WOW functions as a group of kits without the cost of a kit. Ancillaries other publishers might make you pay extra for are included with the teacher's guides for each level of the WOW series at a very affordable price. Plus few supplies are needed for delivering the dynamic lessons found in WOW and the few little things you might need for activities or demonstrations are inexpensive and easily found in a school or discount store. That means that you can deliver WOW content expertly, smoothly, and affordably with very little prep time.

Coordinated School Health Connections Today's child needs an updated, multifaceted approach in order to achieve health literacy or the ability to make choices that will enhance personal health and well-being now and in the future. For many years the Centers for Disease Control and Prevention (CDC) have promoted the key to children's health and well-being through their Coordinated School Health Model. This model encompasses eight interactive areas: Health education, Physical education, Health services, Nutrition services, Counseling, psychological and social services, Healthy school environment, Health promotion for staff, Family and community involvement. WOW Delivers Coordinated School Health. With concern rapidly growing about childhood obesity, inactivity, and other health risks such as type 2 diabetes, states and municipalities are now responding by passing laws requiring coordinated school health. The WOW Health Education series meets these needs by providing the four components that are most frequently required: Health education core content meeting the relevant national standards, Physical education helping students meet the national standards, Parent involvement newsletters provided per unit and per grade level in both English and Spanish, Nutrition education and services for students and parents alike. Professional development opportunities are available through the authors to support each essential component.

This Is How WOW Works Each level of The World of Wellness Health Education series consists of the following: a teacher's guide, a teacher's resource CD-ROM, a student book that corresponds to the students' levels. For kindergarten students, the student book is a big book, a large, colorful book for the teacher to read to the group. First through fifth grade students have their own books. In addition, an abridged first grade student book is available in big book format.

Color Coding Across the series, kindergarten through fifth grade WOW uses a color-coded system to denote grade levels. This allows you the additional flexibility of using a lower level to meet the needs of students with academic challenges or a higher level to challenge gifted students. In today's world of tight budgets and increasing demands on school resources, rest assured that the WOW student books are not intended to be used as workbooks. Rather, they are meant to last multiple years while still being cost-effective. This complies with the directives of most school districts not to purchase student consumables. **Publish!.**
