## **The Identity Of Yeats:**

The Identity Of Yeats Richard Ellmann, 2016-01-27 This classic study of Yeats verse examines the poet's development of theme, symbol, style and pattern. Through his knowledge of Yeats' life as well as his published and unpublished work, Ellmann recreates Yeats' ways of thinking, seeing and writing and clarifies his difficult poems. *The Identity of Yeats* Richard Ellmann, 1983 **Identity of Yeats** Richard Ellmann, 1958 *The Identity of Yeats, by Richard Ellmann* Richard Ellmann, 1954 *Essays for Richard Ellmann* Richard Ellmann, 1989 Richard Ellmann's scholarly work is notable for its striking liveliness and clarity and its genuine illumination of the writers and works with which he dealt. His *Life of James Joyce*, published in 1959, received more commendation and critical praise than any previous literary biography. W. B. Yeats's A Vision Neil Mann, Matthew Gibson, Claire Nally, 2012 The first volume of essays devoted to W. B. Yeats's *A Vision* and the associated system developed by Yeats and his wife George. *A Vision* is all encompassing in its stated aims and scope and it invites a wide range of approaches as demonstrated in the essays collected here, written by the foremost scholars in the field.

**The Making of Yeats's A Vision** George Mills Harper, 1987 According to Yeats, his wife surprised him on 24 October 1917, four days after their marriage, by attempting automatic writing. Excited, he offered to spend the remainder of his life organizing and explaining the scattered sentences. Over a period of approximately 30 months, they collaborated in 450 sittings, he asking questions, she responding, to fill a total of more than 3,600 pages. Quoting copiously from the *Script*, Harper has traced in two volumes these incredible experiments day by day as the Yeatses moved about England, Ireland and America. He has also cited hundreds of parallel explanatory passages from many workbooks, notebooks and the concordance arranged like a card index in which Yeats codified the System he projected in *A Vision* and numerous poems and plays. Harper also has examined the extensive personal revelations that were excluded from *A Vision* and carefully concealed in many passages of personal *Script*. As Professor Harper demonstrates, Yeats had these often oblique, highly allusive passages in mind when he admitted to *Vestigia* that he had not even dealt with the whole of my subject, perhaps not even with what is most important: writing nothing about the Beatific Vision, little of sexual love. *The Triumph of the Moon* Ronald Hutton, 2019-10-10 a brilliant history. *The Sunday Times* makes for riveting reading. *The Independent*: Modern pagan witchcraft is arguably the only fully formed religion England has given the world and has now spread across four continents. This second edition of *The Triumph of the Moon* extensively revises the first, full-scale scholarly study of modern pagan witchcraft. Ronald Hutton examines the nature and development of this religion and offers a history of attitudes to witchcraft, paganism and magic in British society since 1800. Its pages reveal village cunning folk, Victorian ritual magicians, classicists and archaeologists, leaders of woodcraft and scouting movements, Freemasons and members of rural secret societies. We also find some of the leading figures of English literature from the Romantic poets to W. B. Yeats, D. H. Lawrence and Robert Graves, as well as the main personalities who have represented pagan witchcraft to the public world since 1950. Thriller writers like Dennis

Wheatley and films and television programmes get similar coverage as does tabloid journalism The material is by its nature often sensational and care is taken throughout to distinguish fact from fantasy in a manner not previously applied to most of the stories involved Meticulously researched The Triumph of the Moon presents an authoritative insight into an aspect of modern cultural history which has attracted sensational publicity but has hitherto been little understood This edition incorporates new research carried out by the author as well as research by others who have been inspired by this book over the twenty years since its first publication

**Yeats's Poetic Codes** Nicholas Grene, 2008-06-12 Nicholas Grene explores Yeats's poetic codes of practice the key words and habits of speech that shape the reading experience of his poetry Where previous studies have sought to decode his work expounding its symbolic meanings by references to Yeats's occult beliefs philosophical ideas or political ideology the focus here is on his poetic technique its typical forms and their implications for the understanding of the poems Grene is concerned with the distinctive stylistic signatures of the Collected Poems the use of dates and place names within individual poems the handling of demonstratives and of grammatical tense and mood certain nodal Yeatsian words dream bitter sweet and images birds and beasts dialogue and monologue as the voices of his dramatic lyrics The aim throughout is to illustrate the shifting and unstable movement between lived reality and transcendental thought in Yeats the embodied quality of his poetry between a phenomenal world of sight and an imagined world of vision

**A Study Guide for William Butler Yeats's "Leda and the Swan"** Gale, Cengage Learning, 2016 A Study Guide for William Butler Yeats's Leda and the Swan excerpted from Gale's acclaimed Poetry for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Poetry for Students for all of your research needs

*The Clash of Ireland*, 2022-07-11

**The Age of Atheists** Peter Watson, 2014-02-18 A Publishers Weekly Best Book of 2014 From one of England's most distinguished intellectual historians comes an exhilarating ride that will stand the test of time as a masterful account of The Boston Globe one of the West's most important intellectual movements Atheism In 1882 Friedrich Nietzsche declared that God is dead and ever since tens of thousands of brilliant courageous thoughtful individuals have devoted their creative energies to devising ways to live without God with self reliance invention hope wit and enthusiasm Now for the first time their story is revealed A captivating story of contest failure and success The Age of Atheists sweeps up William James and the pragmatists Sigmund Freud and psychoanalysis Pablo Picasso James Joyce and Albert Camus the poets of World War One and the novelists of World War Two scientists from Albert Einstein to Stephen Hawking and the rise of the new Atheists Dawkins Harris and Hitchens This is a story of courage of the thousands of individuals who sometimes at great risk devoted tremendous creative energies to devising ways to fill a godless world with self reliance invention hope wit and enthusiasm Watson explains how atheism has evolved and reveals that the greatest works of art and literature of science and philosophy of the last century can be traced to the rise of secularism From Nietzsche to Daniel Dennett Watson's stirring intellectual

history manages to take the revolutionary ideas and big questions of these great minds and movements and explain them making the connections and concepts simple without being simplistic The Age of Atheists is highly readable and immensely wide ranging For anybody who has wondered about the meaning of life an enthralling and mind expanding experience The Washington Post     The Cambridge Companion to English Poets Claude Rawson,2011-01-27 This volume provides lively and authoritative introductions to twenty nine of the most important British and Irish poets from Geoffrey Chaucer to Philip Larkin The list includes among others Shakespeare Donne Milton Wordsworth Browning Yeats and T S Eliot and represents the tradition of English poetry at its best Each contributor offers a new assessment of a single poet s achievement and importance with readings of the most important poems The essays written by leading experts are personal responses written in clear vivid language free of academic jargon and aim to inform arouse interest and deepen understanding     *Building W. B. Yeats's Later Poetry* Tomoko Iwatsubo,2024-09-09 This book explores Yeats s later poetry through the metaphor of the poetic tower where different kinds of building architectural textual political and symbolic were closely interrelated It chronologically examines Yeats s tower poems composed during a period of dramatic personal and national transformation from 1915 to 1932 Within a year after the Easter Rising in Dublin Yeats acquired a half ruined Norman tower in County Galway Ireland which had enthralled him for the past two decades and textually and architecturally constructed it into a focus of his life and work Interweaving the account of the renovation of the actual building and the textual construction in the socio historical contexts the book reveals the evolution of Yeats s multiplex tower as an organizing principle of his later poetry Using the archive of correspondence and manuscript materials of relevant poems including those which have thus far escaped close attention the book offers close textual genetic analyses and a diachronic view of Yeats s tower poetry which with its foundations laid decades earlier he built in the collections from *The Wild Swans at Coole* 1919 to *The Winding Stair and Other Poems* 1933 Highlighting the delicate exchange between poetry and biography as well as between the textual architecture and the actual one identifying a turning point in the making of each tower oriented poem and proposing some draft dating revisions this first book length systematic study on the process of Yeats s creation of the tower casts an unfamiliar light on a familiar yet underexplored landmark in modern poetry and makes his step by step construction work come alive     Fairy Tales and the Shift in Identity Poetics from Modernism to Postmodernism Ana-Maria Baci,2023-11-06 The book reveals the historical change in the function of the generic form of the fairy tale at the beginning of the twentieth century fairy tales are no longer written or read for their stimulus to the imagination or their nostalgia towards past times but with a political end in view to define a nation s identity meant to justify and support claims to a unitary state Romania or an independent state Ireland As such this book investigates the interweave of poetics and politics at the time of the rise of modernist nationalism at the margins of Europe     **Yeats's Worlds** David Pierce,1995-01-01     *Irish Studies: Volume 1* P. J. Drudy,1980     **Celtic Identity and the British Image** Murray Pittock,1999 Celtic Identity and the British Image

explores the idea of the Celt and definition of the so called Celtic Fringe over the last 300 years It is the only in depth study of the literary and cultural representation of Ireland Scotland and Wales over this period and is based on an extremely wide ranging grasp of issues of national identity and state formation The idea of the Celt and Celticism is once again highly fashionable     *James Joyce and the Fabrication of an Irish Identity* ,2021-10-18     Worlds in Words Mateusz Borowski,Malgorzata Sugiera,2010-04-16 The collection of essays Worlds in Words Storytelling in Contemporary Theatre takes up the currently widely debated issue of the revival of various techniques of storytelling in contemporary theatre practice and playwriting This topic is set in a larger context of the crisis of traditional theatrical and dramatic representation in the 20th century and sets the discussion of new storytelling techniques within the framework of cultural and post colonial studies as well as the recent theories of performativity These new performative modes of theatre practice in the recent decades have exerted a strong impact on the mainstream staging techniques as well as on the form and use of texts written for the theatre today By focusing on the basic relationship between the text the stage and the audience the papers collected in this volume trace these fundamental changes taking place nowadays which testify to the major shifts in the understanding of the very concept of theatre its place among other arts and media as well as in culture especially in the marginalized cultures and diasporas The authors of the papers collected here undertake a comprehensive analysis of the phenomenon of storytelling and adopt an interdisciplinary approach which will makes it possible to give account of the diverse cultural and socio political grounding of the contemporary theatrical and dramatic techniques
