Peaks on the

Horizon Charlie Carroll,2015-02-10 Charlie Carroll's obsession began with his chance discovery of *Seven Years in Tibet* in the Adult Reading section of his grade school library. The battered hardcover with faded gold lettering sparked a twenty year obsession with Tibet and after combing through every book, article and documentary on the mysterious and controversial nation, Charlie finally decided it was time to stop reading other people's records and thoughts. A high school English teacher by then, he took a sabbatical and set out to experience the shrouded land for himself. Contending with Chinese bureaucracy, unforgiving terrain and sickness inducing altitude, Charlie sought entrance to twenty first century Tibet in all its heart stopping beauty. The same year Charlie was browsing library shelves, Tibetan born Lobsang was crossing the Himalayas on foot, enduring to flee the volatile region with his family at the young age of five. An exile in Nepal with an ear for languages, then a university student in India, he followed the love of his life back to their home country, only to be separated by China's harsh political backlash. In a teahouse at the border between China and Tibet, Lobsang met Charlie and recounted his extraordinary life story exemplifying the hardship, resilience and hope of modern Tibetan life. [Rgyalrong Conservation and Change: Social Change On the Margins of Tibet](#) David Burnett,2014-11-25 The explosive growth of China's economy since the late 1970s has impacted the whole world, including the minority peoples in the west of China, people like the Qiang, Tibetans and Yi. Based on fieldwork in the high valleys of the eastern margins of the Qinghai Tibetan plateau, David Burnett has produced a unique study of a people known as the Rgyalrong, officially classed as Tibetans. The Rgyalrong have been impacted by secular education, tourism and migration to the cities that have resulted from economic reform. Amidst these changes, they endeavour to retain something of their traditional customs, songs, festivals, arts and crafts. They are a people who realize that if they lose their unique culture, they will lose their very identity. The issues raised in this book relate not only to the Rgyalrong but to minority peoples everywhere as they experience the forces of globalization. **Dead But Not Lost** Robert Goss, Dennis Klass,2005 The dead are still with us. Contemporary therapists and counselors are coming to understand what's been known for millennia in most religions and in most cultures: outside the Western milieu, it's important to continue bonds between the living and the dead. Taking these connections seriously, Goss and Klass explore how bonds with the dead are created and maintained. In doing so, they unearth a fascinating new way to look at the origins and processes of religion itself. Examining ties to dead family members, teachers, religious and political leaders across religious and secular traditions, the authors offer novel ways of understanding grief and its role in creating meaning. Whether for classes in comparative religion and death and dying or for bereavement counselors and others trying to make sense of grief, this book helps us understand what it means to feel connected to those dead but not lost. [Celebrating Life Customs around the World](#) Victoria R. Williams,2016-11-21 This book documents hundreds of customs and traditions practiced in countries outside of the United States, showcasing the diversity of birth, coming of age and death celebrations worldwide. From the beginning of our lives to the end, all of humanity celebrates life's milestones through traditions and unique customs. In the United States
