The Minimalist Vision Of Transcendence A Naturalist Philosophy Of Religion:

The Minimalist Vision of Transcendence Jerome A. Stone, 1992-11-03 *The Promise of Religious Naturalism* Michael S. Hogue, 2010-12-28 The Promise of Religious Naturalism explores religious naturalism as a distinctly promising form of contemporary religious ethics Examining how religious naturalism responds to the challenges of recent religious transformations and ecological peril worldwide author Michael Hogue argues that religious naturalism is emerging as an increasingly plausible and potentially rewarding form of religious moral life Beginning with an introduction of religious naturalism in the larger context of religious and ethical theories the book undertakes the first extended study of the works of religious naturalists Loyal Rue Donald Crosby Jerome Stone and Ursula Goodenough Hogue pays particular attention to the ethical components of religious naturalism in relation to religious pluralism and ecological issues **The Making of American Liberal Theology** Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom **Greening Philosophy of Religion** Jea Sophia Oh, John Quiring, 2024-07-08 Greening Philosophy of Religion Process Ecology and Ethics develops fruitful avenues for the theory and practice of greening philosophy of religion Collected with a pluralistic conception of both philosophy and religion the chapters in this volume address pressing and timely issues that involve imagining ecological democracy as an ideal horizon for facing climate catastrophe with a radical hope and sober vision for realizing a more sustainable planetary economy that places a high value on food sovereignty an ethic of trust and inter religious conversations Edited by Jea Sophia Oh and John Quiring this book offers a vital contribution to the fields of philosophy of religion environmental ethics religion and ecology comparative philosophy and ecotheology all tuned to the note of process thinking and a deep ecological sensibility *Fifty Years of Philosophy of Religion* Andries F. Sanders, Kristof De Ridder, 2007 The bibliography lists about 10 000 titles of monographs collections and articles in the field of the philosophy of religion and philosophical theology that appeared between 1955 and 2005 The majority of them are in the English language but publications in German Dutch and French are listed as well Though it is not claimed to be exhaustive the bibliography offers a fairly representative survey of scholarly work on the main topics of interest Publications have been systematically classified

according to eleven main categories Introductions Surveys and Historical Issues Part I Religious Language Part II Religious Experience Part III Religious Epistemology Part IV Theism Part V Hermeneutics Part VI Religion and Science Part VII Religion and Aesthetics Part VIII Religion and Morality Part IX Religious Pluralism Part X and Feminist Philosophy of Religion Part XI Part III has been subdivided into Religious Experience and Mystical Experience Part VII into The Concept of God arguments for The Existence of God The Problem of Evil and Atheism and Part VII into General and Historical Issues Theological Issues and implications of Modern Physics Cosmology and Biology The bibliography will particularly be useful to scholars teachers and students in the philosophy of religion philosophical theology and systematic theology as well as to those who are interested professionally or otherwise in the results of academic scholarship in those fields **Transcending**

Fictionalism Jessica Eastwood,2024-05-16 Exploring alternative conceptions of the divine Jessica Eastwood considers the ways of believing in God that are authentic and sincere moving beyond traditional metaphysical structures that many find difficult to accept In this study she examines a unique branch of religious non realism known as religious fictionalism making the case for its ability to resonate on an intellectual and emotional level Considering the extent to which fictionalism allows us to make sense of the role of religion in our spiritual lives she presents its limitations on adhering to what might be an attractive contemporary model for philosophy of religion called the humane turn Articulating an alternative conception of God that we can relate to in an intellectual emotional and spiritual way Eastwood sheds light on a minimalist form of religious realism which preserves the reality of God without committing the theist to a host of additional religious beliefs

Sacred Nature Jerome A. Stone,2017-06-26 Sacred Nature examines the crisis of environmental degradation through the prism of religious naturalism which seeks rich spiritual engagement in a world without a god Jerome Stone introduces students to the growing field of religious naturalism exploring a series of questions about how it addresses the environmental crises evaluating the merits of public prophetic discourse that uses the language of spirituality He presents and defends the concept of religious naturalism while drawing out the implications of religious naturalism for addressing some of the major environmental issues facing humans today This book is designed for undergraduate and graduate students as well as scholars specializing in contemporary religious thought or environmental studies *Religion within the Limits of History Alone* Demian Wheeler,2020-09-01 Among the greatest challenges facing religious thinkers today is that created by historicism the notion that human beings and their myriad understandings of reality are utterly historical conditioned by contingent circumstances and tied to particular contexts In this book Demian Wheeler confronts the historicist challenge by delineating and defending a particular trajectory of historicist thought known as pragmatic historicism Rooted in the German Enlightenment and fully developed within the early Chicago school of theology pragmatic historicism is a predominantly American tradition that was philosophically nurtured by classical pragmatism and its intellectual siblings naturalism and radical empiricism Religion within the Limits of History Alone not only undertakes a detailed genealogy of this pragmatic

historicist lineage but also sets forth a constructive program for contemporary theology by charting a path for its future development Wheeler shows that pragmatic historicism is an underdeveloped resource for contemporary theology since it offers a model for normative religious thought that is theologically compelling yet wholly nonsupernaturalistic deeply pluralistic unflinchingly liberal and radically historicist

The Open Secret Alister E. McGrath, 2011-09-23 Natural theology in the view of many is in crisis In this long awaited book Alister McGrath sets out a new vision for natural theology re establishing its legitimacy and utility A timely and innovative resource on natural theology the exploration of knowledge of God as it is observed through nature Written by internationally regarded theologian and author of numerous bestselling books Alister McGrath Develops an intellectually rigorous vision of natural theology as a point of convergence between the Christian faith the arts and literature and the natural sciences opening up important possibilities for dialogue and cross fertilization Treats natural theology as a cultural phenomenon broader than Christianity itself yet always possessing a distinctively Christian embodiment Explores topics including beauty goodness truth and the theological imagination how investigating nature gives rise to both theological and scientific theories the idea of a distinctively Christian approach to nature and how natural theology can function as a bridge between Christianity and other faiths *Religious Naturalism Today* Jerome A. Stone, 2008-12-18 Previously a forgotten option in religious thinking religious naturalism is coming back It seeks to explore and encourage religious ways of responding to the world on a completely naturalistic basis without a supreme being or ground of being In this book Jerome A Stone traces its history and analyzes some of the issues dividing religious naturalists He includes analysis of nearly fifty distinguished philosophers theologians scientists and figures in art and literature both living and dead They range from Ursula Goodenough Gordon Kaufman William Dean Thomas Berry and Gary Snyder to Jan Christiaan Smuts William Bernhardt Gregory Bateson and Sharon Welch

The Routledge Companion to Religion and Science James W. Haag, Gregory R. Peterson, Michael L. Spezio, 2012-03-12 The field of religion and science is one of the most exciting and dynamic areas of research today This Companion brings together an outstanding team of scholars to explore the ways in which science intersects with the major religions of the world and religious naturalism The collection provides an overview of the field and also indicates ways in which it is developing Its multicultural breadth and scientific rigor on topics that are and will be compelling issues in the first part of the twenty first century and beyond will be welcomed by students and scholars alike

Essays in Postfoundationalist Theology Jacobus Wentzel Van Huyssteen, 1997 This collection of essays boldly addresses many of the challenges faced by Christian theology in the context of contemporary postmodern thought Handling abstract topics in a remarkably clear and concise way J Wentzel van Huyssteen presses the case for a postfoundationalist theology as a viable third option beyond the extremes of foundationalism and nonfoundationalism Van Huyssteen discusses themes related to rationality epistemology and philosophy of science In the process he critically engages the work of such thinkers as Wolfhart Pannenberg Nancey Murphy

Jerome Stone and Gerd Theissen The result is a convincing argument that only a truly accessible and philosophically credible notion of interdisciplinarity will be able to pave the way for a plausible public theology that can play an important intellectual role in our fragmented culture today *Phenomenology of the Visual Arts (even the frame)* Paul Crowther, 2009-09-16 Why are the visual arts so important and what is it that makes their forms significant Countering recent interpretations of meaning that understand visual artworks on the model of literary texts Crowther formulates a theory of the visual arts based on what their creation achieves both cognitively and aesthetically He develops a phenomenology that emphasizes how visual art gives unique aesthetic expression to factors that are basic to perception At the same time he shows how various artistic media embody these factors in distinctive ways Attentive to both the creation and reception of all major visual art forms picturing sculpture architecture and photography *Phenomenology of the Visual Arts* also addresses complex idioms including abstract conceptual and digital art *God, Reason and Religions* Eugene Thomas Long, 2012-12-06 The first issue of the *International Journal for the Philosophy of Religion* appeared in the Spring 1970 This collection of essays is presented in celebration of the twenty fifth anniversary of the journal Contributors to the volume are to be counted among today's leading philosophers of religion They represent different approaches to the philosophical consideration of religion and their published work is helping shape discussions of the philosophy of religion as we approach the beginning of the twenty first century Considered by some to be terminal at mid century the philosophy of religion has undergone a renaissance during the second half of the century And the journal may be said to provide some of the explanation for this development A special debt of gratitude is owed to Edgar Henderson Robert Leet Patterson and Henry Sprinkle founders of the journal Without their vision and determination it would not have come into existence **New Essays in Religious Naturalism** Creighton Peden, Larry E. Axel, 1993 The essays in this volume were selected from those presented at a Conference on American Religious Thought sponsored by the Highlands Institute for American Religious Thought at Highlands North Carolina The Highlands Institute is a community of productive scholars with diverse theological and philosophical perspectives The Institute contributes to the academic study of religion through interpretive critical and constructive reflections whose principal focus is on distinctively American religious thought It fosters broad discussion of relevant options through its sponsorship of conferences seminars workshops and publications The work of the Institute emphasizes 1 the interface between theology and philosophy especially where theological efforts have utilized the American philosophical tradition 2 the history and development of liberal religious thought in America 3 themes pertinent to the Chicago School of theology and 4 naturalism in American theology and philosophy BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved [The Routledge Handbook of Religious Naturalism](#) Donald A. Crosby, Jerome A. Stone, 2018-02-01 Ecological crisis is being widely discussed in society today and therefore the subject of religious naturalism has emerged as a major topic in religion The Routledge Handbook of Religious Naturalism is an outstanding reference source to the key topics

problems and debates in this exciting subject and is the first collection of its kind. Comprising thirty four chapters by a team of international contributors the Handbook is divided into seven parts: Varieties of religious naturalism and its relations to other outlooks; Some earlier religious naturalists; Pantheism, materialism and the value ladenness of nature; Ecology, humans and politics in naturalistic perspective; Religious naturalism and traditional religions; Putting religious naturalism into practice; Critical discussions of religious naturalism. Within these sections central issues, debates and problems are examined including defining religious naturalism; religious underpinnings of ecology; natural piety; the religious aesthetic; ecstatic naturalism as deep pantheism; spiritual ecology; African American religious naturalism; Christian religious naturalism; Dao and water; Confucianism; environmental action and practices in religious naturalism. The Routledge Handbook of Religious Naturalism is essential reading for students and researchers in religious studies, theology and philosophy. The Handbook will also be useful for those in related fields such as environmental ethics and ecology.

The Oxford Handbook of Religion and Science Philip Clayton, Zachary Simpson, 2006. The field of science and religion is exploding in popularity among both academics and the reading public. This is a comprehensive and authoritative introduction to the debate written by the leading experts yet accessible to the general reader.

Religion and the Challenges of Science William Sweet, Richard Feist, 2017-11-30. Does science pose a challenge to religion and religious belief? This question has been a matter of long standing debate and it continues to concern not only scholars in philosophy, theology and the sciences but also those involved in public educational policy. This volume provides background to the current science and religion debate yet focuses as well on themes where recent discussion of the relation between science and religion has been particularly concentrated. The first theme deals with the history of the interrelation of science and religion. The second and third themes deal with the implications of recent work in cosmology, biology and so called intelligent design for religion and religious belief. The fourth theme is concerned with conceptual issues underlying or implied in the current debates such as: Are scientific naturalism and religion compatible? Are science and religion bodies of knowledge or practices or both? Do religion and science offer conflicting truth claims? By illuminating contemporary discussion in the science religion debate and by outlining the options available in describing the relation between the two, this volume will be of interest to scholars and to members of the educated public alike.

A Religion of Nature Donald A. Crosby, 2012-02-01. The beauty, sublimity and wonder of nature have been justly celebrated in all of the religious traditions of the world but usually these traditions have focused on beings or powers presumed to lie behind nature providing nature's ultimate explanation and meaning. In a radical departure Donald A. Crosby makes an eloquent case for regarding nature itself as the focus of religion conceived without God, gods or animating spirits of any kind and argues that nature is metaphysically ultimate. He explores the concept of nature, the place of humans in nature, the responsibilities of humans to one another and to their natural environments and offers a religious vision that grants to nature the kind of reverence, awe, love and devotion formerly reserved for God. Crosby also shares his personal

journey from theistic faith to a religion of nature **Liberal Protestantism and Science** Leslie A. Muray, 2007-12-30 Many students and members of the public who follow news reports on science and religion may think that Protestantism and science are in conflict But while evangelical attacks on evolution may make the headlines many mainstream Protestant groups have long embraced science and the scientific worldview This volume in the Greenwood Guides to Science and Religion covers those Protestant thinkers who seek to use the insights of science to further their understanding of religion and faith In addition the volume will also discuss such trends as the liberal protestant acceptance of evolution the advent of ecotheology and the Social Gospel The volume includes a selection of primary source documents a glossary and a timeline and an annotated bibliography of the most useful resources for further research
