**The Interesting Narrative of the Life of Olaudah Equiano + Declaring Rights + Andrew Jackson V. Henry Clay And William Lloyd Garrison** Robert J. Allison, William E. Cain, Olaudah Equiano, Harry L. Watson, 2000-04-17 **Equiano and Anti-slavery in Eighteenth-century Belfast** Nini Rodgers, 2000 The celebrated freed slave Olaudah Equiano visited Ireland in 1791 and was welcomed particularly in Belfast Long standing radical rhetoric about the political slavery of Ireland was now and in the context of the Rights of Man applied specifically to oppressed peoples whether black or Catholic And yet Belfast's commercial and industrial advance a major trigger of radical self assertion was intimately linked to trade and connections with the slave economies of the West Indies Nini Rodgers with her wide ranging interest in the history of slavery and its role in the Atlantic economy is well equipped to move beyond the black and white simplicities of a purely parochial portrayal of Belfast's role in slavery issues Arab-Islamic Education Systems in the Experience of Migrants and Refugees in Europe Sara Mazzei, 2025-03-15 In the last decade Europe has welcomed numerous migrants and refugees from Arab countries Their scholastic inclusion has been challenging and the teaching staff had to sometimes deal with unfamiliar realities The issue has been addressed by various perspectives from sociology to psychology insights from which are gathered in intercultural education In it there are scarcity of studies that delve into pupils cultural backgrounds and countries of origin's history is seldom regarded as a decisive factor in the formation of identity Among Arabic speaking communities the Moroccan and Syrian ones are the most significant and Morocco and Syria have interesting histories and education systems Using Nussbaum's 2010 multifactorial analysis this research aims to better understand the educational universe where Arabic speaking pupils come from focusing on humanities and religious education in the experience of pupils especially from Morocco and Syria Methodology comprehends qualitative empirical research conducted in Europe Results show the differences experienced by pupils in their educational paths among diverse Arab and European countries and the more sensitive topics they encounter in their education in Europe in relation to their identity **African Cultural Personalities in a World of Change** Ikechukwu Anthony Kanu, Ejikemeuwa J. O. Ndubisi, Kanayo Nwadiakor, 2018-08-16 This notwithstanding over the years the African culture in all its manifestations became the bulls eye for attack especially during the Atlantic Slave Trade Colonialism Racism During these periods Europe dealt coup de grace to the African personality to his is ness by destroying the African cultural values They disrespected African peculiarities languages enriched with traditions of centuries parables many of them the quintessence of family and national histories modes of thought influenced more or less by local circumstances local poetry which reveals the profundity of African literary wizardry A lot of these were altered against the background that the African in all his susceptibilities is an inferior race and that it is needful to give him a foreign model beacon to emulate and follow In our time of globalization bringing about a new sweep of changes on the African cultural values a more careful historically grounded interpretation of the cultural changes occurring on the

continent is therefore needed and for it to be useful it should enable us to transcend the narrow and narrowing parameters that currently dominate the discourse on the processes and structures of change occurring in contemporary Africa This piece is a great accomplishment by African scholars to do a grounded hermeneutics of the structures of changes taking place in Africa The different chapters are the fruits of the 2018 International Conference of the Association for the Promotion of African Studies APAS The authors like artists combine originality with insightful imagination They have carefully treated the historical conceptual basic and substantive issues in cultural change in Africa Their coherent systematic and encyclopedic approaches have the capacity to expand the intellectual and professional horizon of its readers **The Caribbean Oral**

**Tradition** Hanétha Vété-Congolo, 2016-10-27 The book uses an innovative prism of interorality that powerfully reevaluates Caribbean orality and innovatively casts light on its overlooked and fundamental epistemological contribution into the formation of Caribbean philosophy It defines the innovative prism of interorality as the systematic transposition of previously composed storytales into new and distinct tales The book offers a powerful consideration of the interconnections between Caribbean orality and Caribbean philosophy especially as this pertains to aesthetics and ethics This is a new area of thought a new methodological approach and a new conceptual paradigm and proposition to scholars students writers artists and intellectuals who conceive and examine intellectual and cultural productions in the Black Atlantic world and beyond *Our Common Manners and Customs as Hebrew Peoples* Nkem Emeghara, 2018-05-23 Dr Ola Udah literal meaning Judahs offering or Judahs ornament Equiano possibly ekwe alu a was right when he identified his Eboe people as presenting same manners and customs as the Israelites of the old times as illustrated in the book of Leviticus This study attempts to be an evidence to this assertion It is a product of a research that began since 1983 and is barely concluded in 2018 The reader would readily realize that the research on this topic has only begun Changes modifications and even eliminations of manners and customs of people through the generations make continuation of this study inevitable This would be especially expected when examining ancient cultural issues today Although the study did not strictly begin as another attempt to prove the identity of the Ibos as the Jews enunciated in the Old Testament designation of the children of Jacob it has however added a relevant credence to that fact Some of the manners and customs examined include similarities in the use of words and meanings ritual practices beliefs personal attributes and aspirations that are common to the Eboe Heeboe Ibu Ibo Igbo peoples and the ancient Israelites The book is basically a call for individual and collective reinvention of Eboes and indeed worldwide Jews for collective survival in a hostile world The book interprets a true present day Hebrew as the true worshipper of the I am that I am the G d of our fathers who singled out Abraham and Jacob our common ancestral fathers and chose them for a mission to the world The book finally suggests a version of Christianity centered on Yeshua Jesus the Christ and his message in the New Testament a version of Christianity that would include relevant aspects of our omenala law among other recommendations This is a book no one should ignore as it should be an eye opener to the facts relevant to finding the solution to a long

standing identity crisis of the Eboe people      **Dictionary Catalog of the Schomburg Collection of Negro Literature and History** Schomburg Center for Research in Black Culture, Schomburg Collection of Negro Literature and History, 1962

**Fighting for Honor** T. J. Desch-Obi,2021-04-12 A groundbreaking investigation into the migration of martial arts techniques across continents and centuries The presence of African influence and tradition in the Americas has long been recognized in art music language agriculture and religion T J Desch Obi explores another cultural continuity that is as old as eighteenth century slave settlements in South America and as contemporary as hip hop culture In this thorough survey of the history of African martial arts techniques Desch Obi maps the translation of numerous physical combat techniques across three continents and several centuries to illustrate how these practices evolved over time and are still recognizable in American culture today Some of these art traditions were part of African military training while others were for self defense and spiritual discipline Grounded in historical and cultural anthropological methodologies Desch Obi s investigation traces the influence of well delineated African traditions on long observed but misunderstood African and African American cultural activities in North America Brazil and the Caribbean He

links the Brazilian martial art capoeira to reports of slave activities recorded in colonial and antebellum North America Likewise Desch Obi connects images of the kalenda African stick fighting techniques to the Haitian Revolution Throughout the study Desch Obi examines the ties between physical mastery of these arts and changing perceptions of honor Including forty five illustrations this rich history of the arrival and dissemination of African martial arts in the Atlantic world offers a new vantage for furthering our understanding of the powerful influence of enslaved populations on our collective social history

**Gender and Race in Antebellum Popular Culture** Sarah N. Roth,2014-07-21 In the decades leading to the Civil War popular conceptions of African American men shifted dramatically The savage slave featured in 1830s novels and stories gave way by the 1850s to the less threatening humble black martyr This radical reshaping of black masculinity in American culture occurred at the same time that the reading and writing of popular narratives were emerging as largely feminine enterprises In a society where women wielded little official power white female authors exalted white femininity using narrative forms such as autobiographies novels short stories visual images and plays by stressing differences that made white women appear superior to male slaves This book argues that white women as creators and consumers of popular culture media played a pivotal role in the demasculinization of black men during the antebellum period and consequently had a vital impact on the political landscape of antebellum and Civil War era America through their powerful influence on popular culture

Andrew Kopec,2025-08-25 People living in the nineteenth century United States saw shocking upheavals in both the economy and in ideas of selfhood in a commercial society Narratives such as Horatio Alger's rags to riches tales allured Americans with visions of financial success while events such as the Panics of 1819 1837 1857 and 1865 threatened them with sudden and devastating financial failure The antebellum period's go ahead ethos encouraged individuals to form an identity amid this chaos by striving for financial success through risk taking that is to form a capitalist self Andrew Kopec argues that writers of this era were not immune to this business turbulence rather their responses to it shaped the development of American literature By examining the public and private writings of well known American writers including Washington Irving Catharine Maria Sedgwick Nathaniel Hawthorne Herman Melville and Frederick Douglass Kopec contends that instead of anxiously retreating from the volatile market these figures deliberately engaged with it in their writing These writers grappled with both the limits and opportunities of capitalist selfhood and tried in various ways to harness the economy's energies for the benefit of the self In making this argument Kopec invites readers to consider how this era of American literature questioned the ideologies of capitalist identity that seem inescapable today      I Will Wear No Chain! Christopher B. Booker,2000-09-30 This volume traces the social history of African American men from the days of slavery to the present focusing on their achievements their changing image and their role in American society The author places the contemporary issue of Black men's disproportionate involvement with criminal justice within its social and historical context while analyzing the most significant movements aiming to improve the status of Blacks in our society The book's main thesis is that an ever changing yet ever present process of criminalization has entrapped Black men throughout history thus creating a major barrier to their collective development The topics discussed include the role of Blacks in the Civil War Booker T Washington the Civil Rights movement and the Million Man March      *Robinson Crusoe tries again* Werner Ustorf,2010-09-15 The Christian experience in modern Europe is fragmented It shows great diversity in various geographical contexts and historically a considerable alternation of extremes high or low tides of engagement One aspect of the Christianity in Europe's past is its mission history The spread of Christianity from the West as one of its most important results into the continents of the Global South has been deeply ambivalent in character On the one hand the mission from the West helped to build the historical foundations for Christian education adolescence and maturation to responsible adulthood in a global diverse segregated and pluralistic world As a mature global player Christianity was in a prime position to contribute to peaceful conflict resolution in the religious social and political fields On the other hand the darkness and utter insufficiency of the encounter between the European Christian self and the many others worldwide brought along problematic projections of different beliefs attacked in a hostile way as alien and inevitably as conquered The consequences

particularly for the primal other the indigenous people were often disastrous Werner Ustorf has been a leading missiologist worldwide for thirty years This book not only analyses the interaction between mission and individual the construction of the self and the other in a mission context but also proves the analytical strength of theology in conceptualizing future Christian experiences in Europe Ustorf illustrates that apart from traditional dimension of faith a non religious interpretation and critical trust in transcendence is crucial for the formation of the new interculturalization of Christianity in Europe Thus this book demonstrates how mission history can be transformed to a research concept for a global and pluralistic Christianity

*A More Perfect Reunion* Calvin Baker, 2020-06-30 A provocative case for integration as the single most radical discomfiting idea in America yet the only enduring solution to the racism that threatens our democracy Americans have prided ourselves on how far we've come from slavery lynching and legal segregation measuring ourselves by incremental progress instead of by how far we have to go But fifty years after the last meaningful effort toward civil rights the US remains overwhelmingly segregated and unjust Our current solutions diversity representation and desegregation are not enough As acclaimed writer Calvin Baker argues in this bracing necessary book we first need to envision a society no longer defined by the structures of race in order to create one The only meaningful remedy is integration the full self determination and participation of all African Americans and all other oppressed groups in every facet of national life This is the deepest threat to the racial order and the real goal of civil rights At once a profound masterful reading of US history from the colonial era forward and a trenchant critique of the obstacles in our current political and cultural moment *A More Perfect Reunion* is also a call to action As Baker reminds us we live in a revolutionary democracy We are one of the best positioned generations in history to finish that revolution

*The Transatlantic Slave Trade* Siyavush Saidian, 2017-12-15 When European settlers first started their migration to the Western Hemisphere they found land that was ready for farming To build this agricultural society they bought and sold slaves from Africa Through the detailed text contemporary and historical images and informative sidebars readers get a sense of how complex and dangerous the transatlantic slave trade was in the early years of New World exploration Powerful quotes from primary sources and scholars bring this painful period in America's past to life asking readers to think more critically about history
