The Imposition Of Law:

The Imposition of Law Sandra Burman, Barbara E. Harrell-Bond, 1979
Theory Pauline C. Westerman, 2014-10-21 John Finnis's proposal to rehabilitate Aquinas's natural law theory as an appropriate foundation of legal and moral theory rests on the assumption that Aquinas's theory can be restored by eliminating the mistaken interpretations of subsequent natural law theorists. This book challenges that assumption. After a brief analysis of Aquinas, the theories of Suarez, Grotius, and Pufendorf are investigated. It is argued that their theories are not mistakes but attempts at solving problems inherent in natural law theory. As these attempts all fail, tensions remain and ultimately lead to the demise of the theory. Finally, it is argued that Finnis, running into the same problems, cannot hope to restore Aquinas's theoretical edifice.

Commonwealth Caribbean Law and Legal Systems Rose-Marie Belle Antoine, 2008 Fully updated and revised to fit in with the new laws and structure in the Commonwealth Caribbean law and legal systems, this new edition examines the institutions, structures, and processes of the law in the Commonwealth Caribbean. The author explores the court system and the new Caribbean Court of Justice which replaces appeals to the Privy Council, the offshore financial legal sector, Caribbean customary law, and the rights of indigenous peoples, the Constitutions of Commonwealth Caribbean jurisdictions, and Human Rights, the impact of the historical continuum to the region's jurisprudence, including the question of reparations, the complexities of judicial precedent for Caribbean peoples, international law as a source of law, alternative dispute mechanisms, and the Ombudsman. Effortlessly combining discussions of traditional subjects with those on more innovative subject areas, this book is an exciting exposition of Caribbean law and legal systems for those studying comparative law.

The Law of Obligations Andrew Robertson, 2012-07-23 This collection of essays makes an important contribution to debate about the structure underlying private law and the relationships between its different branches. The contributors, including leading private law scholars from Australia, England, and Canada, provide valuable insights by looking beyond the traditional categories and accepted structure of the law of obligations. This book covers three topics. The first is concerned with classification and the law of remedies. The chapters on this topic deal with both the classification of remedies themselves and with remedial issues that cross classificatory boundaries within the law of obligations. The chapters on the second topic reconsider some of the boundaries drawn by judges and scholars within the law of obligations. The third topic deals with the relationship between obligations and property. The chapters in this book offer illuminating new perspectives on fundamental issues in the law of obligations. Together, they provide a thought-provoking reconsideration of connections and boundaries in private law.

The Language of Canon Law Judith Hahn, 2023 In this book, Judith Hahn explores the legal order of the Roman Catholic Church to better understand how the Roman Catholic Church communicates as a legal institution. She argues that the language of canon law reveals the political ideology of the church hierarchy, and she takes up the tools of language and law scholarship to examine and challenge that language. Hahn examines the grammar and terminology of canon law and how canon law language makes use of linguistic tricks and techniques to create its typical sound and discusses the comprehension difficulties that arise out of ambiguities in the law, out of transfer problems between legal and common language, and out of canon law's confusing mix of legal, doctrinal, and moral norms.

EU Trade Defence Law and Practice Christoph Herrmann, Patricia Trapp, 2023-02-22 The European Union is one of the most outward-oriented economies in the world, and free trade is one of its founding principles. As such, instruments intended to ensure that

international trade is conducted on a level playing field have been part of the EU's policy toolbox since the beginning of European integration. Adapting to the current changes in international trade, these instruments have since undergone major reforms. This work provides an overview of the EU's legal framework on the use of its trade defence instruments in particular measures under the Trade Barriers Regulation, the Basic Anti Dumping Regulation and the Basic Anti Subsidy Regulation. The book shares valuable insights into how EU institutions currently apply these instruments and places their application in the broader political context in which international trade takes place, which has been shaped e.g. by developments related to the United Kingdom's withdrawal from the EU and the ongoing blockade of the WTO Appellate Body.

Law, Liberty, and the Rule of Law Imer B. Flores, Kenneth E. Himma, 2012-09-29. In recent years there has been a substantial increase in concern for the rule of law. Not only have there been a multitude of articles and books on the essence, nature, scope and limitation of the law, but citizens, elected officials, law enforcement officers and the judiciary have all been actively engaged in this debate. Thus the concept of the rule of law is as multifaceted and contested as it's ever been, and this book explores the essence of that concept including its core principles, its rules and the necessity of defining or even redefining the basic concept. Law, Liberty and the Rule of Law offers timely and unique insights on numerous themes relevant to the rule of law. It discusses in detail the proper scope and limitations of adjudication and legislation, including the challenges not only of limiting legislative and executive power via judicial review, but also of restraining active judicial lawmaking while simultaneously guaranteeing an independent judiciary interested in maintaining a balance of power. It also addresses the relationship not only between the rule of law, human rights and separation of powers, but also the rule of law, constitutionalism and democracy.
