## **The Institutionalization Of Europe:**

*The Institutionalization of Europe* Alec Stone Sweet, Wayne Sandholtz, Neil Fligstein, 2001-08-16 In 1950 a European political space existed if only as a very primitive site of international governance Today the European Union governs in an ever growing number of policy domains Increasingly dense networks of transnational actors representing electorates member state governments firms and specialized interests operate in arenas that are best understood as supranational At the same time the capacity of European organizations the Bank the Commission and the Court of Justice to make authoritative policy decisions has steadily expanded profoundly transforming the very nature of the European polity This book a companion volume to *European Integration and Supranational Governance* offers readers a sophisticated theoretical account of this transformation as well as original empirical research The editors elaborate an innovative synthesis of institutionalist theory that contributors use to explain the sources and consequences of the emergence and institutionalization of European political arenas Some chapters examine the evolution of integration and supranational governance across time and policy domain Others recount more discrete episodes including the development of women s rights the judicial review of administrative acts a stable system of interest group representation and enhanced cooperation in foreign policy and security the creation of the European Central Bank the emergence of new policy competences such as for policing and immigration and the multi dimensional impact of European policies on national modes of governance

*The Institutionalization of Science in Early Modern Europe* ,2019-11-26 This volume aims to furnish a broader framework for analyzing the scientific and institutional context that gave rise to scientific academies in Europe including the Accademia del Cimento in Florence the Royal Society in London the Acad mie Royale des Sciences in Paris and the Academia naturae curiosorum in Schweinfurt The essays detail the multiple backgrounds that prompted seventeenth century savants from Italy to England and from Poland to Portugal to establish new forms of scientific organizations in which to institutionalize collaborative research as well as modes of communication with like minded individuals and associations

*The Judicial Construction of Europe* Alec Stone Sweet,2004-09-09 The law and politics of European integration have been inseparable since the 1960s when the European Court of Justice rendered a set of foundational decisions that gradually served to constitutionalize the Treaty of Rome In this book Alec Stone Sweet one of the world s foremost social scientists and legal scholars blends deductive theory quantitative analysis of aggregate data and qualitative case studies to explain the dynamics of European integration and institutional change in the EU since 1959 He shows that the activities of market actors lobbyists legislators litigators and judges became connected to one another in various ways giving the EU its fundamentally expansionary character He then assesses the impact of Europe s unique legal system on the evolution of supranational governance tracing outcomes in three policy domains free movement of goods sex equality and environmental protection The book integrates diverse themes including the testing of hypotheses derived from regional integration theory the judicialization of legislative processes the

path dependence of precedent and legal argumentation the triumph of the rights revolution in the EU delegation agency and trusteeship balancing as a technique of judicial rulemaking and governance and why national administration and justice have been steadily Europeanized Written for a broad audience the book is also recommended for use in graduate and advanced undergraduate courses in law and the social sciences *Paradoxes of European Legal Integration* Hanne Petersen, 2008 Focusing on paradoxes and tensions of European legal integration this book investigates four complex and inherently contradictory processes to offer a new framework for understanding contemporary European integration The volume features contributions from some of the biggest names in European legal philosophy to include Neil MacCormick Yves Dezalay and Bryant Garth Pierre Legrand Heikki Mattila and David Nelken **The Oxford Handbook of European Islam** Jocelyne Cesari, 2015 For centuries Muslim countries and Europe have engaged one another through theological dialogues diplomatic missions political rivalries and power struggles In the last thirty years due in large part to globalization and migration from Islamic countries to the West what was previously an engagement across national and cultural boundaries has increasingly become an internalized encounter within Europe itself Questions of the Hijab in schools freedom of expression in the wake of the Danish Cartoon crisis and the role of Shari'a have come to the forefront of contemporary European discourse The Oxford Handbook of European Islam is the first collection to present a comprehensive approach to the multiple and changing ways Islam has been studied across European countries Parts one to three address the state of knowledge of Islam and Muslims within a selection of European countries while presenting a critical view of the most up to date data specific to each country These chapters analyze the immigration cycles and policies related to the presence of Muslims tackling issues such as discrimination post colonial identity adaptation and assimilation The thematic chapters in parts four and five examine secularism radicalization Shari'a Hijab and Islamophobia with the goal of synthesizing different national discussion into a more comparative theoretical framework The Handbook attempts to balance cutting edge assessment with the knowledge that the content itself will eventually be superseded by events Featuring eighteen newly commissioned essays by noted scholars in the field this volume will provide an excellent resource for students and scholars interested in European Studies immigration Islamic studies and the sociology of religion **European Integration and Supranational Governance** Wayne Sandholtz, Alec Stone Sweet, 1998-09-24 The European Union began in 1957 as a treaty among six nations but today constitutes a supranational polity one that creates rules that are binding on its 15 member countries and their citizens This majestic study confronts some of the most enduring questions posed by the remarkable evolution of the EU Why does policy making sometimes migrate from the member states to the European Union And why has integration proceeded more rapidly in some policy domains than in others A distinguished team of scholars lead by Wayne Sandholtz and Alec Stone Sweet offers a fresh theory and clear propositions on the development of the EU Combining broad data and probing case studies the volume finds solid support for these propositions in a variety of policy domains The

coherent theoretical approach and extensive empirical analyses together constitute a significant challenge to approaches that see the EU as a straightforward product of member state interests power and bargaining This volume clearly demonstrates that a nascent transnational society and supranational institutions have played decisive roles in constructing the European Union

**Politics in the European Union** Ian Bache, Stephen George, Simon Bulmer, 2011-02-17 This is an account of the main developments in the process of European integration It provides coverage of theory history member states institutions and policies drawing on academic debates including issues of legitimacy and globalisation

*The Palgrave Handbook of the European Administrative System* M. Bauer, J. Trondal, 2015-01-28 Drawing on research from the administrative sciences and using organizational institutional and decision making theories this volume examines the emerging bureaucratic framework of the EU and highlights that analyzing the patterns and dynamics of the EU s administrative capacities is essential to understand how it shapes European public policy

*European Integration Since the 1920s* Mark Hewitson, 2024-10-14 Brexit populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration This book re examines why the European Union and its forerunners were created and investigates how and why they have changed It links contemporary events to historical explanation arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states After 1945 the unexpected advent of a Cold War and the military diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they also placed limits on European governments activities as did disagreements between political parties and the expectations of citizens As a consequence supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a type of confederation The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union It asks how and why citizens of member states have identified with the EU how matters of security affected the development of the European Community during and after the Cold War whether economic and social convergence have taken place and with what consequences and why European institutions have come to function as they have The study is thematic focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union

**History of the Literary Cultures of East-Central Europe** Marcel Cornis-Pope, John Neubauer, 2004-01-01 Continuing the work undertaken in Vol 1 of the History of the Literary Cultures of East Central Europe Vol 2 considers various topographic sites

multicultural cities border areas cross cultural corridors multiethnic regions that cut across national boundaries rendering them permeable to the flow of hybrid cultural messages By focusing on the literary cultures of specific geographical locations this volume intends to put into practice a new type of comparative study Traditional comparative literary studies establish transnational comparisons and contrasts but thereby reconfirm however

Law and Governance in an Enlarged European Union George A. Bermann, Katharina Pistor, 2004-11-10 This book's principal aim is to critically address the institutional and substantive legal issues resulting from European enlargement chiefly those relating to the legal foundations on which the enlarged Union is being built The accession of new Member States creates the potential for a stronger and more powerful Europe Realising this potential however will depend on the ability of the EU to develop functional and effective governance structures both at the European level and at the level of the individual Member States While the *acquis communautaire* will ensure that formal laws in the new Member States will be aligned with those of existing members the question remains as to how effective institutions will be in implementing changes and what effects the imposed changes will have on the legitimacy of the new legal framework This book containing the work of leading scholars in law and social sciences examines the current and future legal framework for EU governance and the role that new members will or will not play in the creation of that framework paying particular attention to the specific challenges membership in the EU poses to the acceding states of Central and Eastern Europe It is a book which will contribute to and influence debates over constitutionalism and legal harmonisation in the EU

**Europe's Foreign and Security Policy** Michael Eugene Smith, 2004 The emergence of a common security and foreign policy has been one of the most contentious issues accompanying the integration of the European Union In this book Michael Smith examines the specific ways foreign policy cooperation has been institutionalized in the EU the way institutional development affects cooperative outcomes in foreign policy and how those outcomes lead to new institutional reforms Smith explains the evolution and performance of the institutional procedures of the EU using a unique analytical framework supported by extensive empirical evidence drawn from interviews case studies official documents and secondary sources His perceptive and well informed analysis covers the entire history of EU foreign policy cooperation from its origins in the late 1960s up to the start of the 2003 constitutional convention Demonstrating the importance and extent of EU foreign security policy the book will be of interest to scholars researchers and policy makers

*Spain and Portugal in the European Union* Paul Christopher Manuel, Sebastian Royo, 2004-06-01 This publication provides an up to date assessment of the political and economic issues and is valuable reading for anyone wishing to understand contemporary Spain and Portugal Following decades of relative isolation under authoritarian regimes the success of the processes of democratic transition in both countries paved the way for full

membership in the European Community in 1986 Drawing on research by established scholars Spain and Portugal in the European Union offers an original series of analyses of the development of Iberian politics sociology and economics since the accession to the European Union

**Doing Women's Studies** Gabriele Griffin, 2013-07-04 With the expansion of the EU in 2004 and its inclusion now of 25 European countries the movement of workers across the Continent will affect the employment opportunities of women But as this up to date investigation across nine countries shows there remain significant differences amongst specific European countries regarding women s education and employment opportunities Taking 1945 as its historical starting point this sociological study based on some 900 questionnaire responses and more than 300 in depth interviews explores the complex inter relationship between women s employment the institutionalization of equal opportunities and Women s Studies training This volume is the first to explore what happens to women who have undertaken Women s Studies training in the labour market Factors influencing their actual employment experiences include employment opportunities for women in each country their expectations of the labour market and gender norms informing those expectations how far equal opportunities are actually enforced and the strength of local women s movements Doing Women s Studies provides unique information about and insightful analyses of the changing patterns of women s employment in Europe equal opportunities in a cross European perspective educational migration gender race ethnicity and nationality and the uneven prevalence and impact of Women s Studies on the lifestyles and everyday practices of those women who have experienced it The contributors are prominent feminist researchers from nine European countries Their findings will be of interest to sociologists and gender studies experts working in the areas of gender employment equal opportunities and the impact of education on employment

**The Legal History of the European Banking Union** Pedro Gustavo Teixeira, 2020-12-24 How was the Banking Union the most advanced legal and institutional integration in the single market created How does European law impact European integration To answer these questions this book provides a sweeping account of the evolution of European law It identifies five integration periods of the single financial market intertwined with the development of global finance from its origins through its expansion and crisis to the Banking Union Each period is defined by innovations to deepen integration such as the single passport for financial services soft governance and comitology agencies or a single rulebook Providing a far reaching explanation of the legal and institutional rationality of the European Banking Union this book demonstrates that the Banking Union is not an accident of history or simply the product of the existential crisis of the Monetary Union It has deep roots in the evolutionary process of European law and its drive towards supranational integration

*Europe's New Fiscal Union* Pierre Schlosser, 2018-09-21 The euro crisis made Europe s stateless currency falter This book retraces and interprets the ways in which the crisis impacted the unique institutional set up of Europe s Economic and Monetary Union EMU It argues that the crisis propelled the European continent towards the institutionalization of an unprecedented form of centralized authority Europe s New Fiscal Union Diving into the central

functions of fiscal surveillance financial assistance lending of last resort and banking resolution the book reveals how a covert and convoluted mutualisation process occurred in the shadow of the euro crisis management Based on 62 interviews conducted by the author with senior policy makers in Brussels Frankfurt Helsinki and Rome the book claims that Europe's New Fiscal Union is largely unsettled and still unstable It therefore engages with the challenges arising from the patchwork of newly adopted rules instruments and bodies suggesting crucial reform steps to make EMU sustainable **The Impact of Expansion on European Union Institutions** E. Heidebreder, 2011-04-11 How does policy making trigger the institutionalization of steering capacities This book investigates this question by tackling why the European Commission expanded competences that were intentionally limited to the specific pre accession context prior the 2004 07 EU enlargement *The New Global Politics of the Asia Pacific* Michael K. Connors, Rémy Davison, Jörn Dosch, 2004-08-12 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company **The European Higher Education Area**, 2019-02-11 This volume presents the state of the art with respect to the most important elements of the Bologna process The reflections on the past are also used to fuel the debate on the next decade In 2008 the Flemish Ministry of Education and Training invited the editors to produce a volume with chapters discussing topics that are deemed to be most salient in the coming decade Based on a tentative list of themes to be covered initially suggested by the Ministry the editors have solicited contributions from appropriate scholars experts on the specific topics As a result this volume contains a rich set of chapters which address the promises and perils of the Bologna process and its preliminary outcomes A difficult task given that the process is a target on the move and even changing in nature during the process It is also a difficult task because evidence can be interpreted differently paving the way for new paradoxes and complex interactions between the actors in the field Consequently we are faced with new questions every time we believe answers to old questions have been found The contributors to the volume not necessarily agree in their analyses of the Bologna process but there is nevertheless a fair amount of consensus According to their analyses governance quality mobility and diversity are the topics that have been most important to the Bologna process in the past and will be at centre stage in future discussions The book is meant to be a reflective exercise for those involved in whatever way in the Bologna process researchers teachers managers political decision makers The material is also relevant to those outside of the countries currently subscribing to the Bologna process
