Cold War Spy Stories from Eastern Europe Valentina Glajar,Alison Lewis,Corina L. Petrescu,2019-08-01 During the Cold War stories of espionage became popular on both sides of the Iron Curtain capturing the imagination of readers and filmgoers alike as secret police quietly engaged in surveillance under the shroud of impenetrable secrecy And curiously in the post Cold War period there are no signs of this enthusiasm diminishing The opening of secret police archives in many Eastern European countries has provided the opportunity to excavate and narrate for the first time forgotten spy stories Cold War Spy Stories from Eastern Europe brings together a wide range of accounts compiled from the East German Stasi the Romanian Securitate and the Ukrainian KGB files The stories are a complex amalgam of fact and fiction history and imagination past and present These stories of collusion and complicity betrayal and treason right and wrong and good and evil cast surprising new light on the question of Cold War certainties and divides Purchase the audio edition **Improving**

Natural Resource Management Timothy C. Haas,2011-01-13 The decision to implement environmental protection options is a political one These and other political and social decisions affect the balance of the ecosystem and how the point of equilibrium desired is to be reached This book develops a stochastic temporal model of how political processes influence and are influenced by ecosystem processes and looks at how to find the most politically feasible plan for managing an at risk ecosystem Finding such a plan is accomplished by first fitting a mechanistic political and ecological model to a data set composed of observations on both political actions that impact an ecosystem and variables that describe the ecosystem The parameters of this fitted model are perturbed just enough to cause human behaviour to change so that desired ecosystem states occur This perturbed model gives the ecosystem management plan needed to reach desired ecosystem states To

construct such a set of interacting models topics from political science ecology probability and statistics are developed and explored Key features Explores politically feasible ways to manage at risk ecosystems Gives agent based models of how social groups affect ecosystems through time Demonstrates how to fit models of population dynamics to mixtures of wildlife data Presents statistical methods for fitting models of group behaviour to political action data Supported by an accompanying website featuring datasets and JAVA code This book will be useful to managers and analysts working in organizations charged with finding practical ways to sustain biodiversity or the physical environment Furthermore this book also provides a political roadmap to help lawmakers and administrators improve institutional environmental management decision making
