*Individual Differences, Stress, and Health Psychology* Michel P. Janisse,2012-12-06 Individual Differences Stress and Health Psychology presents recent research on how individual differences lead to the variety of reactions people display to stressors These reactions are considered particularly in their relation to health and illness Distinguished international researchers in health psychology speculate on the future of the field and its application to developing treatments or changes in lifestyles that may prevent or alleviate such disorders as cancer coronary heart disease hypertension and post traumatic stress syndrome The volume makes a significant contribution to the study of the relation between stress and health processes

Life-span Perspectives on Health and Illness Thomas L. Whitman,Thomas V. Merluzzi,Robert D. White,1998-12 The first book to consider the connections among biological psychological and environmental influences on health in the context of development over the lifespan      *Individual Differences in Children and Adolescents* Donald H. Saklofske,Sybil B. G. Eysenck, This uniquely authoritative collection of original papers with contributions from over twenty countries provides a rare insight into research and applied programs in the study of individual differences in children and adolescents worldwide While delinquency proves to be one of the most common areas of interest a wide range of cognitive personality and social characteristics are examined and the use of the Eysenck Personality Questionnaire in many studies allows uniform comparisons to be made between countries The editors have not only overcome the language barriers which hitherto have made such information virtually inaccessible to the English speaking world They have also succeeded in bringing together studies from developed and developing countries East and West to present a global picture of adolescent and child psychology In particular the book highlights the general and specific cultural influences on child development and adolescent psychology in different countries and reflects the social and research concerns of the countries and cultures represented The authors comprise a cross section of professionals in the social and behavioral sciences working in university and clinical settings While North America is well represented by six chapters including Puerto Rico as is Europe particular efforts were made to obtain contributions from Eastern Europe Asia and Africa At the time this book was developed information exchange with eastern European countries was most difficult It is very exciting to present chapters from Hungary Lithuania Romania Russia and Yugoslavia The inclusion of articles from Japan Korea Singapore Sri landa and Uganda also add another

dimension to studies of individual differences in children Contributions from Australia Israel and New Zealand also allow the book to take on much more of an international perspective on topics ranging from delinquency fears and motivation to intelligence personality and assessment issues This volume provides a plethora of international perspectives on the study of children It will be essential to sociologists psychologists educators and child study specialists     **The Wiley Encyclopedia of Personality and Individual Differences, Personality Processes and Individuals Differences** Annamaria Di Fabio,Donald H.
