Economic Development James E. Rowe,2016-12-05 In economic development theory and practice exist as two seemingly separate realities Academics strive to develop or refine theory by drawing on abstract concepts about the way people behave and institutions work while practitioners draw from a stock of experiences By bringing together leading theorists and

practitioners such as Blakely Blair McCann Luger Gunder Stough and Stimson this book provides the first comprehensive overview of local economic development theories for over fifteen years It explores the theory behind the key concepts that every economic practitioner must understand and in doing so ties together the various theories from across the disciplines to practice

Linking Architecture and Education Anne Taylor, 2009-05-16 For the past forty years Anne Taylor has studied how schools classrooms playgrounds homes museums and parks affect children and how they learn As a result she has developed a holistic sustainable philosophy of learning environment design She argues persuasively that architects must integrate their design knowledge with an understanding of the developmental needs of learners while at the same time educators parents and students must broaden their awareness of the built natural and cultural environment to maximize the learning experience In other words schools and other environments can themselves become three dimensional textbooks When architects are cognizant of newer models of education and educators view the environment as more than a box in which to teach prescribed lessons the result is an informed architecture that enables children to discover the power of their own learning The book presents numerous examples of dynamic designs that are the result of interdisciplinary understanding of place Taylor includes designer perspectives forums derived from commentary by outside contributors involved in school planning and a wealth of photographs of thoughtful and effective solutions to create learning environments from comprehensive design criteria Because the concept of school is enlarged to a community campus the book also spawns a new model of teaching and learning This book is essential reading for educators architects and community members who are anxious to transform education in America and elsewhere Anne Taylor is the most outstanding educator leading proponent and practitioner in the three dimensional textbook field Her work is the finest resource available for connecting students young and old to their learning environments and visa versa Edward E Kirkbride NCARB REFP Before Western man divided the universe into discrete subject matter areas the order in the universe was and still is both interdisciplinary and holistic The branching of trees spiraling of shells meandering of streams and the radial designs of flowers for example represent an analogy of mathematics biology and art The current artificial separation of subject matter is in contrast to the way the world is constructed and the way children perceive it Architecture and the study of the built natural and cultural environment synthesize the world of material things and the world of ideas Further more it helps us to realize that we are a part of not apart from the environment This book is a tool and a gift to designers educators and students everywhere to assist them in seeing the meaning behind all that we view and use for living on earth To know our precious relationship to our surroundings is the intent of this book In this way life is a work of art and each of us is an artist Anne Taylor

The Economics of Investing in Universal Preschool Education in California Lynn A. Karoly, James H. Bigelow, 2005-05-04 There is increased interest in California and other states in providing universal access to publicly funded preschool education In considering such a program policymakers and the public focus on the potential benefits and costs of such a program This study aims to inform such deliberations by conducting an analysis of the economic returns from investing in high quality preschool education in the state of California

Career Programming: Linking Youth to the World of Work Kathryn Hynes, Barton J. Hirsch, 2012-07-17 Across education out of school time programming and workforce development researchers and practitioners are seeking ways to bolster the career readiness of our nation s youth particularly low income youth This issue brings together information from a variety of disciplines and fields to help researchers practitioners and policymakers understand what we know and need to learn to provide youth with effective engaging career related programming The articles highlight key findings about how youth learn about careers and develop a vocational identity whether adolescent employment is beneficial for youth and how to align our various systems to promote positive youth development Models of career programming from education afterschool and workforce development are highlighted as are strategies for collaborating with businesses The volume emphasizes the practical implications of research findings keeping the focus on how to develop evidence based practices to support career development for youth This is the 134th volume of New Directions for Youth Development the Jossey Bass quarterly report series dedicated to bringing together everyone concerned with helping young people including scholars practitioners and people from different disciplines and professions

Early Child Development from Measurement to Action Mary E. Young, Linda M. Richardson, 2007 Prosperity in the world today depends on societies nurturing of young children Quality care stimulation health and nutrition during ages 0 5 has a decisive and long lasting impact on a person s development ability to learn and capacity to regulate emotions Cognitive and noncognitive social and emotional skills set early in life determine later success New research in neurobiology and the behavioral and social sciences is converging to enhance this understanding of early child development Recently researchers noted epigenetic effects in brain development that is the interaction of environment early experiences with genetics to shape brain structure and function that with proper nurturing would enable people to have competence to create prosperous sustainable tolerant nonviolent and democratic communities The World Bank recently hosted a symposium on the priority of early child development for economic growth and equity The

participants urged application of population based tools and measures to assess the outcomes of children's early years and children's readiness for school. This approach which shifts the focus from measures of disease dysfunction and mortality is already yielding essential data for designing intervention programs identifying children at risk and leveraging policy and investment to improve the possibilities for all children globally.

The Great American Jobs Scam Greg LeRoy, 2005-07-21

For the past 20 years corporations have been receiving huge tax breaks and subsidies in the name of jobs jobs jobs. But as Greg LeRoy demonstrates in this important new book it's become a costly scam. Playing states and communities off against each other in a bidding war for jobs, corporations reduce their taxes to next to nothing and win subsidy packages that routinely exceed 100 000 per job. But the subsidies come with few strings attached. So companies feel free to provide fewer jobs or none at all or even outsource and lay people off. They are also free to pay poverty wages without health care or other benefits. All too often communities lose twice. They lose jobs or gain jobs so low paying they do nothing to help the community and lose revenue due to the huge corporate tax breaks. That means fewer resources for maintaining schools, public services and infrastructure. In the end the local governments that were hoping for economic revitalization are actually worse off. They're forced to raise taxes on struggling small businesses and working families or reduce services or both. Greg LeRoy uses up to the minute examples naming names including Wal Mart, Raytheon, Fidelity Bank of America, Dell and Boeing to reveal how the process works. He shows how carefully corporations orchestrate the bidding wars between states and communities. He exposes shadowy site location consultants who play both sides against the middle and he dissects government and corporate mumbo jumbo with plain talk. The book concludes by offering common sense reforms that will give taxpayers powerful new tools to deter future abuses and redirect taxpayer investments in ways that will really pay off.

Reforming Learning Clarence Ng, Peter D. Renshaw, 2008-11-23

In the wake of the 1997 Asian financial crisis various reform initiatives, policies and programmes have been carried out in different countries within the Asia Pacific region. All

these reform efforts aim to restructure different aspects of schooling in order to promote learning and to prepare students for future challenges in globalised economies These measures to a certain extent challenge traditional practices established arrangements and deep seated assumptions related to different aspects of learning The authors in this book discuss educational reforms in different countries in the Asia Pacific region in light of student learning clarify their concepts evaluate implementation and impact on the learning processes with a hope that we can learn better from each other and develop a better understanding of contemporary learning and teaching processes within the region The central argument running through different chapters in this book highlights the importance of understanding reforms and learning within their historical political and sociocultural contexts Reforming learning involves changes in established cultural practices in our schools classrooms and other learning sites and therefore inevitably arouses tensions and negotiations The discussion in this book puts to the fore the disputable nature of reforming learning and the significance of contextualising the complex relationship between reforms and learning

Handbook of Research on Transnational Higher Education Mukerji, Siran, 2013-08-31 The integration of new technology and global collaboration has undoubtedly transformed learning in higher education from the traditional classroom setting into a domain of support services academic programs and educational products which are made available to learners The Handbook of Research on Transnational Higher Education is a unique compilation of the most recent research done by higher education professionals in the areas of policy governance technology marketing and leadership development This publication succeeds in highlighting the most important strategies and policies for professionals policymakers administrators and researchers interested in higher education management *Smart Money* Brunello Rosa, Casey Larsen, 2024-10-24 A FINANCIAL TIMES ECONOMICS BOOK OF THE YEAR An excellent book VINCE CABLE A must read JO JOHNSON A fascinating read BILL DUDLEY A timely manifesto on how digital currencies will win the New Cold War and the struggle for geopolitical supremacy in the twenty first century A New Cold War is underway Whereas the first Cold War was dominated by the threat of nuclear conflict the new front line is economic and financial but still dominated by technology Who controls its future will help decide the outcome of the geopolitical struggle between China and the US Since the end of the Second World War the US dollar has been the global reserve currency which has ensured American dominance of the world economy But no longer More than a hundred countries are developing Central Bank Digital Currencies CBDCs digital equivalents to cash that will utterly transform how we do business at home and abroad China was the first country to recognise the potential of this new money The West s media focused on the new currency s role in China s surveillance state creating widespread concern about all CBDCs But they have largely overlooked a more important aspect of its existence as a tool through which to de dollarise the developing world at the speed of light When China s President Xi Jinping officially launched the digital yuan in February 2022 he also agreed a pact of limitless co operation with Russia Within days Russia launched its war on Ukraine secure in the knowledge it could bypass US sanctions Urgent clear eyed and

groundbreaking Smart Money shows us how CBDCs are going to impact all of our futures in ways that most of us have failed to even consider If the West is to compete it needs to act fast to develop its own global digital currencies that reflect the values of liberal democracies *Mobile Media Practices, Presence and Politics* Kathleen M. Cumiskey, Larissa Hjorth, 2013-08-29 As an example of convergence the mobile phone especially in the form of smartphone is now ushering in new promises of seamlessness between engagement with technology and everyday common experiences This seamlessness is not only about how one transitions between the worlds of the device and the physical environment but it also captures the transition and convergences between devices as well i e laptop to smartphone smartphone to tablet This volume argues however that these transitions are far from seamless We see divisions between online and offline virtual and actual here and there taking on different cartographies emergent forms of seams It is these seams that this volume acknowledges challenges and explores socially culturally technologically and historically as we move to a deeper understanding of the role and impact of mobile communication s saturation throughout the world Why We Teach Sonia Nieto, 2005-06-25 In Memoriam for Julia Gardner Developing Knowledge Societies for Distinct Country Contexts Lopes, Nuno Vasco, Baguma, Rehema, 2020-12-18 Through knowledge societies people have capabilities to acquire information and to transform that information into knowledge and information which empowers them to enhance their lives and to contribute to the social economic development The practical application of knowledge into innovation and how this process from research to development to application can be achieved is a domain that is not yet very well understood Developing Knowledge Societies for Distinct Country Contexts is an essential reference source that documents methods best practices and case studies for the development of global knowledge societies at the national regional and local levels Featuring empirical analysis on topics such as smart governance financial literacy and globalization this book is ideally designed for business strategists economists international researchers anthropologists politicians policymakers governmental sectors academics and students seeking coverage on the development of knowledge society policies and strategies in various areas of the world Indonesia-Taiwan Relations Prof. Dr. Tirta Nugraha Mursitama, Ph.D., Dr. Shidarta, M.Hum., Dr. Yi Ying, M.Lit., M.Pd., 2021-05-17 This book is written in Dual Language English Mandarin This book is a collection of researches from the Taiwan Studies Project research team of Bina Nusantara University This book consists of three parts First the relationship between Indonesia and Taiwan in the context of the New Southbound Policy This part describes the collaboration scheme of the Taiwanese government industry and high school in Indonesia to improve human resource competencies by providing scholarships for economically disadvantaged Indonesian students to study in Taiwan It also illustrates the obstacles faced in implementing the New Southbound Policy in Indonesia due to the language and culture constraints of Taiwan and Indonesia Second part discusses about cross culture Through cultural acculturation research it is hoped that Indonesia and Taiwan will better acknowledge each other s culture and realize the similarities in culture especially in the Potehi puppet show which is still performed in

Taiwan today by using Hokkien Whereas the Potehi puppet show in Indonesia already uses Indonesian regional languages besides Hokkien Also the influence of Chinese culture on Betawi Bridal Dress This closeness in history and culture is expected to be the glue of Taiwan and Indonesia relations Last the third part illustrates the BINUS University lecturers visitation to Taiwan They visit several places and Indonesian young people who obtained a scholarship from university in Taiwan From this visitation readers will better understand the good intentions of the Taiwanese government to help the development of the Indonesian economy by providing opportunities for young Indonesians to become educated and trained personnel when they graduate from higher institutions
