Whelan, 2006-10-17 For years it's been common knowledge that once a woman hits thirty her chances of finding a husband diminish to the point of despair That men are intimidated by a woman's career success preferring docile helpmates to ambitious achievers That women are biologically driven to seek a strong provider That the higher a woman's IQ the less likely she is to marry let alone have babies leaving single successful women to ask themselves Are men intimidated by smart women In *Why Smart Men Marry Smart Women* Christine B Whelan shatters the myth that high achieving women are at a disadvantage in the marriage market There's good news for the millions of American SWANS Strong Women Achievers No Spouse that today's smart successful women marry at the same rates as all other women and that more income and education may in fact increase a woman's chances of marriage What's more as Dr Whelan shows through newly released U S Census data a large scale Harris Interactive survey commissioned especially for this book plus extended interviews conducted in cities nationwide this profound demographic shift shows every sign of progressing That means that the success penalty that has endured for generations is as soon as 2010 destined for the history books Accomplished daughters sisters and friends not to mention their mothers can finally stop worrying that the twin pinnacles of personal and professional happiness are inherently unattainable In fact smart men do marry SWANS Ninety percent of high achieving men surveyed want a woman who is as intelligent or more intelligent than they are And two thirds of men said they believed smart women make better mothers Pairing cutting edge research with sound advice Dr Whelan brings to mind what smart women everywhere have long known in their hearts that the goal is not just to get married but to have a good marriage and to lead a fulfilled life Smart Women Love Money Alice Finn, 2017-04-11 YOU ARE A SMART WOMAN BUT DO YOU STILL Feel you're too busy to invest your money Rely on someone else to deal Get bored by financial talk Think that investing is something only men do Worry you're not smart enough THINK AGAIN Women have made strides in so many areas and yet we still have a blind spot when it comes to managing our money Why A myriad of factors cause women to earn less than men over a lifetime making it all the more imperative that we make the money we do have work for us as much as possible And here's a reality check as many as nine out of ten of us will have to manage our finances and those of our family at some point in our lives And a lot of us think that means keeping our money safe in savings accounts and not investing it But not doing so has an opportunity cost that will lead to opportunities lost the ability to pay for a college education own a home change careers to pursue a dream or retire Alice Finn wants to change how you think about your money no matter how much or little you have In *Smart Women Love Money* Finn paves the way forward by showing you that the power of investing is the last frontier of feminism Drawing on more than twenty years of experience as a successful wealth management adviser Finn shares five

Women's Empowerment and Microcredit Programmes in India Annabel Dulhunty,2023-08-21 Women s Empowerment and Microcredit Programs in India examines the value of microcredit based self help groups SHGs for women in India and provides an alternative model for women s empowerment programming The microcredit sector continues to boom globally with private investors governments and multilateral financial institutions all investing substantial amounts in self help group programming

Nowhere is this more evident than in India where the industry has further been deregulated in recent years. Much of the rationale for increased investment in microcredit is based on the idea that it improves women's empowerment. But is this true? Researchers have fiercely debated the value of microcredit programs for women, with some arguing that it is exploitative and others contending that it is empowering. This book provides new insights into women's empowerment and microcredit programming, elaborating on the themes of power, dignity, mobility, and solidarity. It takes a nuanced view of the complexities surrounding self-help group programming and women's empowerment and argues that the model of microcredit self-help group programming is key to whether it helps or harms women. By focusing on the experiences and voices of microcredit self-help group members in West Bengal, India, this book elaborates on the idea of microcredit models existing on a continuum from smart economics to more holistic feminist versions of programming. It will be of interest to scholars in development studies, anthropology, sociology, gender studies, and public policy, and Asian Studies.

The Women's National Indian Association Valerie Sherer Mathes, 2015-04-15. The Women's National Indian Association formed in response to the chronic conflict and corruption that plagued relations between American Indians and the U.S. government has been all but forgotten since it was disbanded in 1951. Mathes's edited volume, the first book to address the history of the WNIA, comprises essays by eight authors on the work of this important reform group. The WNIA was formed in 1879 in reaction to the prospect of opening Oklahoma Indian Territory to white settlement. A powerful network of upper and middle class friends and associates, the group soon expanded its mission beyond prayer and philanthropy as the women participated in political protest and organized successful petition drives that focused on securing civil and political rights for American Indians. In addition to discussing the association's history, the contributors to this book evaluate its legacies both in the lives of Indian families and in the evolution of federal Indian policy. Their work reveals the complicated regional variations in reform and the complex nature of Anglo women's relationships with indigenous people.

Becoming Young Men in a New India Shannon Philip, 2022-08-25. *Becoming Young Men in a New India* tells the gendered story of a changing India through the lives of its young middle class men. Through time spent ethnographically hanging out with young men in gyms, bars, clubs, trains, and gay cruising grounds in India, this book critically reveals Indian men's violence towards women in various city spaces and also shows the many classed and masculine entitlements and challenges that they experience. The book lays bare the often secretive and hidden social worlds of young Indian men and critically analyses the impact young men's actions and identities have not just for themselves but for the many women they encounter. In this way, it puts forward a critical queer feminist perspective of men and masculinities in postcolonial India where the politics of class, gender, sexuality, violence, and urban spaces come together.
