**Congressional Committee Chairmen** Andrée E. Reeves,2021-12-14 Congress does most of its work in committee and no understanding of that body can be complete without an analysis of its committees and those who shape them Andr e Reeves now offers a rare glimpse into the workings of committee chairmanship over a span of thirty three years how three chairmen operated and how they influenced their committee and its impact As Reeves demonstrates the chair is the most important player in a congressional committee the one who holds more cards than his colleagues and can deal a winning hand or call a bluff His use of institutional and personal resources affects the committee the chamber and public policy As a case study Reeves compares the leadership of three disparate and strong House Education and Labor Committee chairmen who served from 1950 to 1984 Graham A Barden D NC Adam Clayton Powell D NY and Carl D Perkins D KY She delves into each chairman s background orientation and use of resources Each had his own brand of leadership she finds and a pronounced but different impact on Education and Labor The committee blocked progressive legislation under Barden facilitated Johnson s Great Society under Powell and fought tooth and nail to maintain its accomplishments under Perkins Reeves emphasizes also committee development including the effects of reforms the relationship between committee composition and policy output and committee voting patterns Rather than advancing smoothly and incrementally Education and Labor developed in stages that coincided with each chairmanship And over the years covered it evolved into a more complex decentralized and democratic organization This is an illuminating study of three men who made a difference in our nation s governance They left a legacy for succeeding chairmen and indeed for the House and their chairmanships have had a lasting impact on our society Presidential Elections & American Politics Herbert B.
