from this book's sister text International Cargo Insurance. This unique text is a one stop resource for marine insurance lawyers handling cargo claims and will also be of interest to students and researchers of maritime law. Shipping and the Environment Colin De La Rue, Charles B Anderson, 2015-06-03. The first edition of this book was quickly acclaimed as the new leading text worldwide on the law and practice of pollution from ships. The second edition deals with a variety of developments since then in this fast moving subject: the Erika and the Prestige changes in international law on maritime safety and compensation; latest decisions on claims for compensation; analysis of the SCOPIC regime; new material on ports of refuge; transboundary movements and pollution from offshore craft; latest cases and regulatory changes in the US and enlarged chapters on enforcement of laws and criminal sanctions. Like its predecessor the second edition is superbly indexed and written clearly with the needs in mind of a wide international readership. Marine Insurance Francis Rose, 2013-07-31. Marine Insurance Law and Practice Second Edition continues to provide the most comprehensive and integrated account of the English law and practice of marine insurance. It provides readers with a fresh and up to date review of the modern law in the light of traditional principles and rules of underlying commercial law and the specific statutory rules of marine insurance as interpreted by case law as moderated in practice by market practices and standard form marine insurance clauses. Francis Rose clarifies the law's underlying framework of principles and illustrates how it works in common contractual situations explaining how the different components of the law interact. The new edition has been updated to incorporate the most recent case law: there have been some very important judgments handed down since the book first published including *The Cendor MOP*, *The Silva*, *The Resolute* and *The Marina Iris*; the implications of the introduction of Institute Cargo Clauses 2009; the effect of the Gambling Act 2005 and the Third Parties Rights Against Insurers Act 2010; Law Commission reform proposals. The book explores in detail the following areas: the nature of insurance; insurable interest; the insurance contract; the premium; insured risks; marine risks; exclusions; losses; claims; subrogation; double insurance. Student's Reference Book of Marine Insurance Clauses Witherby & Co., London, 1926. **Cases and Materials on Marine Insurance Law** Susan Hodges, 1999-03-25. This book provides a comprehensive collection of Cases and Materials On Marine Insurance Law. The sources included here are not always readily accessible. Each chapter is introduced with a brief resume of the general principles before the facts of each case are summarised and the extracts of the relevant parts of judgments reproduced. The significance of the judicial extracts, the statutory materials and standard terms are then discussed with particular emphasis on important and problematical areas of the law. This book will be indispensable not only to postgraduate students of law in house lawyers, insurance brokers and claims adjusters but also to students of maritime studies, legal practitioners and a wide range of professionals within the shipping industry who may wish to have at hand a convenient source of information. Whilst the book is a companion to the authors' *The Law of Marine Insurance* it is also structured to stand as a marine insurance text in its own right. **www.owaysonline.com 72 - 73 QUESTION SET - LAW PHASE 2 - CHIEF MATE**
