The Imagination On Trial:

The Imagination on Trial Alan Burns, Charles Sugnet, 1981 **The Experimentalists** Joseph Darlington, 2021-11-18 The Experimentalists is a collective biography capturing the life and times of the British experimental writers of the swinging 1960s A decade of research including as yet unopened archives and interviews with the writers colleagues is brought together to produce a comprehensive history of this ill starred group of renegade writers Whether the bolshie B S Johnson the globetrotting Ann Quin the cerebral Christine Brooke Rose or the omnipresent Anthony Burgess these writers each brought their own unique contributions to literature at a time uniquely open to their iconoclastic message The journey connects historical moments from Bletchley Park to Paris May 68 to terrorist groups of the 1970s A tale of love loss friendship and a shared vision this book is a fascinating insight into a bold provocative and influential group of writers whose collective story has gone untold until now *Mediality on Trial* Ehler Voss, 2020-09-21 This volume addresses controversies connected to the testing of the capacities and potentials of mediums Today we commonly associate the term medium with the technical communication between transmitters and receivers Yet this term likewise applies to those who cooperate with agencies that exceed the presumed domain of the material world Insofar as one presumes a division between distinctly opposed categories of religion and the secular technical media tend to be associated with the secular and human trance mediums tend to be associated with religion after 1900 This volume concerns the ways in which the term medium still marks an overlapping of and thus problematizes the aforementioned division between religion and the secular the personal and the technological The term medium carries with it a seed of doubt that is itself inseparable from investment in the medium s power insofar as they communicate with an other realm mediums offer the hope and promise of new possibilities and improved efficiency and thus of a better life yet they have simultaneously been under suspicion of altering or even inventing the messages they communicate It is due to this combination of promise and suspicion that mediumism has tended to evoke scientific religious and moral controversies Thus we can speak of a mediumistic trial that is a process in which a medium is put to the test concerning its potentials and trustworthiness Around 1800 experts were asked if a modern secular institution would be capable of inspiring domesticating or excluding trance mediumship This question has stayed with us ever since and the answers have remained inconclusive That is why the past and present of mediumship may be asked to elucidate each other *The Trial of Charles I: A History in Documents* K.J. Kesselring, 2016-03-14 In January 1649 after years of civil war King Charles I stood trial in a specially convened English court on charges of treason murder and other high crimes against his people Not only did the revolutionary tribunal find him guilty and order his death but its masters then abolished monarchy itself and embarked on a bold though short lived republican experiment The event was a landmark in legal history The trial and execution of King Charles marked a watershed in English politics and political theory and thus also affected subsequent developments in those parts of the world colonized by the British This book presents a selection of

contemporaries accounts of the king's trial and their reactions to it as well as a report of the trial of the king's own judges once the wheel of fortune turned and monarchy was restored. It uses the words of people directly involved to offer insight into the causes and consequences of these momentous events.

The One-Sex Body on Trial: The Classical and Early Modern Evidence Helen King, 2016-02-17 By far the most influential work on the history of the body across a wide range of academic disciplines remains that of Thomas Laqueur. This book puts on trial the one sex two sex model of Laqueur's *Making Sex*. Body and Gender from the Greeks to Freud through a detailed exploration of the ways in which two classical stories of sexual difference were told, retold and remade from the mid sixteenth to the nineteenth century. Agnodike the first midwife who disguises herself as a man and then exposes herself to her potential patients and Phaethousa who grows a beard after her husband leaves her are stories from the ancient world that resonated in the early modern period in particular. Tracing the reception of these tales shows how they provided continuity despite considerable change in medicine being the common property of those on different sides of professional disputes about women's roles in both medicine and midwifery. The study reveals how different genres used these stories changing their characters and plots but always invoking the authority of the classics in discussions of sexual identity. The study raises important questions about the nature of medical knowledge, the relationship between texts and observation and the understanding of sexual difference in the early modern world beyond the one sex model.

Madame Bovary on Trial Dominick LaCapra, 2018-03-15 In 1857 following the publication of *Madame Bovary* Flaubert was charged with having committed an outrage to public morality and religion. Dominick LaCapra, an intellectual historian with wide ranging literary interests, here examines this remarkable trial. LaCapra draws on material from Flaubert's correspondence, the work of literary critics and Jean Paul Sartre's analysis of Flaubert. LaCapra maintains that *Madame Bovary* is at the intersection of the traditional and the modern novel, simultaneously invoking conventional expectations and subverting them.
