## **The Modern Allegories Of William Golding:**

*The Modern Allegories of William Golding* L. L. Dickson, Northern Kentucky University, 1990 This study of the work of William Golding focuses on Golding's language and symbolism establishing the 1983 Nobel Prize winner as a modern allegorist in the tradition of Hawthorne, Melville and Conrad.

*Politics and History in William Golding* Paul Crawford, 2002 *Politics and History in William Golding* provides a much needed politicized and historicized reading of William Golding's novels as a counter to previous universalizing criticism. Paul Crawford argues that an understanding of fantastic and carnivalesque modes in Golding's work is vital if we are to appreciate fully his interrogation of twentieth century life. The fantastic and carnivalesque are foundational to both the satirical and nonsatirical approaches that mark Golding's early and late fiction. No previous study has analyzed this structure that is so central to his work. *Politics and History in William Golding* examines this writer's work more fully than it has been studied within the convoluted context of the last half of the twentieth century. Crawford directly links Golding's various deployments of the fantastic and carnivalesque to historical political and social change.

Wilson, 2024-04-05. This book is the first monograph to critically evaluate the work of the literary scholar Ren Girard from the perspectives of Law and Literature and Law and Film Studies, two of the most multidisciplinary branches of critical legal theory. The central thesis is that Girard's theory of the scapegoat mechanism provides a wholly new and original means of re-conceptualizing the nature of judicial modernity, which is the belief that modern Law constitutes an internally coherent and exclusively secular form of rationality. The book argues that it is the archaic scapegoat mechanism, the reconciliation of the community through the direction of unified violence against a single victim, that actually works best in explaining all of the outstanding issues of Law and Literature in both of its sub-forms: law as literature (the analysis of legal language and practice exemplified by literary texts) and law in literature (the exploration of issues in legal theory through the fictitious form of the novel). The book will provide readers with: i) a useful introduction to the most important elements of the work of Ren Girard; ii) a greater awareness of the hidden nature of legal culture and reasoning within a post-secular age; and iii) a new understanding of the subversive or enlightening nature of some of the most iconic works on Law in both Literature and Cinema media, which by their nature allow for the expression of truths repressed by formal legal discourse.
