Slow Birds And Other Stories:

Slow Birds and Other Stories Ian Watson, 1985-01-01 Eleven stories deal with slow motion bombs spatial anomalies African ghosts time travelers post nuclear worlds and evolutionary change

Slow Birds: And Other Stories Ian Watson, 2011-09-29 Where do the metal death gliders come from To the glass sailors of the five villages the slow birds that inched over the Earth at shoulder height appearing and vanishing were a mystery until young Daniel climbed aboard one of the scarred Missiles and vowed to find out where it went Ian Watson's third short story collection is his best yet a brilliant array of original and imaginative inventions that plunge the reader into strangely familiar new worlds

Salvage Rites: And Other Stories Ian Watson, 2011-09-29 Ian Watson's latest collection shows the same range and apparently inexhaustible fund of ideas that have characterized all his previous books No other contemporary figure in SF is so prolific or inventive a writer of short stories In the title story we immediately encounter a phantasmagoric vision of a society increasingly dependent on recycling its usable material other brilliant inventions include a planet inhabited by lemur like aliens who bafflingly produce marvellously finished stone carvings without apparently having the tools to do so The Moon and Michelangelo people fighting their way through the various levels of what appears to be a real life version of a computer adventure game Jewels in an Angel's Wing and a zoo in which are caged the extensions into our universe of four dimensional hyperbeings Hyperzoo And that is only the beginning there are fifteen stories in all each one a state of the art example of short science fiction at its finest

Evil Water: And Other Stories Ian Watson, 2011-09-29 In his fourth short story collection Watson again demonstrates the extraordinary scope of his imagination The title story has ancient witchcraft meeting complacent modern suburbia in a tale of spine chilling horror while When the Timegate Failed casts an unexpected light in the dangers of space travel and man's powers of self delusion Alien matters of a different kind crop up in Windows in which mysterious artefacts found on Mars prove to be something of a problem for their chic human owners Evil Water is a highly inventive collection which is a delight to read

Sunstroke: And Other Stories Ian Watson, 2011-09-29 This second collection of Watson's short stories further demonstrates his seemingly inexhaustible imagination In The Thousand Cuts the entire human race finds its consciousness blanked out for varying periods but life seems somehow to have gone on in the missing days and indeed previously intractable problems have moved towards a solution In Sunstroke a doctor blinded accidentally during the voyage to a seemingly benign new world becomes gradually aware of disturbing changes afflicting her sighted companions These stories and many others confirm Watson's place in the forefront of contemporary SF writers

Bird Child and Other Stories Patricia Grace, 2024-01-30 Mythology and contemporary Mori life are woven together seamlessly in this spectacular collection by Aotearoa's foremost short story writer The titular story Bird Child plunges you deep into Te Kore an ancient time before time In another the formidable goddess Mahuika Keeper of Fire becomes a doting mother and friend Later Grace's own childhood vividly shapes the world of the young character Mereana and a widower's hilariously human

struggle to parent his seven daughters is told with trademark wit and crackling dialogue Moving artfully across decades landscapes time and space with tenderness and charm Bird Child and Other Stories shows an author as adept and stimulating as ever Grace's stories make a shining and enduring place formed of the brilliant weave of Mori oral storytelling Joy Harjo Fly Bird fly Child in every direction Know what there is to know of everything terrestrial Of all that has been laid out by Tene nui a Rangi Fly high Fly high Know all that is celestial Attain the uncountable stars

The Coming of Vertumnus: And Other Stories Ian Watson,2011-09-29 A collection of science fiction short stories by the author of Lucky's Harvest They feature dozens of characters a new way of travelling between the stars a strange planet magical powers bravura set pieces and manoeuvres of narrative

Stalin's Teardrops: And Other Stories Ian Watson,2011-09-29 Ian Watson is one of the most prolific short story writers in contemporary science fiction with a range and invention that others might envy In this collection we move from a ghostly occurrence in Catalonia to a memorably hallucinatory and atmospheric tale of eggs and ectoplasm in pre glasnost Russia The Times said of Watson that his stories are springloaded with effect compressed with a drama that in others might take a novel to eke out a judgement confirmed by the dozen stories collected here

Birds of Fortune and Other Stories Wando Wande,2014-01-06 A collection of fantastical short stories for your perusal Vignettes on love pigeons and death especially death A lady divided on an existential quandary there's a gun somewhere A little boy and his ghost bird friend try to find a way home and intact A physicist and her serial killer boyfriend Two grannies outdoing each other over a magical purse

Wild Child and Other Stories Paro Anand,2011-01-01 Any self respecting teenager has to have at least five angst ridden issues in life Okay some really cool ones may have three Take

parents teachers schools exams weight friends enemies then there s the mess that groan ups have made of the world Like all the wars they fight And they ve used up the water the air the forests as though there were no generation after them

Deathhunter Ian Watson,2011-09-29 The regions that have survived the holocaust in Watson s new novel have largely transformed themselves from prewar violence into a peaceful utopia without either conflict or art In place of belief in a religious afterlife the old and ailing accept euthanasia at Houses of Death where priestlike guides counsel them One of these guides is Jim Todhunter who pursues research into the nature of death despite official censure When he is assigned to guide that rarity in the new world a murderer he finds a natural ally in the obsessive Nathan Weinberger himself an ex guide As usual with Watson the initial impression of a green and pleasant land is revealed to be only one facet of a more complex and disturbing reality

Queenmagic, Kingmagic Ian Watson,2011-09-29 In another world somewhere in space and time two countries Bellogard and Chorny are locked in perpetual war conducted by magic Each of the main members of the two countries courts king queen prince bishop knight and squire has their own form of magic and special ways of moving magically A war may continue for centuries until one side succeeds in killing the other side s king at which point the whole world vanishes only to reappear and have the cycle begin again Pedino is a young Bellogardian who becomes the queen s squire and as part of his training is sent into a seedier part of the city to uncover a Chornian spy During his adventures he meets and falls in love with a whore Sara who turns out to be a Chornian bishop s squire Pedino succeeds in killing the other Chornian bishop a remarkable achievement for a mere squire but in the manoeuvres which follow Chorny proves to have outwitted its rival and Pedino s whole world is threatened with extinction There have been many stories modelled on chess games but none so ingenious and enjoyable as Ian Watson s latest novel And as one would expect from Watson the story of Bellogard and Chorny is only the beginning When Pedino and Sara manage to escape the destruction of their universe they find themselves in a series of even more bizarre worlds operating under still stranger rules as they seek to discover the purpose of their existence and the meaning of their universe *Queenmagic Kingmagic* is Ian Watson in sparkling exuberant form
