The Interactive Guide To Options

Daniel F McAuley

The Interactive Guide To Options:

User's Guide for an Interactive Personal Computer Interface for the 1998 Aeroprediction Code (AP98) Thomas C. Hymer, Frankie Gale Moore, Cornell Downs, 1998 This report describes interactive user friendly pre processing and post processing personal computer P C modules designed to operate with the latest version of the Naval Surface Warfare Center NSWC Aeroprediction Code AP98 As part of the preprocessing input module geometry inputs are automated by giving the user many options By using this new software a set of aerodynamic coefficients can be obtained on most weapon configurations in less than 15 minutes from time of initial setup to computer outputs compared to 2 4 hours for the AP98 computer mainframe version While the computer cost savings are modest the AP98 executes on a large computer in less than a second the manpower savings and productivity enhancements can be significant Various plots of the aerodynamic coefficients are available to the user and are plotted automatically by the post processing module Data output is also made available to the user in the form of standard Aeroprediction output files as well as tabulated data The User s Guide is designed to aid users of the AP98 by correlating AP98 P C Interface Data Inputs and the corresponding source code variable names

The Interactive Guide to Director Kirk Keller, 1998-10 Introduction to Multimedia Multimedia Authoring Beginning Multimedia Computer Science Computer Technology Multimedia Graphics Information Systems 4 year and 2 year colleges continuing education The Interactive Guide to Director 6 guides students through a series of projects that teach them the fundamentals of using Director 6 and 6 5 across platforms Keller uses step by step tutorials to guide students through the basic functions of Director from storyboarding and authoring to final distribution on CD ROM or the web at the same time introduces essential background information on the development of multimedia The accompanying CD ROM contains chapter by chapter exercise examples and software to help students complete the exercises

The Interactive Guide to Authorware 4 Candace Garrod, 1999 Introduction to Multimedia Multimedia Authoring Web Authoring Computer Science Computer Technology Multimedia Graphics Information Systems 4 year and 2 year colleges Continuing education The Interactive Guide to AuthorWare 4 guides students through a series of projects that teach them the fundamentals of using AuthorWare Garrod covers the multimedia process cycle and design strategies In addition the text takes a case study approach with step by step instructions that guide students through the development of AuthorWare projects The accompanying CD ROM contains chapter by chapter exercise examples and software to help students complete the exercises
