The Contemporary Marx Essays On Humanist Communism:

The Contemporary Marx Mihailo Marković, 1974 *The Contemporary Marx* Mihailo Marković, 1974 **The Concept of the Individual in the Thought of Karl Marx** Zhi Li, 2023-04-08 This book reconstructs the concept of the individual in Marx as the key to a fresh interpretation of Marxian philosophy Marx moved from an examination of the contingency and indeterminacy of individual consciousness in his early years to a critique of the atomistic individual and materialised social relations in his later years His thought proposes that real individuals are the basis for an understanding of human society that promotes the emancipation of humankind Marx s philosophy has often been misunderstood as lacking a concept of the individual In China this misunderstanding not only relates to cultural and linguistic particularities the word individual is seldom used in Chinese but also relates to a misleading view of socialism and communism This book helps remedy this misunderstanding and draws important comparisons and contrasts between Marx s concept of the individual with that of liberalism and between Western and Eastern Marxism *The Marxist Philosophy of Ernst Bloch* Wayne Hudson, 1982-06-18

The Cambridge Companion to Marx Terrell Carver, 1991-10-25 Marx was a highly original and polymathic thinker unhampered by disciplinary boundaries whose intellectual influence has been enormous Yet in the wake of the collapse of Marxism Leninism in Eastern Europe the question arises as to how important his work really is for us now An important dimension of this volume is to place Marx s writings in their historical context and to separate what he actually said from what others in particular Engels interpreted him as saying Informed by current debates and new perspectives the volume provides a comprehensive coverage of all the major areas to which Marx made significant contributions *Open Marxism* Christos Memos, 2025-01-09 Bringing together the various heterodox traditions groups and scholars that came under the heading of Open Marxism for the first time this book assesses the evolution of Open Marxism from the initial usage of the term by Kostas Axelos in France in the 1950s and the journal *Arguments* principally the anarchist Marx of Maximilien Rubel and the Libertarian Marxism of Daniel Guérin through Open Marxism as it was developed in Eastern Europe especially in the scholarly work of Karel Kosík in Czechoslovakia the work of the Polish Open Marxists and the Praxis group in Yugoslavia to Johannes Agnoli s work in post 1968 West Germany and finally to the work developed by Bonefeld Clarke Gunn and Holloway within the framework of the Conference of Socialist Economists CSE in Britain since the 1980s Its comprehensive study of the historical development of Open Marxism in all its various guises and forms reasserts the rich insights of its devastating critique of social democracy Leninism Stalinism and the Althusserian structuralist paradigm It introduces a new readership to Open Marxism s negative fundamental and destructive critique of capitalism and examines the practical relevance of its subversive thinking to the contemporary struggle for a free and open socialist society *The to Z of Marxism* David Walker, Daniel Gray, 2009-08-13 Marxism one of the few philosophies that turned into an effective movement was not so long ago the official ideology in one form or another of much of humanity It was initially promulgated by the Soviet Union then

imposed on Central and Eastern Europe later emerged in the People's Republic of China and gradually spread to other parts of Asia, Africa and Latin America. Although declining in popularity, the movement still remains in power in several countries and is supported by numerous parties and countless individuals around the world. The A to Z of Marxism covers in a comprehensive manner the history of Marxism and its philosophers and schools of thought. It contains a chronology, a list of acronyms and abbreviations, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on basic terms and concepts as well as significant people, parties and countries. **Book Jacket Karl Marx** Frank W. Elwell, Brian Andrews, Kenneth S. Hicks, 2020-12-15. Karl Marx: A Reference Guide to His Life and Works covers all aspects of his life and works. Marx was a philosopher, a crusading journalist, as well as a political organizer and activist advocating democratic reforms, working class political organizations, and the establishment of a socialist political order. Includes a comprehensive historical timeline of major events involving or related to Marx. The A to Z section includes the major events, works, and concepts related to Marx. Bibliography of major works by and about Marx and events surrounding his life and works. The index thoroughly cross-references the chronological and encyclopedic entries. **Historical Dictionary of Marxism** Elliott Johnson, David Walker, Daniel Gray, 2014-09-09. The second edition of the Historical Dictionary of Marxism covers the basics of Karl Marx's thought, the philosophical contributions of later Marxist theorists, and the extensive real world political organizations and structures his work inspired that is the myriad political parties, organizations, countries, and leaders who subscribed to Marxism as a creed. This text includes a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on important personalities, both thinkers and doers, political parties and movements, and major communist or ex-communist countries.
