This volume, the ninth in the series of The Variorum Edition of the Poetry of John Donne, presents newly edited critical texts of 25 love lyrics. Based on an exhaustive study of the manuscripts and printed editions in which these poems have appeared, Volume 4.2 details the genealogical history of each poem accompanied by a thorough prose discussion as well as a General Textual Introduction of the Songs and Sonets collectively. The volume also presents a comprehensive digest of the commentary on these Songs and Sonets from Donne's time through 1999. Arranged chronologically within sections, the material for each poem is organized under various headings that complement the volume's companions, Volume 4.1 and Volume 4.3. The University of Missouri Studies John Richard Roberts, 1978 **The Gestalts of Mind and Text** Chanita Goodblatt, Joseph Glicksohn, 2022-05-12. The Gestalts of Mind and Text bridges literary studies and cognitive psychology to provide a unique contribution to the field of Cognitive Literary Studies. The book presents an investigation of metaphor in poetic texts adopting and developing empirical methods used by Gestalt Psychology while integrating concepts informed by Gestalt Psychology. The title indicates an intellectual tradition to be termed the Gestalt of the Mind that begins with the Würzburg School of Psychology and its subsequent development into Gestalt Psychology, which provides a rich heritage for the field of Cognitive Literary Studies. The title further indicates an intellectual and creative tradition to be termed the Gestalt of the Text applied to various literary schools: Medieval, Early Modern, Modernist. Finally, the Gestalt Interaction Theory of Metaphor delineates the potentialities for different types of readings of poetic metaphor. This book further makes three significant contributions: the first is the focus on the empirical investigation of metaphor in poetic texts; the second is the integration of the aspects of problem solving, bidirectionality of metaphor, embodied cognition, and the grotesque in analyzing poetic texts and verbal protocols; and the third is the focus on various literary traditions spanning languages and periods. The goal of this book is to present an interdisciplinary study of the Gestalts of Mind and Text. This will be of interest to a varied audience including cognitive psychologists, literary scholars, researchers in aesthetics, scholars of metaphor, and those with an interest in intellectual history. **The Temple and the Liturgy** Gayle Gaskill, 1986 *NTSU Books*, 1971 **Library of Congress Catalog** Library of Congress, 1974-10.
