The Industrial Revolution 1750 1850 The London History Studies 7:

The British Empire Sarah E. Stockwell, 2008-01-29 This volume adopts a distinctive thematic approach to the history of British imperialism from the eighteenth to the twentieth century It brings together leading scholars of British imperial history Tony Ballantyne John Darwin Andrew Dilley Elizabeth Elbourne Kent Fedorowich Eliga Gould Catherine Hall Stephen Howe Sarah Stockwell Andrew Thompson Stuart Ward and Jon Wilson Each contributor offers a personal assessment of the topic at hand and examines key interpretive debates among historians Addresses many of the core issues that constitute a broad understanding of the British Empire including the economics of the empire the empire and religion and imperial identities

Finance and Financiers in European History 1880-1960 Youssef Cassis, 2002-06-20 A highly distinguished team of contributors addresses the complex and crucial role of finance in European history during the period 1880 1960

Limited Livelihoods Sonya O. Rose, 2003-09-02 Integrating analytical tools from feminist theory cultural studies and sociology to illuminate detailed historical evidence Sonya Rose argues that gender was a central organizing principle of the nineteenth century industrial transformation in England She elaborates a cultural theory of gender that suggests why it is an inherent aspect of all social and economic relations Analysing employer strategies and state policies and the role of work in family life she demonstrates that neither industrial transformation nor class relations can be understood when reduced to gender neutral and abstract forces

Towns, Regions and Industries Jon Stobart, Neil Raven, 2005-06-04 Focusing on the Midlands this book examines urban and industrial change from 1700 1830 arguing that a complex urban system and its individual constituents both responded to and shaped wider processes of industrialisation the nature of urban and indu

Material masculinities Ben Jackson, 2025-04-08 *Material Masculinities* examines the material and consumer practices of over 1000 men from the middling and upper ranks of eighteenth century society c 1650 1850 It draws upon evidence from over 35 archives and museum collections to detail how material objects were integral for men in forming identities and shaping experiences For men of all social ranks ages and geographic locations material knowledge was imperative for masculine social identities to operate in a commercial society Before the centralised factory and widespread mass produced goods men personalised and repaired their goods products were shaped by men s attitudes and concerns Objects were tools in men s identity formation and the exercise of social and gendered power There was a reciprocal relationship between men and goods in this period men were active agents of material and commercial change driving product and aesthetic innovation

The Oxford Handbook of Modern British Political History, 1800-2000 David Brown, Robert Crowcroft, Gordon Pentland, 2018-03-29 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written

about Britain's past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought provoking long view for those interested in current political challenges

Middle Class Culture in the Nineteenth Century L. Young, 2002-12-19 Drawing on expressive and material culture Young shows that money was not enough to make the genteel middle class It required exquisite self control and the right cultural capital to perform ritual etiquette and present oneself confidently yet modestly She argues that genteel culture was not merely derivative but a reworking of aristocratic standards in the context of the middle class necessity to work Visible throughout the English speaking world in the 1780s 1830s and onward genteel culture reveals continuities often obscured by studies based entirely on national frameworks The Social Studies, 1928 **Politics Of Everyday Life** Helen Corr, Lynn Jamieson, 1990-05-22 **Resisting the Rule of Law in Nineteenth-Century Ceylon** James S. Duncan, 2020-06-09 This book offers in depth insights on the struggles implementing the rule of law in nineteenth century Ceylon introduced into the colonies by the British as their greatest gift The book argues that resistance can be understood as a form of negotiation to lessen oppressive colonial conditions and that the cumulative impact caused continual adjustments to the criminal justice system weighing it down and distorting it The tactical use of rule of law is explored within the three bureaucracies the police the courts and the prisons Policing was often governed at a distance due to fiscal constraints and economic priorities and the enforcement of law was often delegated to underpaid Ceylonese Spaces of resistance opened up as Ceylon was largely left to manage its own affairs Villagers minor officials as well as senior British government officials alternately used or subverted the rule of law to achieve their own goals In the courts the imported system lacked political legitimacy and consequently the Ceylonese undermined it by embracing it with false cases and information in the interests of achieving justice as they saw it In the prisons administrators developed numerous biopolitical techniques and medical experiments in order to punish prisoners bodies to their absolute lawful limit This limit was one which prison officials prisoners and doctors negotiated continuously over the decades The book argues that the struggles around rule of law can best be understood not in terms of a dualism of bureaucrats versus the public but rather as a set of shifting alliances across permeable bureaucratic boundaries It offers innovative perspectives comparing the Ceylonese experiences to those of Britain and India and where appropriate to other European colonies This book will appeal to those interested in law history postcolonial studies cultural studies cultural and political geography **Atlas of Industrializing Britain, 1780-1914** John Langton, 2002-11 First published in 1986 Routledge is an imprint of Taylor Francis an informa company **The Legacies of Literacy** Harvey J. Graff, 1987-03-22 This

book will be a monumental contribution to the topic and a staple of scholarship for decades Michael B Katz A remarkable volume of critical synthesis and passionate revisionism Journal of Economic History ambitious and stimulating required reading not only for social historians but also for policy makers and activists Histoire Sociale Clearly an important book marks a significant point in the history of literacy studies History of Education Quarterly A stimulating challenge to traditional assumptions and scholarly commonplaces Journal of Communication **Artisans Abroad** Fabrice

Bensimon,2023-01-17 Between 1815 and 1870 when European industrialisation was in its infancy and Britain enjoyed a technological lead thousands of British workers emigrated to the continent They played a key role in several sectors like textiles iron mechanics and the railways These men and women thereby contributed significantly to the industrial take off in continental Europe Artisans Abroad examines the lives and trajectories of these workers who emigrated from manufacturing centres in Britain to France Belgium Germany and other countries considering their mobilities their culture their politics and their relations with the local populations Fabrice Bensimon reminds us that the British economy was not just oriented towards the Empire and the USA but also towards the continent long before the European Union and Brexit and shows the critical role played by migrant workers in the Industrial Revolution Artisans Abroad is the first social and cultural history of this forgotten migration *Gender and Material Culture in Britain since 1600* Jane Hamlett,Hannah Greig,Leonie

Hannan,2019-10-24 What does material culture tell us about gendered identities and how does gender reveal the meaning of spaces and things If we look at the objects that we own covet and which surround us in our everyday culture there is a clear connection between ideas about gender and the material world This book explores the material culture of the past to shed light on historical experiences and identities Some essays focus on specific objects such as an eighteenth century jug or a 20th powder puff others on broader material environments such as the sixteenth century guild or the interior of a 20th century pub while still others focus on the paraphernalia associated with certain actions such as letter writing or maintaining 18th century men s hair Written by scholars in a range of history related disciplines the essays in this book offer expos s of current research methods and interests These demonstrate to students how a relationship between material culture and gender is being addressed while also revealing a variety of intellectual approaches and topics **Forgetful Remembrance**

Guy Beiner,2018-11-09 Forgetful Remembrance examines the paradoxes of what actually happens when communities persistently endeavour to forget inconvenient events The question of how a society attempts to obscure problematic historical episodes is addressed through a detailed case study grounded in the north eastern counties of the Irish province of Ulster where loyalist and unionist Protestants and in particular Presbyterians repeatedly tried to repress over two centuries discomfiting recollections of participation alongside Catholics in a republican rebellion in 1798 By exploring a rich variety of sources Beiner makes it possible to closely follow the dynamics of social forgetting His particular focus on vernacular historiography rarely noted in official histories reveals the tensions between professed oblivion in public and more subtle

rituals of remembrance that facilitated muted traditions of forgetful remembrance which were masked by a local culture of reticence and silencing Throughout Forgetful Remembrance comparative references demonstrate the wider relevance of the study of social forgetting in Northern Ireland to numerous other cases where troublesome memories have been concealed behind a veil of supposed oblivion Late Georgian and Regency England, 1760-1837 Robert A. Smith, 2004-07-08 A guide to historical literature on England between 1760 and 1837 emphasising more recent work Clay's Handbook of Environmental Health Stephen Battersby, 2016-07-01 Clay's Handbook of Environmental Health since its first publication in 1933 has provided a definitive guide for the environmental health practitioner or reference for the consultant or student This 21th edition continues as a first point of reference reviewing the core principles techniques and competencies and then outlining the specialist subjects It has been refocused on the current curriculum of the UK's Chartered Institute of Environmental Health but should also readily suit the generalist or specialist working outside the UK **Subject Index of Modern Books Acquired** British Library, 1971 *Women, Sexuality and the Changing Social Order* Beth Maina Ahlberg, 2022-05-14 This book first published in 1991 examines the effect of government policies and social restrictions on the reproductive behaviour and family life of the women of Kenya especially the Kikuyu people Importation of techniques for social and behavioural regulation from the developed nations the social restructuring that followed the colonial intervention the Mau Mau uprisings and current widespread concern with AIDS have disrupted traditional influences on Kenyan reproductive behaviour and family life In response to these changes women mobilised into a movement comprised of small local women's groups scattered throughout Kenya that attempt to educate and influence both its members and government policy The successes and failures of this movement offer important lessons for the rest of Africa and the developing world **Bulletin of the British Library of Political and Economic Science** British Library of Political and Economic Science, 1926
