Encyclopedia of Sexuality: Spain to the United States Robert T. Francoeur, 1997 Recipient of the Citation of Excellence for an Outstanding Reference Work of Sexology awarded by the American Foundation for Gender and Genital Medicine and Science at the Thirteenth World Congress of Sexology Valencia Spain **Human Sexuality** Ami Rokach, Karishma Patel, 2021-01-22

Human sexuality touches us all pun intended We all either enjoy it struggle with it or may have been victims of it Sexuality is not just about sex but about human sexual function the physiology of sex the hormones involved and how they affect us and the cultural norms related to it Sexual function and dysfunction are closely tied to one's self esteem self respect and to relationships with intimate partners Human Sexuality Function Dysfunction Paraphilias and Relationships explores the interplay of intimacy and sexuality how it can enhance relationships and how it can negatively affect them or be affected by them When individuals or partners encounter sexual problems or dysfunctions it can have a long lasting affect both biologically and psychologically Dr Rokach explores the causes and the reasons that these dysfunctions are maintained and successful treatment methods Chapters on sexual offenses and paraphilias and what treatment options are available to sexual offenders are also included This book is the first book to place sexuality where it belongs within the context of relationships demonstrating how sexuality relates to intimacy by both enhancing and negatively affecting it Explains psychological biological and sociological theories of sexuality Addresses sexual dysfunctions according to various models of sex therapy

Discusses the biological developmental and sociological theories of sexual orientation Explores the specific hormones in male and female sexual behavior **Transgender History & Geography: Crossdressing in Context** Bolich, Ph. D. G. G.

Bolich, 2007-09-28 The third in a landmark five volume study of transgender realities with a focus on crossdressing this fascinating volume offers a tour through history and around the world Within these pages are found the most famous crossdressers of history and information as to what it means to be a transgender person in the various countries of the world today *Encyclopedia of Women and Gender, Two-Volume Set* Judith Worell, 2001-09-13 Covers the psychology of women

the psychology of men and gender differences while discussing psychological differences in personality cognition and behavior as well as biologically based differences and how those differences impact behavior **Psychology and the Internet** Jayne Gackenbach, 2011-10-10 The previous edition provided the first resource for examining how the Internet affects our definition of who we are and our communication and work patterns It examined how normal behavior differs from the pathological with respect to Internet use Coverage includes how the internet is used in our social patterns work dating meeting people of similar interests how we use it to conduct business how the Internet is used for learning children and the Internet what our internet use says about ourselves and the philosophical ramifications of internet use on our definitions of reality and consciousness Since its publication in 1998 a slew of other books on the topic have emerged many speaking solely to internet addiction learning on the web or telehealth There are few competitors that discuss the breadth of impact the internet has had on intrpersonal interpersonal and transpersonal psychology Provides the first resource for looking at how the Internet affects our definition of who we are Examines the philosophical ramifications of Internet use and our definitions of self reality and work Explores how the Internet is used to meet new friends and love interests as well as to conduct business Discusses what represents normal behavior with respect to Internet use **The Intimate Economies of**

Bangkok Ara Wilson, 2004-07-19 Bangkok has been at the frontier of capitalism s drive into the global south for three decades Rapid development has profoundly altered public and private life in Thailand In her provocative study of contemporary commerce in Bangkok Ara Wilson captures the intimate effects of the global economy in this vibrant city The Intimate Economies of Bangkok is a multifaceted portrait of the intertwining of identities relationships and economics during Bangkok s boom years Using innovative case studies of women s and men s participation in a range of modern markets department stores go go bars a popular downtown mall a telecommunications company and the direct sales corporations Amway and Avon Wilson chronicles the powerful expansion of capitalist exchange into further reaches of Thai society She shows how global economies have interacted with local systems to create new kinds of lifestyles ranging from tomboys to corporate tycoons to sex workers Combining feminist theory with classic anthropological understandings of exchange this historically grounded ethnography maps the reverberations of gender sexuality and ethnicity at the hub of Bangkok s modern economy **Shifting Cultivation and Environmental Change** Malcolm F. Cairns, 2015-01-09 Shifting cultivation is one of

the oldest forms of subsistence agriculture and is still practised by millions of poor people in the tropics Typically it involves clearing land often forest for the growing of crops for a few years and then moving on to new sites leaving the earlier ground fallow to regain its soil fertility This book brings together the best of science and farmer experimentation vividly illustrating the enormous diversity of shifting cultivation systems as well as the power of human ingenuity Some critics have tended to disparage shifting cultivation sometimes called swidden cultivation or slash and burn agriculture as unsustainable due to its supposed role in deforestation and land degradation However the book shows that such indigenous practices as they have evolved over time can be highly adaptive to land and ecology In contrast scientific agricultural solutions imposed from outside can be far more damaging to the environment and local communities The book focuses on successful agricultural strategies of upland farmers particularly in south and south east Asia and presents over 50 contributions by scholars from around the world and from various disciplines including agricultural economics ecology and anthropology It is a sequel to the much praised *Voices from the Forest Integrating Indigenous Knowledge into Sustainable Upland Farming* RFF Press 2007 but all chapters are completely new and there is a greater emphasis on the contemporary challenges of climate change and biodiversity conservation

Close Relationships Patricia Noller, Judith A. Feeney, 2013-05-13 *Close Relationships Functions Forms and Processes* provides an overview of current theory and research in the area of close relationships written by internationally renowned scholars whose work is at the cutting edge of research in the field The volume consists of three sections introductory issues types of relationships and relationship processes In the first section there is an exploration of the functions and benefits of close relationships the diversity of methodologies used to study them and the changing social context in which close relationships are embedded A second section examines the various types of close relationships including family bonds and friendships The third section focuses on key relationship processes including attachment intimacy sexuality and conflict This book is designed to be an essential resource for senior undergraduate and postgraduate students researchers and practitioners and will be suitable as a resource in advanced courses dealing with the social psychology of close relationships
