The Consecration And Blessing Of Churches A Historical Synopsis And Commentary:

The Consecration and Blessing of Churches Thaddeus Stanislaus Ziolkowski, 1986 *The Canon Law Collection of the Library of Congress* Library of Congress, 2003 Ferreira Ibarra Dario C Compiler The Canon Law Collection of the Library of Congress A General Bibliography with Selective Annotations Washington Library of Congress 1981 xiii 210 pp 8 1 2 x 11 Reprinted 2004 by The Lawbook Exchange Ltd LCCN 2003052789 ISBN 1 58477 366 9 Cloth 150 The Library of Congress has one of the largest collections of published Canon Law materials in the world This bibliography which includes all items catalogued before 1980 is thus a powerful guide to a body of legal literature that dates back to the birth of printing The first three sections cover early editions of the Code of Canon Law the code s historical foundations and the decisions of the Roman Rota or the Church s jurisprudence The remaining sections correspond exactly to the divisions of the Code of Canon Law and cover such subjects as persons things procedural law and crimes and penalties Comprehensive author and subject indexes are included as well Images and Objects in Ritual Practices in Medieval and Early Modern Northern and Central Europe Krista Kodres, Anu Mänd, 2014-07-18 This multidisciplinary collection of essays explores the functions meanings and use of images and objects in various late Medieval and Early Modern social practices which were linked by their ritual character The book approaches ritual as an action which is discussed under the general umbrella term performative practice and is characterised by a synthesis between the repetitive and the extraordinary that carries an intense symbolic meaning and is emotionally charged Images spaces and rituals were closely interconnected in both the religious and the secular spheres and played a relevant role in the symbolic communication of the time The essays in this volume are devoted to a complex study of these phenomena in Northern and Central Europe including regions which due to linguistic or cultural barriers have thus far received comparatively little attention in Anglo American scholarship including Scandinavia Poland and the Baltic states

Understanding Medieval Liturgy Helen Gittos, Sarah Hamilton, 2017-05-15 This book provides an introduction to current work and new directions in the study of medieval liturgy It focuses primarily on so called occasional rituals such as burial church consecration exorcism and excommunication rather than on the Mass and Office Recent research on such rites challenges many established ideas especially about the extent to which they differed from place to place and over time and how the surviving evidence should be interpreted These essays are designed to offer guidance about current thinking especially for those who are new to the subject want to know more about it or wish to conduct research on liturgical topics Bringing together scholars working in different disciplines history literature architectural history musicology and theology time periods from the ninth to the fifteenth centuries and intellectual traditions this collection demonstrates the great potential that liturgical evidence offers for understanding many aspects of the Middle Ages It includes essays that discuss the practicalities of researching liturgical rituals show through case studies the problems caused by over reliance on modern editions explore the range of sources for particular ceremonies and the sort of questions which can be asked of them and go

beyond the rites themselves to investigate how liturgy was practised and understood in the medieval period Sent Out into the World Michael McGourty, 2024-01-29 Sent Out into the World contains a liturgical theology for a parish community and the new evangelization that is derived from a reading of The Order of the Dedication of a Church For this reason its content can be attributed directly to a liturgical rite of the Catholic Church It is not the creation of any one person but rather an exercise in *lex orandi lex credendi* It presents a vision of the parish that comes directly from a rite of the church and focuses the parish community and its members on the mission that it has within the body of Christ Applying the content of the *ordo* to a parish community it presents a theology for those communities in which most Catholics meet the Lord and practice their faith The liturgical theology for a parish community that is presented here focuses all parish communities on Christ and his presence in the liturgical celebrations that take place in the parish churches As this ritual powerfully reminds the baptized from the liturgical and sacramental celebrations in which they encounter Christ in their parish church the faithful are to be sent out into the world as ministers of the new evangelization By reading this book every Christian who practices his or her faith within a parish community will be reminded of the mission which they are called to live as members dismissed to go into the world at the end of every eucharistic celebration *The Consecration and Blessing of Churches* Thaddeus S.

Ziolkowski, 2013-10 CUA Press is proud to announce the CUA Studies in Canon Law In conjunction with the School of Canon Law of the Catholic University of America we are making available both digitally and in print more than 400 canon law dissertations from the 1920s 1960s many of which have long been unavailable These volumes are rich in historical content yet remain relevant to canon lawyers today Topics covered include such issues as abortion excommunication and infertility Several studies are devoted to marriage and the annulment process the acquiring and disposal of church property including the union of parishes the role and function of priests vicars general bishops and cardinals and juridical procedures within the church For those who seek to understand current ecclesial practices in light of established canon law these books will be an invaluable resource Medieval Allegory and the Building of the New Jerusalem Ann Raftery Meyer, 2003 The chantry movement in late medieval England is situated in this context and leads to a demonstration of the movement's associations with the highly wrought poem *Pearl* and its companion poems the book analyses *Pearl* as medieval architecture offering fresh perspectives on its elaborate construction and historical context BOOK JACKET Bad Christians, New Spains Byron

Ellsworth Hamann, 2019-10-28 This book centers on two inquisitorial investigations both of which began in the 1540s One involved the relations of Europeans and Native Americans in an Oaxacan town in New Spain today's Mexico The other involved relations of Moriscos recent Muslim converts to Catholicism and Old Christians people with deep Catholic ancestries in the Mediterranean kingdom of Valencia in the old Spain Although separated by an ocean the social worlds preserved in the inquisitorial files share many things By comparing and contrasting the two inquisitions Hamann reveals how very local practices and debates had long distance parallels that reveal the larger entanglements of a transatlantic early modern world

Through a dialogue of two microhistories he presents a macrohistory of large scale social transformation We see how attempts in both places to turn old worlds into new ones were centered on struggles over materiality and temporality By paying close attention to theories and practices of reduction and conversion Hamann suggests we can move beyond anachronistic models of social change as colonization and place questions of time and history at the center of our understandings of the sixteenth century past The book is an intervention in major debates in both history and anthropology about the writing of global histories our conceptualizations of the colonial the nature of religious and cultural change and the roles of material things in social life and the imagination of time

No Closure John C. Seitz, 2011-06-07 In 2004 the Roman Catholic Archdiocese of Boston announced plans to close more than eighty churches Distraught parishioners occupied several of these buildings in opposition to the decrees Seitz tells the stories of these resisting Catholics in their own words illuminating how they were drawn to reconsider the past and its meanings
