The Intent Of The Artist:

The Intent of the Artist Norman Max Baasch, 1960 **Looking at Art Philosophically** Tom Supensky, 2012-08 The purpose of this book is to present to the reader a series of philosophical ideas that assist in understanding one's position in the world of art and some thinking on art and creativity intended to awaken the aesthetic aspects of making art There is no intention to review historical philosophical concepts nor is there any specific inclusion of contemporary theories on art philosophy What is included are those philosophies important to the developing artist that are more commonplace in nature often neglected in art education yet vitally necessary to the true artist Finally this book is intended to stimulate the reader into asking such questions as who am I why art and what is art It is hopeful that the reader finds an aesthetic foundation a personal and honest place in the world of art *Art* David A. Scott, 2016-12-31 This book presents a detailed account of authenticity in the visual arts from the Paleolithic to the postmodern The restoration of works of art can alter the perception of authenticity and may result in the creation of fakes and forgeries These interactions set the stage for the subject of this book which initially examines the conservation perspective then continues with a detailed discussion of notions of authenticity and philosophical background There is a disputed territory between those who view the present day cult of authenticity as fundamentally flawed and those who have analyzed its impact upon different cultural milieus operating across performative contested and fragmented ground The book discusses several case studies where the ideas of conceptual authenticity aesthetic authenticity and material authenticity can be incorporated into an informative discourse about art from the ancient to the contemporary illuminating concerns relating to restoration and art forgery **The Intent of the Artist** David Andrews Pittis, 1987 *The Politics of Collecting* Eunsong Kim, 2024-06-24 In *The Politics of Collecting* Eunsong Kim traces how racial capitalism and colonialism situated the rise of US museum collections and conceptual art forms Investigating historical legal and property claims she argues that regimes of expropriation rather than merit or good taste are responsible for popular ideas of formal innovation and artistic genius In doing so she details how Marcel Duchamp's canonization has more to do with his patron's donations to museums than it does the quality of Duchamp's work and uncovers the racialized and financialized logic behind the Archive of New Poetry's collecting practices Ranging from the conception of philanthropy devised by the robber barons of the late nineteenth century to ongoing digitization projects Kim provides a new history of contemporary art that accounts for the complicated entanglement of race capital and labor behind storied art institutions and artists Drawing on history theory and economics Kim challenges received notions of artistic success and talent and calls for a new vision of art beyond the cultural institution **Why is that Art?** Terry Barrett, 2017 Why is that art Why is it in an art museum Who says it's art Why is it good Why Is That Art Third Edition introduces students to theories of art through the presentation of contemporary works that include abstract and representational painting animated film monumental sculpture performance art photographs relational art and video installations Ideal for courses in

Drawing on Art Dalia Judovitz, Marcel Duchamp, 2010 This volume explores the central importance of appropriation collaboration influence and play in French artist Marcel Duchamp s 1887 1968 work and in Dada and Surrealism in general to show how the concept of art itself became the critical fuel and springboard for questioning art s fundamental premises Duchamp was a French artist whose work is most often associated with the Dadaist and Surrealist movements The author maintains that rather than simply negating art Duchamp s readymades Duchamp s readymades are ordinary manufactured objects that the artist selected and modified as an antidote to what he called retinal art and later works including films and conceptual pieces demonstrating the impossibility of defining art in the first place Through his readymades Duchamp explicitly critiqued the commodification of art and inaugurated a profound shift from valuing art for its

visual appearance to understanding the significance of its mode of public presentation Thinking The Art of Management D. The Artist's Reality Mark Rothko, 2023-07-11 Mark Rothko's classic book on artistic practice ideals and philosophy now with an expanded introduction and an afterword by Makoto Fujimura. Stored in a New York City warehouse for many years after the artist's death, this extraordinary manuscript by Mark Rothko (1903-1970) was published to great acclaim in 2004. Probably written in 1940 or 1941, it contains Rothko's ideas on the modern art world, art history, myth, beauty, the challenges of being an artist in society, the true nature of American art, and much more. In his introduction, illustrated with examples of Rothko's work and pages from the manuscript, the artist's son Christopher Rothko describes the discovery of the manuscript and the fascinating process of its initial publication. This edition includes discussion of Rothko's *Scribble Book* (1932), his notes on teaching art to children (which has received renewed scholarly attention in recent years), and provides clues to the genesis of Rothko's thinking on pedagogy. In an afterword written for this edition, artist and author Makoto Fujimura reflects on how Rothko's writings offer a lifeboat for art world refugees and a model for upholding artistic ideals. He considers the transcendent capacity of Rothko's paintings to express pure ideas and the significance of the decade-long gap between *The Artist's Reality* and Rothko's mature paintings during which the horrors of the Holocaust and the atomic bomb were unleashed upon the world.
