The Miracle at San Juan Richard Tevis, 1983-11-01 *Miracles on the Border* Jorge Durand, Douglas S.

Massey, 2020-05-01 This vivid study, richly illustrated with forty color photographs, offers a multilayered analysis of retablos, folk images painted on tin that are offered as votives of thanks for a miracle granted or a favor bestowed, created by Mexican migrants to the United States. Durand and Massey analyze 124 contemporary retablo texts, scrutinizing the shifting subjects and themes that constitute a running record of the migrant's unique experience. The result is a vivid work of synthesis that connects the history of an art form and a people, links two very different cultures, and allows a deeper understanding of a major twentieth-century theme: the drama of transnational migration. **Volcanic Activity and Human Ecology** Payson D.

Sheets, Donald K. Grayson, 2013-09-24 *Volcanic Activity and Human Ecology* deals with dating, chronology, stratigraphy, volcanic activity, and with the impacts of volcanism on animals, plants, human populations, and the environment. Some of the chapters explain how such findings must be weighed against other causes that influence human behavior and survival, such as factors of social customs, climatic change, shifting biogeographic patterns, disease, and the ability to adapt. Each of the chapters that assess the possible human response to volcanism does so by searching for multiple explanations of the archaeological record, avoiding the simple argument that people were dramatically and inevitably overcome by catastrophic geologic events. The book begins with discussions of volcanism as seen by geologists and pedologists. These include a general overview of volcanoes and volcanism; a review of the production, dispersal, and properties of tephra; and of the geologic methods used to study tephra and the nature of volcanic soils and their economic impact. Subsequent chapters use the geologic and modern records to examine volcanoes as hazards to people. The final series of papers deals with the

interrelationships between volcanism and human occupations as seen through the archaeological paleobotanical and paleozoological records *Globalizing the Sacred* Manuel A. Vásquez, Marie F. Marquardt, 2003 Annotation An exploration of how globalization affects the evolving roles of religion in the Americas *The Lore of the Camino de Santiago* Jean Mitchell-Lanham , 2015-03-10 People go on the Camino de Santiago pilgrimage for a variety of reasons religious midlife crisis a need for adventure or miracle to visit Hemingways 1920s hangouts to pay homage to Saint James Author Jean Mitchell Lanham went for all the same reasons and then her academic and literary interests set her off on a secondary journey to dig deeper into the mysteries and timeless draw of the pilgrimage *Indigenous Miracles* Edward W. Osowski, 2022-05-10 While King Carlos I of Spain struggled to suppress the Protestant Reformation in the Old World the Spanish turned to New Spain to promote the Catholic cause unimpeded by the presence of the false Old World religions To this end Osowski writes the Spanish saw indigenous people as necessary protagonists in the anticipated triumph of the faith As the conversion of the indigenous people of Mexico proceeded in earnest Catholic ritual became the medium through which indigenous leaders and Spaniards negotiated colonial hegemony *Indigenous Miracles* is about how the Nahua elite of central Mexico secured political legitimacy through the administration of public rituals centered on miraculous images of Christ the King Osowski argues that these images were adopted as community symbols and furthermore allowed Nahua leaders to represent their own kingship protecting their claims to legitimacy This legitimacy allowed them to act collectively to prevent the loss of many aspects of their culture Osowski demonstrates how a shared religion admitted the possibility of indigenous agency and new ethnic identities Consulting both Nahuatl and Spanish sources Osowski strives to fill a gap in the history of the Nahuas from 1760 to 1810 a momentous time when previously sanctioned religious practices were condemned by the viceroys and archbishops of the Bourbon royal dynasty His approach synthesizes ethnohistory and institutional history to create a fascinating account of how and why the Nahuas protected the practices and symbols they had appropriated under Hapsburg rule Ultimately Osowski s account contributes to our understanding of the ways in which indigenous agency was negotiated in colonial Mexico **Angels, Demons and the New World** Fernando Cervantes, Andrew Redden, 2013-02-07 This volume depicts the intricate cultural religious and intellectual kaleidoscope of interactions between angels demons and the heterogeneous populations of Spanish America including New Spain Mexico New Granada Colombia and Peru Essential reading for students of religion anthropology of religion history of ideas Latin American colonial history and church history *Notable Caribbeans and Caribbean Americans* Serafín Méndez-Méndez, Gail Cueto, 2003-07-30 This is the first major biographical dictionary devoted exclusively to celebrating Caribbeans and Caribbean Americans who have made significant contributions to their society and beyond More than 160 profiles feature historical and contemporary figures from every Caribbean island the United States and even England and Canada and from a diverse range of fields such as acting sports political activism and more Selection criteria included the notable demonstration of a Caribbean ethos or style combined with
