international territory based within a specific country in Sub-Saharan Africa and will emerge in 2015. In The Monfort Plan, author Jaime Pozuelo Monfort engineers and designs a solution to lessen the burden of poverty. In order to do so, he relies on the social sciences to bring about innovation and forward-looking economic policies and financial instruments in the context of a paradigm shift. This book presents a multidisciplinary approach to policymaking that combines a range of fields in the social sciences, looking at the history behind the Marshall Plan, the formation of the European Union, and the Bretton Woods Institutions in order to determine how a Marshall Plan for Africa and the creation of New Institutions in the developing world could work. We live a moment of crisis in which creative policymaking might prove useful when proposing outcomes for a revitalized framework for capitalism to thrive and better serve the world. Walks you through the technicalities of the new architecture of capitalism in a straightforward manner. Provides a holistic view of how microfinance combined with the right economic policies and financial instruments could help change the world for the poor. Contains sweeping and detailed recommendations on how to build a new capitalist paradigm that helps elevate the poor and improve the human condition. Incorporating commentary from some of the top minds in the field of microfinance, this book puts the method of microfinance in perspective.

**The People Trade** Dorothy Shineberg, 1999-05-31. The story of the people from the New Hebrides (Vanuatu) and the Solomon Islands who left their homes to work in the French colony of New Caledonia has long remained a missing piece of Pacific Islands history. Now Dorothy Shineberg has brought these laborers to life by painstakingly assembling fragments from a wide variety of scattered records and documents. She tells the story of their recruitment, then sketches the workers' lives in New Caledonia, describing the contractual arrangements, the kinds of work they did, their living conditions, how they spent their free time, the large numbers who sickened and died, and the choice at the end of the contract to remain in the colony as free workers or to return home. Throughout the book, she throws light on the controversy about the recruiting of the Islanders: were they kidnapped? Or did they choose to leave home? If so, what motivated them? Evidently, the Islanders' cheap labor contributed to the development of the French colony, but how did the episode affect them and their homeland? The People Trade offers readers a revealing new picture of a long-neglected side of the Pacific Islands labor trade.
