an uncomplimentary look at the world of complementary medicine Written with total candour and his usual wit they appear here together with a selection of emails press articles and excerpts from his final notebook

Using Diaries for Social Research Andy Alaszewski, 2006-02-15 The author considers the analysis of diaries as a distinctive research technique in its own right He recognises the increased interest in and relevance of diary methodology within social research teaching

A Classless Society Alwyn W. Turner, 2013-09-05 Superb NICK COHEN author of What's Left Tremendously entertaining DOMINIC SANDBROOK Sunday Times Like his previous histories of the Seventies and Eighties A Classless Society is an extraordinarily comprehensive work Turner writes brilliantly creating a compelling narrative of the decade weaving contrasting elements together with a natural storyteller's aplomb engaging and unique IRVINE WELSH Daily Telegraph Ravenously inquisitive darkly comical and coolly undeceived Turner is a master of the telling detail CRAIG BROWN Mail on Sunday When Margaret Thatcher was ousted from Downing Street in November 1990 after eleven years of bitter social and economic conflict many hoped that the decade to come would be more caring others hoped that the more radical policies of her revolution might even be overturned Across politics and culture there was an apparent yearning for something the Iron Lady had famously dismissed society The New Britain to emerge would be a contradiction economically unequal but culturally classless Whilst Westminster agonised over sleaze and the ERM the country outside became the playground of the Ladette It was also a period that would see old moral certainties swept aside and once venerable institutions descend into farce followed in the case of the Royal Family by tragedy Opening with a war in the Gulf and ending with the attacks of 11 September 2001 A Classless Society goes in search of the decade when modern Britain came of age What it finds is a nation anxiously grappling with new technologies tentatively embracing new lifestyles and above all forging a new sense of what it means to be British Deserves to become a classic EDWINA CURRIE Rich and encyclopaedic ROGER LEWIS Daily Mail Excellent D J TAYLOR Independent

Problems Are Us Colin Feltham, 2004-02 Maximum Performance Nick Forster, 2005-01-01 This is a big book in more ways than one a detailed and illuminating exploration of leadership qualities attributes skills and competencies the mixture of theory reflective questions stories tools and practical exercises demand a level of thoughtful engagement and self reflection rarely required by books on leadership the Australian content is refreshing as is the lack of evangelistic promises of immediate transformation this book is firmly grounded in supporting the learning and skill development needed for maximum performance Boss magazine August p 55 The Australian Financial Review AFR Boss If we were giving a graduate level class in leadership and people management skills I m a UCLA Business and Management Program instructor I would choose this book as the text If a client asked for a great book to enhance his her leadership skills we consult in organization compensation and performance management this would be one of first books I would suggest It s that good The book offers a comprehensive guide for developing leadership and people management skills It s a powerful broad spectrum leadership toolkit with a wealth of information about skills and practices and hundreds of suggestions and opinions from business and political leaders consultants and academics This book is an outstanding resource for leaders and aspiring leaders It is filled with an abundance of insights the distinction it makes between a leader and a manager is one of the best if not the best we ve read Just a few of the subjects covered are the leadership as servant philosophy leaders as coaches and mentors communication motivation leading and managing teams women as leaders managing power politics and conflict leading organizational and cultural change creating an innovative organization leadership and people management in high tech networked and virtual organizations Throughout the book are bullet point lists exercises and to the point conclusions It is clearly written and superbly organized An excellent bibliography and subject index top off this outstanding work We highly recommend this book Yvette Borgia and Gerry Stern Stern s Management Review Maximum Performance is a comprehensive business tome Although it is designed for students busy executives who use the chapter summaries or chapter sections to focus on topics that interest them will find the book useful Organizations with large collections on management or leadership will want to buy it Business researchers with limited library space or who are looking for a good summary of current management topics may also find the book of value The strength of Maximum Performance is its breadth Forster touches on everything from whether leaders are born or made to Machiavellian strategies for dealing with toxic work environments Anyone interested in ideas on leadership will likely find several sections of interest Those sections that are particularly

strong include the discussions on the different roles and organizational context of leadership key issues in motivating employees the team development process and best practices in leading organizational change Scott R Jenkins Business Information Alert Nick Forster s large text is for MBA students He writes in a clean clear style and frankly admits that leadership and people management skills cannot adequately be learned from books He knows however that good books can help and also that clichés of management can be inspirational and will be used widely though they call for close analysis of substance or context He is in this a modern day Samuel Smiles equipped with a variety of diagnostic tools The Australian In my experience a major shortcoming of most how to books on leadership and management is that they purport to offer Silver Bullets magical solutions that once revealed will enrich and transform the reader and his or her organisation Regrettably

The Insomnia Diaries Miranda Levy, 2021-06-10 A Telegraph readers best book of the year A Financial Times readers best 2021 summer book A powerful new book The Daily Mail Quite the story fascinating Claire Byrne RTE1 This memoir meets manual with expert tips is both honest and helpful Victoria Woodhall Get the Gloss FOREWORD BY DR SOPHIE BOSTOCK 29th June 0 HOURS 0 MINUTES Eleven forty seven pm A door slams as the neighbour s teenage son comes home from the pub An hour later the last Tube rumbles past and I thump my pillow over to find a cool spot I refuse to open the window because of my fear of hearing the first bird of morning confirmation that the next day is about to start and I have failed yet again Failed in my quest to sleep which one would think is a basic human right But I am not a POW whose captors breach the Geneva Convention No one has stolen my sleep from me I am not wired up to electrodes a neon light is not shining in my face all night long I have blackout blinds and a king size bed all to myself My enemies are my brain and a body that has forgotten how to shut down After a single catastrophic event journalist Miranda Levy had one sleepless night then another and then another She sought help from anyone she could doctors a therapist an acupuncturist a hypnotist a reiki practitioner and a personal trainer but nothing seemed to work Sleep wellbeing and mental health are intrinsically linked Yet sleeplessness is surprisingly common 16 million of us suffer from insomnia and the sleep industry is worth 100 billion Daily Mail In *The Insomnia Diaries* Miranda Levy tells the story of her experience of severe disabling insomnia that affected every aspect of her life for years and how she ultimately recovered Part memoir part reportage this book will help anyone who struggles to get a good night s sleep whether occasionally or all of the time appreciate the issues and understand the options as they find their best way to get the rest they need Dr Sophie Bostock scientist sleep expert and member of the team who developed the award winning digital programme Sleepio contributes a foreword She and a host of expert contributors have advised on the medical elements within the text throughout [Handbook of Constructionist Research](#) James A. Holstein, Jaber F. Gubrium, 2013-10-21 Constructionism has become one of the most popular research approaches in the social sciences But until now little attention has been given to the conceptual and methodological underpinnings of the constructionist stance and the remarkable diversity within the field This cutting edge handbook brings together a dazzling array of scholars to

review the foundations of constructionist research how it is put into practice in multiple disciplines and where it may be headed in the future The volume critically examines the analytic frameworks strategies of inquiry and methodological choices that together form the mosaic of contemporary constructionism making it an authoritative reference for anyone interested in conducting research in a constructionist vein

Perspectives on Complementary and Alternative Medicine Tom Heller, Geraldine Lee-Treweek, Jeanne Katz, Julie Stone, Sue Spurr, 2005-02-01 This book explores the challenging issues associated with complementary and alternative medicine in the context of the social political and cultural influences that shape people's health Divided clearly into three sections this book sets out the general context of social change consumption and debate around the rise of public interest in CAM argues for and against different classifications of CAM critically assesses the importance of ethics and values to CAM practice and how these inform what practitioners do focuses on the question of what people want the changing and contested nature of health and the nature of personal and social factors associated with the use of CAM leading to a focus on therapeutic relationships examines the diversity of settings in which CAM takes place and the social political and economic milieu in which CAM is provided and used Together with its accompanying text *Complementary and Alternative Medicine Structures and Safeguards* it forms the core text for the Open University course K221 **Perspectives on Complementary and Alternative Medicine**

are available at www.wileymedicaleducation.com Understanding Medical Education has been brought together and edited by Professor Tim Swanwick Director of Professional Development in the London Deanery Visiting Fellow at the Institute of Education and Visiting Professor of Medical Education at the University of Bedfordshire *Soul Matters* Mabel Aghadiuno, Jas Kalsi, 2017-11-22 In recent years many have come to believe that Western medicine has lost contact with holistic conceptions of health as encompassing physical emotional intellectual social and spiritual dimensions Spiritual may imply religious or faith based values or experience but also non material factors such as an appreciation of natural beauty art music moral values or beliefs from which a person draws meaning and a sense of transcendence Equally many people are unaware of a spiritual dimension to life and health until illness or trauma strikes However coming to terms with life events deriving meaning from them and incorporating them into their life philosophy may then be experienced as a deep spiritual crisis with ramifications in their wider health and implications for the health professionals who treat them This book considers the meaning of holistic health care and explores the spiritual dimension of health through the narratives of fictional and non fictional patients It discusses how to discern when a patient's distress has a spiritual dimension the implications of this for health professionals and ways in which spiritual factors can be addressed and discussed within healthcare When it comes to questions about meaning and purpose such as what is the point of all this A or why is this happening to me A when we meet patients in the depths of despair at the prospect of imminent death when we ourselves feel hopeless and overwhelmed in the face of an avalanche of human suffering then we begin to struggle We do not know what we could do nor even what we should do Our professional training doesn't help We are stuck With this beautiful book Mabel Aghadiuno comes to our rescue Christopher Dowrick in his Foreword *The Palgrave Dictionary of Anglo-Jewish History* W. Rubinstein, 2011-01-27 This authoritative and comprehensive guide to key people and events in Anglo Jewish history stretches from Cromwell's readmittance of the Jews in 1656 to the present day and contains nearly 3000 entries the vast majority of which are not featured in any other sources *Mental Health, Psychiatry and the Arts* Victoria Tischler, 2018-10-08 Medicine and psychiatry both based on science require the art of caring using the principles of art in learning and teaching Sitting with a patient making sense of their distress being empathetic in understanding both the symptoms and the person and alleviating suffering needs a human touch For that doctors need the soul of an artist and must be aware of the value that arts have for society and the individual from the Foreword by Dinesh Bhugra This comprehensive book explores how visual art cinema music poetry literature and drama can inform the teaching and practice of psychiatrists and mental health professionals Edited and written by a team of expert practitioners teachers and researchers including both clinicians and users of mental health services this comprehensive book will provide valuable insights for undergraduate and postgraduate educators with teaching responsibilities in psychiatry and mental health Students of the medical humanities art music and drama therapists and educators in occupational therapy and psychology will also find this a valuable and insightful

handbook The authors of this wonderful handbook provide a convincing argument that the arts are good for what ails us They have each used a preferred artistic medium to deepen personal reflection and to enhance their own creativity as physicians teachers and therapists Their models are clear their suggestions practical but none of the approaches you ll find here is reductive or simplistic Try some of the reflective exercises and teaching strategies You will be sure to rediscover something you have always cherished about the art of healing from the Foreword by Allan D Peterkin A ^ACondition of Doubt Catherine Belling,2012-06-29 A Condition of Doubt seeks to change the way we think about hypochondria and to use hypochondria to sharpen our thinking about health care It claims that contemporary hypochondria should be understood less as mental illness in particular patients than as a rational if maladaptive condition emerging from gaps between doctors and patients expectations of contemporary Western medicine **Why Statues Weep** Wendy M. Grossman,Christopher C. French,2017-09-19 First Published in 2016 Why do statues weep Did Nostradamus really predict 9 11 Is it true that we only use 10% of our brain power Does quantum theory explain the mystery of consciousness For 21 years questions like these have been posed and answered in the pages of The Skeptic magazine Britain s foremost and longest running sceptical magazine dedicated to the examination of science scepticism psychology secularism critical thinking and claims of the paranormal in short the pursuit of truth through reason and evidence This collection brings together the best articles from the magazine s archive in one myth busting volume It covers a wide range of topics such as psychic fraudsters claims of psychic healing and alien abduction near death experiences false memories and much more Contributors include Susan Blackmore Richard Wiseman John Diamond Edzard Ernst plus interviews with Paul Daniels and Stephen Fry With a foreword by Simon Hoggart this collection will simultaneously provide you with food for thought and keep you entertained *Life Without Diabetes* Roy Taylor,2025-06-04 Transform your life with Professor Roy Taylor s revolutionary 3 step plan whose research inspired The 8 Week Blood Sugar Diet Now updated with the latest scientific research Professor Roy Taylor is one of the world s leading experts in type 2 diabetes who discovered that this life limiting disease is a reversible condition With his team of researchers at Newcastle University in the UK he launched a series of studies culminating in a multi million dollar trial which confirmed that simple dietary changes can bring about lasting remission In this updated edition with a new chapter on type 2 diabetes in young people Taylor brings his knowledge and experience of four decades of treating people with diabetes and explains exactly what is happening in the body as type 2 develops Alongside delicious tried and tested recipes he presents his brilliant 3 step weight loss plan that enables you to reverse your diabetes and live a full healthy life beyond it *Suckers* Rose Shapiro,2010-09-30 Alternative medicine is now used by one in three of us In the UK we spend an estimated 4 5 billion a year on it and its practitioners are now insinuating themselves into the mainstream There are methods based on ancient or far eastern medicine as well as ones invented in the nineteenth and twentieth centuries Many are promoted as natural treatments What they have in common is that there is no hard evidence that any of them work

Treatments like homeopathy acupuncture and chiropractic are widely available and considered reputable by many Ever more bizarre therapies from naturopathy to nutraceuticals ear candling to ergogenics are increasingly favoured Endorsed by celebrities and embraced by the middle classes alternative medicine s appeal is based on the spurious rediscovery of ancient wisdom and the supposedly benign quality of nature Surrounded by an aura of unquestioning respect and promoted through uncritical airtime and column inches alternative medicine has become a lifestyle choice Its global market is predicted to be worth 5 trillion by 2050 Suckers reveals how alternative medicine can jeopardise the health of those it claims to treat leaches resources from treatments of proven efficacy and is largely unaccountable and unregulated In short it is an industry that preys on human vulnerability and makes fools of us all Suckers is a calling to account of a social and intellectual fraud a bracing funny and popular take on a global delusion **Evil Eye in Christian Orthodox Society** Nikolaos

Souvlakis,2021-06-11 Evil eye is a phenomenon observed globally and has to do with the misfortune and calamities that we can cause to someone else out of jealousy of their possessions The book engages with evil eye beliefs in Corfu and investigates the Christian Orthodox influences on the phenomenon and how it affects individuals reactions to it Developing an interdisciplinary dialogue it offers a fresh view of evil eye as a facilitator of wellbeing rather than a generator of calamities

Analysing Qualitative Data in Psychology Evanthia Lyons,Adrian Coyle,2007-10-25 Analysing Qualitative Data in Psychology equips students and researchers in psychology and the social sciences to carry out qualitative data analysis focusing on four major methods grounded theory interpretative phenomenological analysis discourse analysis and narrative analysis Assuming no prior knowledge of qualitative research chapters on the nature assumptions and practicalities of each method are written by acknowledged experts To help students and researchers make informed methodological choices about their own research the book addresses data collection and the writing up of research using each method while providing a sustained comparison of the four methods backed up with authoritative analyses using the different methods
