*Legacies of Slavery* Maria Suzette Fernandes Dias, 2021-03-04

The proclamation by the United Nations General Assembly of the International Year to Commemorate the Struggle against Slavery and its Abolition during 2004 marked the culmination of recent efforts to re engage with slavery s past and create an intellectual social political and ethical climate conducive to a sustained and meaningful dialogue among cultures and civilisations The past decade witnessed an upsurge of national and international exhibitions and conferences on the impact of slavery and the overwhelming and enduring cultural miscegenation and the demographic socio political and spiritual hybridisation that the phenomenon consciously or unconsciously initiated the celebration of efforts by Abolitionists to publicise the savagery of this inhumane practice a revival of interest in and the glorification of the often ignored or historically negatively represented resistance to slavery by slaves themselves and numerous endeavours to address the negative legacies of slavery like racism racial discrimination xenophobia and related intolerance which continue to impinge upon our present as part of contemporary politics Yet these ventures aimed at raising awareness of the horrors of slave trade and slavery at honouring struggles for the emancipation of the enslaved at examining the aftermath of slavery like the emergence of a new historic consciousness at restoring broken links and solidarity between the historically dislocated diasporas and their countries of origin at commemorating sites of memory and at celebrating artistic and cultural m tissage such as the UNESCO s Slave Route Project have largely focused on the Atlantic World and the deportation of slaves from Africa to other parts of the World raising questions about the legacy of slavery in other societies like those in Asia the Pacific and Europe where slavery still remains on the margins of national and post colonial histories This edited volume is an attempt to reconsider slavery as a global human institution which has coexisted with other socio political economic legal and cultural institutions As a temporally and spatially ubiquitous phenomenon it has generated and continues to engender legacies be they historical oral or visual which need to be compared and discussed to facilitate dialogue between cultures and civilisations and to mitigate the wounds of the past which continue to scar our present It brings together writings by scholars from history literature anthropology and cultural studies who examine the indelible mark left by slavery in its various forms on societies cultures and peoples all over the world and attempts by artistes and writers to alleviate this stigmata of History This volume consists of two sections The first section entitled Connecting Histories explores some of the varied forms in which slavery presented itself in the last four centuries and the need to reengage with its legacies Adhering to Manning s contention that slavery is an enduring metaphor for inequities in the treatment of humans this section focuses on identifying the legacy of slavery and its significance in scholarship Manning alternate perspectives on slavery through the examination of forced labour and the dehumanising treatment of indigenous people in Australia Read enforced migration and

labour exploitation of convicts in penal colonies Maxwell Stewart and a historical overview of Lusitanian slavery in India D Souza and the hybridisation of pre colonial slavery traditions in the perpetuation of the perkerniersstelse or a profitably managed European settler colony based on the global monopoly of nutmeg production by the Dutch Winn The second section of the book entitled Centering Discourses Identity Image and Text begins with a postcolonialist reading of Caribbean slavery as a legacy of capitalism imperialism and plantation culture and above all the globalization of sugar consumption Ashcroft The two chapters that follow resuscitate two of the many categories of slaves who were victims of historical silence namely children in the sugar plantations of the West Indies Teelucksingh and Martiniquan maroons Fernandes Dias Articulating with the discourse on identity and cultural appropriation introduced in the preceding essay chapter nine provides an overview of the power struggle at work in the construction of Creole identity and its political legitimization through a topical analysis of the process of commemoration of a site of memory Le Morne Brabant symbol of slavery and marronage in the Mauritian collective memory Carmignani The final two chapters explore the problematics of presenting slavery through the adoption of a counter hegemonic discourse particularly through the arts Aphra Behn s Oroonoko which exalts the Black slave as a hero without making any explicit case for the abolition of slavery continues to occupy the terrain of sympathist abolitionist ambiguity Landford while the Amistad case despite its numerous positive legacies demonstrates how excessive popularization of the incident as an Abolitionist cause could result in an overload of historical memory to the point of obscuring historical reality Fernandes Dias Despite the volume s overarching desire to provide a global and comparative overview of the historical ideological economical and cultural factors that contributed to the evolution of slavery and the legacies that the institution generated this volume is limited in the thematic chronological and geographic terrain that it has covered We attribute this shortcoming to the complexity of slavery itself as an institution the problematic of defining what constitutes slavery and the historical silence maintained over its dehumanizing effects Yet the story of slavery is also a tale of survival of resistance and of the resilience of the human spirit to transcend oppression and preserve its inherent dignity It is the celebration of the rich cultural fusion and m tissage that rose from the ashes of human suffering The wounds of the past need to be healed perhaps initially at a mythopoetic level through the articulation of repressed collective angst and its legacies through the arts and through scholarship

Climate Chaos and its Origins in Slavery and Capitalism Reva Blau, Judith Blau, 2020-10-26 Climate Chaos provides readers the latest consensus among international scientists on the cascading impacts of climate change and the tipping points that today threaten to irreversibly destroy the delicate balance of the Earth s ecosystems The book argues that deregulation and an expansion of fossil fuel extraction have already tipped the planet towards a climate that is out of control This crisis will cause massive human suffering when extreme weather pollution and disease lead to displacement food and water shortages war and possibly species extinction The repression of science creates an existential crisis for humanity that has reached crisis proportions in the twentieth first century The scale of the

crisis has prompted a call for geoengineering large interventions into the climate by technological innovation. However, the history of colonialism and slavery make the technological and monetary elites untrustworthy to solve this humanitarian and planetary crisis. While the elites have always cast certain groups of humanity as expendable, the climate crisis makes a true humanist and egalitarian movement based in human rights and dignity not only aspirational but also existentially mandatory. The crisis demands that we remake the world into a more just and safe place for all the world's people.

*Slavery in the British Empire and Its Legacy in the Modern World* Stephen Cushion, 2025-06-05. Reveals that the institution of slavery was anchored in the same exploitative capitalist system which remains in place today. Slavery in the British Empire and its Legacy in the Modern World by Stephen Cushion situates the crime of enslavement within the business practices that place profit before people. The institution of slavery entailed a unique combination of exploitation and expropriation anchored in patterns of conspicuous consumption by the wealthy and intertwined with the textile, food, agriculture, construction, transportation, infrastructure, and insurance industries. It was floated by the same banking and commodity trading systems that still remain today. The exploitation of enslaved labor stimulated capitalist expansion during and after the bloody reign of the British Empire at the cost of war, inter-imperialist rivalry, Indigenous genocide, and the murderous suppression of the rights of the enslaved. And as Cushion argues, many of the direst problems still facing the world, from horrific economic inequality to rampant environmental decline, have their origins in the institution of slavery. Correcting these wrongs will cost money. Perversely, there is no shortage of funds in the coffers of the institutions which perpetrated them. Neither Anglo governments nor businesses have properly addressed their role. Ultimately, *Slavery in the British Empire and its Legacy in the Modern World* goes beyond cataloguing past wrongs to engaging with the legacies of slavery, spotlighting above all the defiant response of those it wronged as they call for reparations and more.

*Slavery and its Legacy in Ghana and the Diaspora* Rebecca Shumway, Trevor R. Getz, 2017-10-19. Ghana, for all its notable strides toward more egalitarian political and social systems in the past 60 years, remains a nation plagued with inequalities stemming from its long history of slavery and slave trading. The work assembled in this collection explores the history of slavery in Ghana and its legacy for both Ghana and the descendants of people sold as slaves from the Gold Coast in the era of the transatlantic slave trade. The volume is structured to reflect four overlapping areas of investigation: the changing nature of slavery in Ghana, including the ways in which enslaved people have been integrated into or excluded from kinship systems, social institutions, politics, and the workforce over time; the long-standing connections forged between Ghana and the Americas and Europe through the transatlantic trading system and the forced migration of enslaved people; the development of indigenous and transnational anti-slavery ideologies; and the legacy of slavery and its ongoing reverberations in Ghanaian and diasporic society. Bringing together key scholars from Ghana, Europe, and the USA who introduce new sources, frames, and methodologies, including heritage, gender, critical race, and culture studies, and drawing on archival documents and oral histories, *Slavery and Its Legacy in Ghana and*

the Diaspora will be of great interest to scholars and students of comparative slavery abolition and West African history

**The Winds of History** Andreas Zeman, 2023-10-24 Based on extensive archival research in six countries and intensive fieldwork the book analyzes the history of the village of Nkhlongue on the eastern Mozambican shores of Lake Malawi from the time of its formation in the 19th century to the present day The study uses Nkhlongue as a microhistorical lens to examine such diverse topics as the slave trade the spread of Islam colonization subsistence production counter insurgency decolonization civil war ecotourism and matriliney Thereby the book attempts to reflect as much as possible on the generalizability and global comparability of local findings by framing analyses in historiographical discussions that aim to go beyond the regional or national level Although the chapters of the book deal with very different topics they are united by a common interest in the social history of rural Africa in the longue durée Contrary to persistent clichés of rural inertia in Africa the book as a whole underscores the profound changeability of social conditions and relations in Nkhlongue over the years and highlights how people's room for maneuver kept changing as a result of the Winds of History the frequent and often violent ruptures brought to the village from outside

*The Slave Trade, Abolition and the Long History of International Criminal Law* Emily Haslam, 2019-09-20 Modern international criminal law typically traces its origins to the twentieth century Nuremberg and Tokyo trials excluding the slave trade and abolition Yet as this book shows the slave trade and abolition resound in international criminal law in multiple ways Its central focus lies in a close examination of the often controversial litigation in the first part of the nineteenth century arising from British efforts to capture slave ships much of it before Mixed Commissions With archival based research into this litigation it explores the legal construction of so called recaptives slaves found on board captured slave ships The book argues that notwithstanding its promise of freedom the law actually constructed recaptives restrictively In particular it focused on questions of intervention rather than recaptives rights At the same time it shows how a critical reading of the archive reveals that recaptives contributed to litigation in important but hitherto largely unrecognized ways The book is however not simply a contribution to the history of international law Efforts to deliver justice through international criminal law continue to face considerable challenges and raise testing questions about the construction and alternative construction of victims By inscribing the recaptive in international criminal legal history the book offers an original contribution to these contentious issues and a reflection on critical international criminal legal history writing and its accompanying methodological and political choices
