The International Civil Service A Study Of Bureaucracy International Organizations

Thomas G. Weiss, Sam Daws

The International Civil Service A Study Of Bureaucracy International Organizations:

The International Civil Service Hans Mouritzen, 1990 FROST copy 1 from the John Holmes Library collection **The Working World of International Organizations** Yi-Chong Xu, Patrick Moray Weller, 2018 This volume examines the actions and decisions of International Organizations IOs and through a comparative study of six IOs examines how their structures rules and norms shape the choice selections of players **The Exercise of Public Authority by International Institutions** Armin Bogdandy, Rüdiger Wolfrum, Jochen Bernstorff, Philipp Dann, Matthias Goldmann, 2010-02-11 The concept of global governance which first emerged in the social sciences has triggered different responses in the discipline of law This volume contains our proposal It approaches global governance from a public law perspective which is centered around the concept of international public authority and relies on international institutional law for the legal conceptualization of global governance phenomena This proposal results from a larger project which started in 2007 The project is a collaborative effort of the directors of the Max Planck Institute for Comparative Public Law and International Law research fellows and friends of the Institute as well as eminent members of the Law Faculty of the University of Heidelberg Most of the materials contained in this volume were first published in the November 2008 issue of the German Law Journal <http://www.germanlawjournal.com> We would like to express our sincere gratitude to the journal's editors in chief Professors Russell Miller Washington and Lee University School of Law and Peer Zumbansen Osgoode Hall Law School York University Toronto for the opportunity to publish our papers as a special issue of their journal The 2008/2009 University of Idaho College of Law German Law Journal student editors deserve special recognition for their hard and diligent work during the publication process At the Institute Eva Richter Michael Riegner and the editorial staff of this publication series were instrumental in bringing this publication to fruition International Organizations and Military Affairs Hylke Dijkstra, 2016-02-05 From the UN Department of Peacekeeping Operations to the NATO International Staff and the European External Action Service international bureaucrats make decisions that affect life and death In carrying out their functions these officials not only facilitate the work of the member states but also pursue their own distinct agendas This book analyzes how states seek to control secretariats when it comes to military operations by international organizations It introduces an innovative theoretical framework that identifies different types of control mechanisms The book presents six empirical chapters on the UN NATO and EU secretariats It provides new data from a unique dataset and in-depth interviews It shows that member states employ a wide range of control mechanisms to reduce the potential loss of influence They frequently forfeit the gains of delegation to avoid becoming dependent on the work of secretariats Yet while states invest heavily in control this book also argues that they cannot benefit from the services of secretariats and keep full control over outcomes in international organizations In their delegation and control decisions states face trade-offs and have to weigh different cost categories the costs of policy administrative capacity and agency loss This book will be of interest to scholars postgraduates and officials in international

organizations and national governments dealing with questions of international political economy security studies and military affairs

The Governance of World Trade Yi-Chong Xu, Patrick Moray Weller, 2004-01-01 A unique study of the internal operation of the GATT WTO It examines the role and influence of the invisible yet indispensable international civil servants working at GATT WTO

The International Civil Service Hans Mouritzen, 1990 *The Oxford Handbook on the United Nations* Thomas G. Weiss, Sam Daws, 2018-06-28 This Handbook provides in one volume an authoritative and independent treatment of the UN's seventy year history written by an international cast of more than 50 distinguished scholars analysts and practitioners It provides a clear and penetrating examination of the UN's development since 1945 and the challenges and opportunities now facing the organization It assesses the implications for the UN of rapid changes in the world from technological innovation to shifting foreign policy priorities and the UN's future place in a changing multilateral landscape Citations and additional readings contain a wealth of primary and secondary references to the history politics and law of the world organization This key reference also contains appendices of the UN Charter the Statute of the International Court of Justice and the Universal Declaration of Human Rights

The Oxford Handbook of Global Policy and Transnational Administration Diane Stone, Kim Moloney, 2019-01-10 Global policy making is unfurling in distinctive ways above traditional nation state policy processes New practices of transnational administration are emerging inside international organizations but also alongside the trans governmental networks of regulators and inside global public private partnerships Mainstream policy and public administration studies have tended to analyse the capacity of public sector hierarchies to globalize national policies By contrast this Handbook investigates new public spaces of transnational policy making the design and delivery of global public goods and services and the interdependent roles of transnational administrators who move between business bodies government agencies international organizations and professional associations This Handbook is novel in taking the concepts and theories of public administration and policy studies to get inside the black box of global governance Transnational administration is a multi actor and multi scalar endeavour having manifestations depending on the policy issue or problems at the local urban sub regional sub national regional national supranational supra regional transnational international and global scales These scales of local and global are not neatly bounded and nested spaces but are articulated together in complex patterns of policy activity These transnational patterns represent a reinvigoration of public administration and policy studies as the Handbook authors advance their analysis beyond the methodological nationalism of the nation state

[Routledge Handbook of International Organization](#) Bob Reinalda, Marieke Louis, 2024-12-09 This completely revised and rewritten handbook gives an overview of international organization IO as a dynamic field of research that adds to our understanding of global and regional relations and related domestic politics Bringing together international scholars from a range of disciplines it considers both IO as a process and multilateral organizations as institutions This handbook is divided into five parts I Documentation sources and perspectives II

International secretariats as bureaucracies III Actors within and beyond international bureaucracies IV Processes within and beyond international bureaucracies V Challenges to international organizations

Containing new chapters on topics such as the anthropological perspective IO secretariats in several continents outside of Europe feminization the digital turn and challenges to IO legitimacy the contributors reflect on the progression of IO studies from a burgeoning field to a well established subfield of international relations and the move away from scholarship based mainly in North Western Europe and the United States This book will be of particular interest to scholars and students of IOs global governance diplomacy and foreign policy as well as practitioners of multilateral cooperation

Unpacking international organisations Jarle Trondal, Martin Marcussen, Torbjørn Larsson, Frode Veggeland, 2013-07-19 This book introduces international bureaucracy as a key field of study for public administration and also rediscovers it as an essential ingredient in the study of international organisations To what extent how and why do international bureaucracies challenge and supplement the inherent Westphalian intergovernmental order based on territorial sovereignty To what extent how and why do international bureaucracies supplement the existing international intergovernmental order with a multi dimensional international order subjugated by a compound set of decision making dynamics International bureaucracies constitute a distinct and increasingly important feature of public administration studies However the role of international bureaucracies has been largely neglected in most social science sub disciplines This book takes a first step into a third generation of international organisation IO studies It will be of immense value to academics in politics and international relations as well as practitioners in public administration in domestic governments and international organizations
