

An aerial photograph of a beach at sunset or sunrise. The ocean waves are breaking onto the shore, creating white foam. The sand is a warm, golden-brown color. The sky is not visible, but the lighting suggests a low sun. The text is overlaid on the image in a dark, semi-transparent box.

The national park is the  
best idea America ever had.

James Bryce

# The Idea Of America

**Giovanna Dell'Orto**

## **The Idea Of America:**

*The Idea of America* Gordon S. Wood, 2011 Because the U S began as an idea Pulitzer Prize winning historian Gordon S Wood believes that the American Revolution is the most important event in our history bar none American identity is not based on any universally shared heritage so we have had to return to our nation s founding to understand who we are Wood explores the ideological origins of the revolution s attempts to forge an American democracy and traces the origins of American exceptionalism What may simply seem like audacity now was considered radical in the 18th century Today there exists what Wood calls a terrifying gap between the founders and us such that it requires almost an act of imagination to fully recapture their era Because we now take our democracy for granted it is nearly impossible for us to appreciate how deeply the founders feared their grand experiment in liberty could evolve into monarchy or dissolve into mob rule Gracefully written and filled with insight *The Idea of America* helps us to

**The Idea of America** Darren Walker, 2025-09-03 Darren Walker has lived the promise of America Born to a single mother in a Louisiana charity hospital the pride of Head Start and public schools in rural East Texas Walker serves today as the tenth President of the Ford Foundation among the largest private foundations in the United States Since 2013 he has overseen more than 7 billion in grantmaking while transforming philanthropy and inspiring conversations about and commitments to democratic values and institutions around the world As Walker writes I have lived on both sides of American inequality And I know all too personally that the distance between the two has never been greater In *The Idea of America Reflections on Inequality Democracy and the Values We Share* Walker argues that we can narrow our widening divides by rediscovering our common aspirations and common good With an original foreword by President William Jefferson Clinton this prescient timely compendium introduces us to an essential leader of and for our moment in his own words through his most essential reflections essays and speeches Across 97 selected pieces many published here for the first time Walker shares from his Uniquely American story and extraordinary life s journey Bold leadership of the Ford Foundation whose efforts and assets he marshaled to uproot inequalities of all kinds Audacious vision for a philanthropy that prioritizes justice beyond generosity and that practices a new Gospel of Wealth for our new gilded age Lifelong passion for arts and culture wellsprings of empathy and of social change Trailblazing advocacy for a more democratic capitalism which ensures that where markets lead justice follows Urgent reaffirmation of America s enduring promise that from many we are one and that all deserve dignity fairness and opportunity Ultimately Walker calls for courageous moral leadership from us all challenging us to step back from the extremes to lean into nuance and complexity and to build longer bridges Hope Walker affirms is the oxygen of democracy *The Idea of America* gives powerful testimony to all that is possible if we renew our fidelity to the values that bind us both despite and because of our differences

*The Idea of America* , 1977

*The Expatriate Perspective: American Novelists and the Idea of America* Harold T. McCarthy, 1974 Assesses the attitudes toward America held by writers since the time of James Fenimore Cooper who have left the country to

live in Europe      **The Idea of America** William Bonner,2011-07      **The Idea of America** Elie Maynard Adams,1977

The American Experiment and the Idea of Democracy in British Culture, 1776-1914 Ruth Livesey,2016-04-01 In nineteenth century Britain the effects of democracy in America were seen to spread from Congress all the way down to the personal habits of its citizens Bringing together political theorists historians and literary scholars this volume explores the idea of American democracy in nineteenth century Britain The essays span the period from Independence to the First World War and trace an intellectual history of Anglo American relations during that period Leading scholars trace the hopes and fears inspired by the American model of democracy in the works of commentators including Thomas Paine Mary Wollstonecraft Alexis de Tocqueville Charles Dickens John Stuart Mill Richard Cobden Charles Dilke Matthew Arnold Henry James and W T Stead By examining the context of debates about American democracy and notions of culture citizenship and race the collection sheds fresh light on well documented moments of British political history such as the Reform Acts the Abolition of Slavery Act and the Anti Corn Law agitation The volume also explores the ways in which British Liberalism was shaped by the American example and draws attention to the importance of print culture in furthering radical political dialogue between the two nations As the comprehensive introduction makes clear this collection makes an important contribution to transatlantic studies and our growing sense of a nineteenth century modernity shaped by an Atlantic exchange It is an essential reference point for all interested in the history of the idea of democracy its political evolution and its perceived cultural consequences      **The Idea of America** ,2003-01-01 What is America What does it mean to be American In their new book The Idea of America visionaries Pierre Lemieux and William Bonner tackle these timeless questions with a refreshingly unique approach Lemieux and Bonner carefully chose each of the written works included in this striking anthology to spark imagination thought and debate Readers are invited to reexamine long accepted notions of what America is and what it means to be an American      **The Idea of Fraternity in America** Wilson C. McWilliams,Wilson C.. McWilliams,Wilson Carey Mac Williams,1973-01-01 A biography of Woody Guthrie a singer who wrote over 3 000 folk songs and ballads as he traveled around the United States including This Land is Your Land and So Long It s Been Good to Know Yuh      **The Idea of America** Wendy Lynn Wall,1998      The Idea of Race in Latin America, 1870-1940 Richard Graham,Thomas E. Skidmore,Aline Helg,Alan Knight,1990-04 From the mid nineteenth century until the 1930s many Latin American leaders faced a difficult dilemma regarding the idea of race On the one hand they aspired to an ever closer connection to Europe and North America where during much of this period scientific thought condemned nonwhite races to an inferior category Yet with the heterogeneous racial makeup of their societies clearly before them and a growing sense of national identity impelling consideration of national futures Latin American leaders hesitated What to do Whom to believe Latin American political and intellectual leaders sometimes anguished responses to these dilemmas form the subject of The Idea of Race in Latin America Thomas Skidmore Aline Helg and Alan Knight have each contributed chapters that succinctly

explore various aspects of the story in Brazil Argentina Cuba and Mexico While keenly alert to the social and economic differences that distinguish one Latin American society from another each author has also addressed common issues that Richard Graham ably draws together in a brief introduction Written in a style that will make it accessible to the undergraduate this book will appeal as well to the sophisticated scholar *The Idea of America* John Oliver Wilson,2017

*Providence and the Invention of the United States, 1607-1876* Nicholas Guyatt,2007-07-23 Nicholas Guyatt offers a completely new understanding of a central question in American history how did Americans come to think that God favored the United States above other nations Tracing the story of American providentialism this book uncovers the British roots of American religious nationalism before the American Revolution and the extraordinary struggles of white Americans to reconcile their ideas of national mission with the racial diversity of the early republic Making sense of previously diffuse debates on manifest destiny millenarianism and American mission Providence and the Invention of the United States explains the origins and development of the idea that God has a special plan for America This conviction supplied the United States with a powerful sense of national purpose but it also prevented Americans from clearly understanding events and people that could not easily be fitted into the providential scheme *America's Race Problem* Paul R. Lehman,2009-08-18 In this book Lehman examines America s race problem with the understanding that America usually addresses race with the assumption that all things regarding race are presently correct and accurate In so doing America fails to confront the real problem of race After discussing various aspects of race and its manifestations using both academic and secular references the book presents a challenge to America to recognize its race problem by examining its present day perceptions language and behavior Some of the topics discussed include color normalcy racial priority and slavery s legacy The chapter The Race Box will engage the reader in a discussion that can have a major impact on the way race is viewed by individuals in American society **The Founders and the Idea of a National University** George Thomas,2015 Constituting the American Mind is about early efforts to establish a national university and what those efforts say about the nature and logic of American Constitutionalism This book offers the first in depth study of the efforts to establish a national university from a constitutional perspective While mostly noted in passing the national university was put forward by every president from Washington to John Quincy Adams as a necessary supplement to the formal institutions of government it would help constitute the American mind in a manner that carried forward the ideas the constitution rested on including for example the separation of the civic from the theological **The Hidden Power of the American Dream** Giovanna Dell'Orto,2007-12-30 On the day after the tragic terrorist attacks of 9 11 newspapers across Europe proclaimed We Are All Americans in many different languages crystallizing the solidarity that so many people around the world felt at that time But in the years since that beautiful friendship between Americans and Europeans evaporated leaving in its place a growing resentment so deep that Americans traveled overseas with Canadian flags stitched to their backpacks while Europeans held candlelight vigils for the removal of

President George W Bush Dell Orto argues persuasively that the answer to the question of where do we go from here lies in whether non Americans keep believing in the American dream Only if that dream continues to be the root of America s power as this book shows it has been since the United States first stepped onto the international stage can America not go the way of all other superpowers in history down and out Through analysis of thousands of Western European media articles and government publications about the United States this book for the first time shows what the essence of America is to non Americans and why that matters to Americans in a very practical way because it sets limits to what the nation can accomplish Dell Orto argues persuasively that Europe s United States is the revered concept America the exceptional dream that the land of plenty of opportunity can really exist that the experiment in democracy can really work for all those who choose to become Americans This is a great U S asset since it makes America uniquely powerful in Europe s eyes infinitely mightier than the march of Marines and McDonald s alone would warrant Herein lie the uniqueness and the urgency of this book European public opinion shape s Europe s reaction at least as much as U S actions do
