The Implications Of The Revival Of The Oil Industry In Azerbaijan:

The Implications of the Revival of the Oil Industry in Azerbaijan Jonathan Hemming,1998 Begins by charting the development of Azerbaijan since independence detailing some of the factors which affect the domestic political agenda and showing how the presence of oil has already had a major effect on domestic political events

Azerbaijan Since Independence Svante E. Cornell,2015-05-20 Azerbaijan a small post Soviet republic located on the western shore of the Caspian Sea has outsized importance because of its strategic location at the crossroads of Europe and Asia its oil resources and

The Oil Road: Travels from the Caspian to the City James Marriott,Mika Minio-Paluello,2012-09-04 A journey along a controversial Central Asian pipeline becomes a profound exploration of the oil economy In a unique journey from the oil fields of the Caspian Sea to the refineries and financial centres of Northern Europe James Marriott and Mika Minio Paluello track the concealed routes along which flows the lifeblood of our economy The stupendous resource of Azerbaijani crude has long inspired dreams of a world remade From the revolutionary Futurism of the capital city Baku in the 1920s to the unblinking Capitalism of modern London the drive to control the region's oil reserves and hence people and events has shattered environments and shaped societies In The Oil Road the human scale of village life in the Caucasus Mountains and the plains of Anatolia is suddenly and sometimes fatally confronted by the almost ungraspable scale of the oil corporation BP Pipelines and tanker routes tie the fraying social democracies of Italy Austria and Germany to the repressive regimes of Azerbaijan Georgia and Turkey A web of financial and political institutions in London stitches together the lives of metropolis and village Building on a decade of study with Platform Marriott and Minio Paluello guide us through a previously obscured landscape of energy production and consumption resistance and profit that has marked Europe for over a century They blend the empathy of committed travel writing with the precision of investigative journalism in a timely book of compelling urgency The human race travels the Oil Road and this book helps us to realize where we are heading and why it is time to change direction

Iran's Foreign Policy in the South Caucasus Marzieh Kouhi-Esfahani,2019-01-10 Iran's role as a regional power is more significant than many in the West may realise The country lies between Central Asia the Caucasus and the Gulf region on the one hand and on the other between the Mediterranean Levant region and South Asia Many of these areas are of increasing strategic

importance This book explores Iran's role as a regional power focusing on relations with South Caucasus countries Azerbaijan and Armenia It outlines the historical context including Persia's rule of these countries before the nineteenth century and discusses Iran's approach to foreign and regional policy and how both internal and international factors shape these policies The book assesses Iran Azerbaijan and Iran Armenia bilateral relations to demonstrate how those policies translate in Iran's regional and bilateral relations The book concludes by considering how Iran's relations in the region are likely to develop in the future

Turkish-Azerbaijani Relations Murad Ismayilov, Norman A. Graham, 2016-05-20 An east west axis of Azerbaijan and Turkey has grown into prominence within the broader structure of regional dynamics in Eurasia over the past two decades Yet few including among policy advisors and policy makers in either of the two states have attempted to look deeper into the forces that lie behind the workings of this important regional nexus a reality that resulted in a dual crisis in bilateral relations towards the end of the second decade of interaction This volume investigates the underlying causes that shaped the dynamics within the structure of the bilateral relationship between Azerbaijan and Turkey It features chapters by both scholars from the region and international experts in the field and therefore provides both in house and outside perspectives on developments within the complex structure of the relationship With its analysis portfolio including historical political economic socio cultural ideological and international underpinnings of this regional alliance the volume offers the most systematic and broad ranged analysis of the matter available to date The book will serve as an important resource for students and scholars of post Soviet Studies Central Asia and the Caucasus and the Middle East while also being of interest to those of International Relations and political science disciplines

The Dialectics of Post-Soviet Modernity and the Changing Contours of Islamic Discourse in Azerbaijan Murad Ismayilov, 2018-09-15 Azerbaijan's independence came after seven decades of militant atheism of Soviet modernization project and emerged into staunch secularism of Western modernity two factors that on a par with the country's precarious neighborhood promised a sustained indigenous effort towards the desacralization of the country's political space and the associated exclusion of religion from politics a modern blueprint that the Azerbaijani state and its society have stood united to diligently follow over the cause of the country's independent existence Yet the specific dynamics facing the country in the third decade of independence and the changing contours of its international engagements have gradually been working to set the country free from the stifling grips of Western style modernity and lay the groundwork for quintessentially and esoterically Azerbaijani pathway of statehood to follow one combining the nation's historical embeddedness in an Islamic milieu with its century old practical experience of modern policy making This book offers a detailed account of the dynamics behind the religious secular divide in Azerbaijan over the past two decades of independence and the conditions underlying the ongoing process of normalization of Islamic discourse and the rising cooperation across the country's secular religious political landscape and looks into some future dynamics this transformation is set to unleash It begins with an outline of hybrid intentionality behind the elite's

manifold attitudes to Islam with particular focus on the strategy of separation between religion and politics in which those attitudes have found expression It then proceeds to show the complicity of civil society and the broader populace as well as the international community and the country's Islamic stratum itself in the reproduction of the narrative of Islamic danger and the resultant religious secular divide in post Soviet Azerbaijan The study then continues with an account of a number of dialectical tensions inherent in policy outcomes to which the hybrid nature of elite intentionality has given rise It then follows on to discuss key factors contributing to the ongoing normalization of Islam across the public realm and the gradual bridging of the religious secular divide amidst the ongoing state repression The volume concludes with a comparative insight into some common features and conditioning factors behind the dynamics underlying the religious secular nexus in Azerbaijan and across the broader region of the Middle East It also offers an insight into some future potentialities that the current dynamics have laid bare
