conflict in Northern Ireland offering a fresh analysis of the political dynamics and the intra party struggles that sustained violent conflict and prevented settlement for so long It draws on theories of negotiation and mediation to understand why efforts to end the conflict through back channel negotiations repeatedly failed before finally succeeding in the 1990s It challenges the view that the conflict persisted because of irreconcilable political ideologies and argues that the parties to conflict were much more open to compromise than the often intransigent public rhetoric suggested The analysis is founded on a rich store of historical evidence including the private papers of key Irish Republican leaders and British politicians recently released papers from national archives in Dublin and London and the papers of Brendan Duddy the intermediary who acted as the primary contact between the IRA and the British government for two decades including papers that have not yet been made publicly available This documentary evidence combined with original interviews with politicians mediators civil servants and Republicans allows a vivid picture to emerge of the complex maneuvering at this intersection A History of the Scottish People from the Earliest Times Thomas Thomson,1893
