World Archaeology at the Pitt Rivers Museum: A Characterization Dan Hicks, Alice Stevenson, 2013-03-08 World Archaeology at the Pitt Rivers Museum a characterization introduces the range history and significance of the archaeological collections of the Pitt Rivers Museum Oxford **The Archaeology of Malta** Claudia Sagona, 2015-08-25 The Maltese archipelago is a unique barometer for understanding cultural change in the central Mediterranean Prehistoric people helped reshape the islands economy and when Mediterranean maritime highways were being established the islands became a significant lure to Phoenician colonists venturing from their Levantine homeland Punic Malta also sat at the front line of regional hostilities until it fell to Rome Preserved in this island setting are signs of people s endurance and adaptation to each new challenge This book is the first systematic and up to date survey of the islands archaeological evidence from the initial settlers to the archipelago s inclusion into the Roman world c 5000 BC 400 AD Claudia Sagona draws upon old and new discoveries and her analysis covers well known sites such as the megalithic structures as well as less familiar locations and discoveries She interprets the archaeological record to explain changing social and political structures intriguing ritual practices and cultural contact through several millennia **The Maltese Archipelago at the Dawn of History** Davide Tanasi, David Cardona, 2020-08-27 This collection of essays provides a reassessment of the multifaceted evidence which emerged from excavations carried out in 1909 and 1959 in the settlement of Bahrija both largely unpublished until now Bahrija is a key site for understanding the later stages of Maltese prehistory before the beginning of the Phoenician colonial period Sacred Darkness Holley Moyes, 2012-04-15 Caves have been used in various ways across human society but despite the persistence within popular culture of the iconic caveman deep caves were never used primarily as habitation sites for early humans Rather in both ancient and contemporary contexts caves have served primarily as ritual spaces In Sacred Darkness contributors use archaeological evidence as well as ethnographic studies of modern ritual practices to envision the cave as place of spiritual and ideological power that emerges as a potent venue for ritual practice Covering the ritual use of caves in Europe Asia Australia Africa Mesoamerica and the US Southwest and Eastern woodlands this book brings together case studies by prominent scholars whose research spans from the Paleolithic period to the present day These contributions demonstrate that cave sites are as fruitful as surface contexts in promoting the understanding of both ancient and modern religious beliefs and practices This state of the art survey of ritual cave use will be one of the most valuable resources for understanding the role of caves in studies of religion sacred landscape or cosmology and a must read for any archaeologist

interested in caves **The late prehistory of Malta: Essays on Borg in-Nadur and other sites** Davide Tanasi, Nicholas C.
