Keenan, 2009-05-20 This book reveals the secret US agenda behind the war on terror in Africa and the shocking methods used to perpetuate the myth that the region is a hotbed of Islamic terrorism Africa expert Jeremy Keenan points to overwhelming evidence suggesting that from 2003 the Bush administration and Algerian government were responsible for hostage takings blamed on Islamic militants This created a permissive public attitude allowing the US to establish military bases in the region and pursue multiple imperial objectives in the name of security The shocking revelations in this book undermine the mainstream view of Africa as a legitimate second front in the war on terror *Indigenusness in Africa* Felix

Inclusive Place Branding Mihalios Karavatzis,Massimo Giovanardi,Maria Lichrou,2017-11-22 Place branding is often a response to inter place competition and discussed as if it operated in a vacuum ignoring the needs of local communities It has developed a set of methods catchy slogans colourful logos star architects bidding for City of Culture status etc that are applied as quick fix solutions regardless of geographical and socio political contexts Critical views of place

branding are emerging which focus on its unexplored consequences on the physical and social fabric of places. These more critical approaches reveal place branding as an essentially political activity serving hidden agendas and marginalizing social groups. Scholars and practitioners can no longer ignore the need for more responsible and socially sensitive approaches to cater for a wider range of stakeholders and which fully acknowledge the importance of resident participation in decision making. The contributions in this innovative book set out to introduce new critical ways of thinking around place branding and practices that encourage it to be more inclusive and participatory. It will be of interest to researchers and advanced students of branding, critical marketing and destination marketing as well as critical tourism and environmental design.

The Land Is Not Empty Sarah Augustine, 2021-06-22. White settlers saw land for the taking. They failed to consider the perspective of the people already here. In *The Land Is Not Empty*, author Sarah Augustine unpacks the harm of the Doctrine of Discovery, a set of laws rooted in the fifteenth century that gave Christian governments the moral and legal right to seize lands they discovered despite those lands already being populated by indigenous peoples. Legitimized by the church and justified by a misreading of Scripture, the Doctrine of Discovery says a land can be considered empty and therefore free for the taking if inhabited by heathens, pagans and infidels. In this prophetic book, Augustine, a Pueblo woman, reframes the colonization of North America as she investigates ways that the Doctrine of Discovery continues to devastate indigenous cultures and even the planet itself as it justifies exploitation of both natural resources and people. This is a powerful call to reckon with the root causes of a legacy that continues to have devastating effects on indigenous peoples around the globe and a call to recognize how all of our lives and our choices are interwoven. What was done in the name of Christ must be undone in the name of Christ, the author claims. The good news of Jesus means there is still hope for the righting of wrongs. Right relationship with God, others and the earth requires no less.

Life and Death Matters

Barbara Rose Johnston, 2016-06-03 The first edition of Life and Death Matters was a breakthrough text centralizing the experiences of those on the front lines of environmental crises and forging new paradigms for understanding how crises emerge and how different groups of actors respond to them This second edition fully

updated with both expanded and new chapters once again provides a benchmark for the field and opens important pathways for further research. Authors reassess the state of scholarship and grassroots activism in a new century when social and environmental systems are being reconceptualised within post 9/11 security and biosecurity frameworks when global warming and resource scarcity are not fears but realities when global power and politics are being realigned and when ecocide, ethnocide and genocide are daily tragedies. This bold new edition of *Life and Death Matters* will be a widely used textbook and essential reading for students, scholars and policy makers.

Suicide through a Peacebuilding Lens Katerina Standish, 2019-07-24

This book is the first exploration of suicide in Peace and Conflict Studies (PACS). It illustrates the scarcity of suicide research in the discipline and argues that the leading cause of violent death worldwide is a multifaceted phenomenon that needs to be fully comprehended as a significant and often preventable form of world-wide violence. The author supplies a theoretical framework for assessing suicide as medical or instrumental, posits interdisciplinary complementarity and offers future lines of inquiry that challenge established notions of prevention. The book presents a PACS meta-theory termed encounter theory and supplies a suicidal peacebuilding platform via relationship. This book questions why more PACS scholars aren't turning their attention to suicide when more people die by suicide than ethnic, religious or terroristic violence combined.
