[Mississippi Burning - Fact vs. Fiction](#) Sahar Farman, 2008-09-10 Essay from the year 2007 in the subject American Studies Miscellaneous grade keine University of Marburg language English abstract Alan Parker's movie Mississippi Burning is set in a small town in the state of Mississippi The plot of the movie plays in 1964 when the three civil rights activists Michael Schwerner Andrew Goodman and James Chaney traveling in a car at night are forced off the road and out of their car and shot by members of the Ku Klux Klan The FBI is put on the case and two agents a younger FBI academy agent and a small town agent travel to Meridian to examine the case after having been informed of the disappearance The two agents then call for more manpower to solve the case despite the difficulties they encounter with the state officials The investigation leads to tensions between the small town community and the FBI agents and the situation between the Ku Klux Klan and the black population escalates The agents finally find the vehicle of the three civil rights workers in a swamp In order to find the

bodies Klan members including the mayor are interviewed and eventually forced by dingy methods to reveal the location of the bodies In the last sequence of the movie most of the members are convicted and sent to prison Only one member is acquitted The movie revealed a glimpse of the involvement of high rank officials in the case and the attitude of the population of Mississippi toward the burnings the killings and the investigation It is yet to be examined whether both the involvement and the attitude are used as dramatic elements or represent the actual situation in small towns in 1964 Mississippi Despite the fact that the latter meaning the attitude is harder to be examined both aspects have to be taken into consideration in order to be able to get an impression of the situation of small town Mississippi in the mid sixties According to all the documents collected within the long investigation for the several trials that followed the case it is true that a lot of high rank officials were involved In the movie the civil rights workers are stopped and shot by a sheriff driving a patrol car     The Mississippi Burning Case Charles River Charles River Editors,2015-12-10 Includes pictures Includes accounts and testimony by some of the conspirators Includes online resources and a bibliography for further reading Includes a table of contents You see I know what s gonna happen I feel it deep in my heart When they find the people who killed these guys in Neshoba County you ve got to come back to the state of Mississippi and have a jury of their cousins their aunts and their uncles And I know what they re going to say not guilty Dave Dennis leader of the Congress of Racial Equality CORE When famous political philosopher Alexis de Tocqueville toured the new United States of America he was impressed by the representative government set up by the Founders At the same time he ominously predicted If there ever are great revolutions there they will be caused by the presence of the blacks upon American soil That is to say it will not be the equality of social conditions but rather their inequality which may give rise thereto De Tocqueville was prescient because the longest battle fought in the history of the United States has been the Civil Rights Movement The framers of the Constitution kicked the problem down the road over half a million died during the Civil War to end slavery and then many more fought and died to dismantle segregation and legalized racism in the 100 years after Today every American is taught about watershed moments in the history of minorities struggles for civil rights over the course of American history the Civil War Brown v Board of Education Rosa Parks refusal to give up her seat Dr Martin Luther King Jr s I Have a Dream speech and the passage of the Civil Rights Act of 1964 Indeed the use of the phrase Civil Rights Movement in America today almost invariably refers to the period of time from 1954 1964 Even with those successes tragedies continued to be pervasive and one of the most notorious crimes was the murder of three civil rights workers in Philadelphia Mississippi in June 1964 Occurring less than 2 weeks before the landmark Civil Rights Act of 1964 was passed the young volunteers were killed because they had come south to help register blacks to vote a right they had been unfairly denied for over half a century thanks to Jim Crow Fortunately as was often the case the shocking nature of the crimes galvanized people and helped bring about the kinds of changes the murderers sought to prevent but despite the national outrage generated by the disappearance of the volunteers Mississippi showed no interest

in prosecuting anyone Ultimately the federal investigation dubbed Mississippi Burning uncovered evidence of a large conspiracy that went all the way up to County Sheriff Lawrence A Rainey but without anyone s cooperation the government s indictments could only bring up members of the conspiracy on minor charges In the end it would not be until 40 years after the murders that any of the conspirators would be tried for murder or manslaughter that case against 80 year old Edgar Ray Killen also marked the first time Mississippi tried anyone for anything related to the infamous crimes The Mississippi Burning Case The History and Legacy of the Notorious Murders at the Height of the Civil Rights Movement chronicles the murderous conspiracy and the aftermath Along with pictures of important people places and events you will learn about the murders like never before in no time at all     We are Not Afraid Seth Cagin, Philip Dray, 1988 Describes the events surrounding the slayings of the civil rights workers the investigation and discovery of the killers and the trial
