Quinn, 1996 The aim of *Recharting the Thirties* is to revitalize the awareness of the reading public with regard to eighteen writers whose books have been largely ignored by publishers and scholars since their major works first appeared in the thirties The selection is not based on a political agenda but encompasses a wide and divergent range of philosophies clearly the contrasts between Empson and Upward or between Powell and Slater indicated the wide ranging vision of the period Women writers of the period have largely been marginalized and the writings of Sackville West and Burdekin for example not only present distinct feminine voices of the period but also illuminate how much good literature has been forgotten **The Oxford Encyclopedia of British Literature** David Scott Kastan, 2006-03-03 From folk ballads to

film scripts this new five volume encyclopedia covers the entire history of British literature from the seventh century to the present focusing on the writers and the major texts of what are now the United Kingdom and the Republic of Ireland In five hundred substantial essays written by major scholars the Encyclopedia of British Literature includes biographies of nearly four hundred individual authors and a hundred topical essays with detailed analyses of particular themes movements genres and institutions whose impact upon the writing or the reading of literature was significant An ideal companion to The Oxford Encyclopedia of American Literature this set will prove invaluable for students scholars and general readers For more information including a complete table of contents and list of contributors please visit www.oup.com/us/eb1

A Companion to Modernist Poetry David E. Chinitz, Gail McDonald, 2014-03-31 A COMPANION TO MODERNIST POETRY A Companion to Modernist Poetry A Companion to Modernist Poetry presents contemporary approaches to modernist poetry in a uniquely in depth and accessible text The first section of the volume reflects the attention to historical and cultural context that has been especially fruitful in recent scholarship The second section focuses on various movements and groupings of poets placing writers in literary history and indicating the currents and countercurrents whose interaction generated the category of modernism as it is now broadly conceived The third section traces the arcs of twenty one poets careers illustrated by analyses of key works The Companion thus offers breadth in its presentation of historical and literary contexts and depth in its attention to individual poets it brings recent scholarship to bear on the subject of modernist poetry while also providing guidance on poets who are historically important and who are likely to appear on syllabi and to attract critical interest for many years to come Edited by two highly respected and notable critics in the field A Companion to Modernist Poetry boasts a varied list of contributors who have produced an intense focused study of modernist poetry

Poetry, Publishing, and Visual Culture from Late Modernism to the Twenty-first Century Natalie Pollard, 2020-05-27 This is a book about contemporary literary and artistic entanglements word and image media and materiality inscription and illustration It proposes a vulnerable fugitive mode of reading poetry which defies disciplinary categorisations embracing the open endedness and provisionality of forms This manifests itself interactively in the six case studies which have been chosen for their distinctness and diversity across the long twentieth century the book begins with the early twentieth century work of writer and artist Djuna Barnes exploring her re animation of sculptural and dramatic sources It then turns to the late modernist artist and poet David Jones considering his use of the graphic and plastic arts in *The Anathemata* and next to the underappreciated mid century poet F T Prince whose work uncannily re activates Michelangelo s poetry and sculpture The second half of the book explores the collaborations of the canonical poet Ted Hughes with the publisher and artist Leonard Baskin during the 1970s the innovative late twentieth century poetry of Denise Riley who uses page space and embodied sound as a form of address and finally the contemporary poet Paul Muldoon who has collaborated with photographers and artists as well as ventriloquising nonhuman phenomena The resulting unique study offers contemporary writers and readers a new understanding of literary

artistic and nonhuman practices and shows the cultural importance of engaging with their messy co dependencies The book challenges critical methodologies that make a sharp division between the textual work and the extra literary and raises urgent questions about the status and autonomy of art and its social role

Poet of the Medieval Modern Francesca Brooks, 2021 The early Middle Ages provided twentieth century poets with the material to re imagine and rework local religious and national identities in their writing Poet of the Medieval Modern focuses on a key figure within this tradition the Anglo Welsh poet and artist David Jones 1895 1974 representing the first extended study of the influence of early medieval English culture and history on Jones and his novel length late modernist poem The Anathemata 1952 Jones s second major poetic project after In Parenthesis 1937 The Anathemata fuses Jones s visual and verbal arts to write a Catholic history of Britain as told through the history of man as artist Drawing on unpublished archival material including manuscripts sketches correspondence and most significantly the marginalia from David Jones s Library this volume reads with Jones in order to trouble the distinction between poetry and scholarship Placing this underappreciated figure firmly at the centre of new developments in Modernist and Medieval Studies Poet of the Medieval Modern brings the two fields into dialogue and argues that Jones uses the textual and material culture of the early Middle Ages including Old English prose and poetry Anglo Latin hagiography early medieval stone sculpture manuscripts and historiography to re envision British Catholic identity in the twentieth century long poem Jones returned to the English record to seek out those moments where the histories of the Welsh had been elided or erased At a time when the Middle Ages are increasingly weaponised in far right and nationalist political discourse the book offers a timely discussion of how the early medieval past has been resourced to both shore up and challenge English hegemonies across modern British culture

Poetic Revelations Mark S. Burrows, Jean Ward, Małgorzata Grzegorzewska, 2016-08-12 This book explores the much debated relation of language and bodily experience i e the flesh considering in particular how poetry functions as revelatory discourse and thus relates to the formal horizon of theological inquiry The central thematic focus is around a phenomenology of the flesh as that which connects us with the world being the site of perception and feeling joy and suffering and of life itself in all its vulnerability The voices represented in this collection reflect interdisciplinary methods of interpretation and broadly ecumenical sensibilities focusing attention on such matters as the revelatory nature of language in general and poetic language in particular the function of poetry in society the question of Incarnation and its relation to language and the poetic arts the kenosis of the Word and human embodiment in relation to the word enfleshed in poetry
