Deane Henderson Fauntleroy, 2007-09 **Woman's Institute Library of Cookery, V3** Woman's Institute of Domestic Arts and Sciences, 1929 **Semantic Technologies in Content Management Systems** Wolfgang Maass, Tobias Kowatsch, 2012-01-04 Content Management Systems CMSs are used in almost every industry by millions of end user organizations In contrast to the 90s they are no longer used as isolated applications in one organization but they support critical core operations in business ecosystems Content management today is more interactive and more integrative interactive because end users are increasingly content creators themselves and integrative because content elements can be embedded into various other applications The authors of this book investigate how Semantic Technologies can increase interactivity and integration capabilities of CMSs and discuss their business value to millions of end user organizations This book has therefore the objective to reflect existing applications as well as to discuss and present new applications for CMSs that use Semantic Technologies An evaluation of 27 CMSs concludes this book and provides a basis for IT executives that plan to adopt or replace a CMS in the near future The Canadian Magazine of Science and the Industrial Arts, Patent Office Record, 1883 The Words of Jesus Phyllis Tickle, 2009-03-09 What if you could encounter the words of Jesus on their own lifted up from the surrounding narratives and presented in their full power and mystery That s the question Phyllis Tickle one of America s most beloved writers on Christian spirituality asked when she set out to write what she calls a Sayings gospel In *The Words of Jesus* Tickle has compiled and arranged all the sayings of Jesus from the first four books of the New Testament and the first chapter of the Book of Acts in a way that creates an entirely new kind of encounter with the texts And she has accompanied those sayings with her own personal reflections and commentaries not just on the words themselves but on the One who spoke them **Aviation**, 1922 **Rituals for the Dead** William J. Courtenay, 2018-12-30 In his fascinating new book based on the Conway Lectures he delivered at Notre Dame in 2016 William Courtenay examines aspects of the religious life of one medieval institution the University of Paris in the thirteenth and fourteenth centuries In place of the traditional account of teaching programs and curriculum however the

focus here is on religious observances and the important role that prayers for the dead played in the daily life of masters and students Courtenay examines the university as a consortium of sub units in which the academic and religious life of its members took place and in which prayers for the dead were a major element Throughout the book Courtenay highlights reverence for the dead which preserved their memory and was believed to reduce the time in purgatory for deceased colleagues and for founders of and donors to colleges The book also explores the advantages for poor scholars of belonging to a confraternal institution that provided benefits to all members regardless of social background the areas in which women contributed to the university community including the founding of colleges and the growth of Marian piety seeking her blessing as patron of scholarship and as protector of scholars Courtenay looks at attempts to offset the inequality between the status of masters and students rich and poor and college founders and fellows in observances concerned with death as well as rewards and punishments in the afterlife *Rituals for the Dead* is the first book length study of religious life and remembrances for the dead at the medieval University of Paris Scholars of medieval history will be an eager audience for this title
