**The Modern Business Letter Writer's Manual** Marjane Cloke, Robert Wallace, 1969     Letter-writing Manuals and Instruction from Antiquity to the Present Carol Poster, Linda C. Mitchell, 2007 Once nearly as ubiquitous as dictionaries and cookbooks are today letter writing manuals and their predecessors served to instruct individuals not only on the art of letter composition but also in effect on personal conduct Poster and Mitchell contend that the study of letter writing theory which bridges rhetorical theory and grammatical studies represents an emerging discipline in need of definition In this volume they gather the contributions of eleven experts to sketch the contours of epistolary theory and collect the historic and bibliographic materials from Isocrates to email that form the basis for its study     **The Modern Business Letter Writer's Manual** Marjane Cloke, Robert Wallace, 1969     *Business Correspondence Handbook* James Hamilton Picken, 1926     *The Modern Business Letter Writer's Manual* Marjane Cloke, 1974-02-01     *Effective Business English as Applied to Business Letters and Reports* Alta Gwinn Saunders, 1925     *The United States Catalog* , 1921     **Bulletin of the New Hampshire Libraries** , 1915     **Bulletin of the New Hampshire Public Libraries** , 1919     *The United States Catalog* Mary Burnham, Carol Hurd, 1928     **The Open Shelf** , 1923     **The Familiarity of Strangers** Francesca Trivellato, 2009-06-30 Taking a new approach to the study of cross cultural trade this book blends archival research with historical narrative and economic analysis to understand how the Sephardic Jews of Livorno Tuscany traded in regions near and far in the seventeenth and eighteenth centuries Francesca Trivellato tests assumptions about ethnic and religious trading diasporas and networks of exchange and trust Her extensive research in international archives including a vast cache of merchants letters written between 1704 and 1746 reveals a more nuanced view of the business relations between Jews and non Jews across the Mediterranean Atlantic Europe and the Indian Ocean than ever before The book argues that cross cultural trade was predicated on and generated familiarity among strangers but could coexist easily with religious prejudice It analyzes instances in which business cooperation among coreligionists and between strangers relied on language customary norms and social networks more than the progressive rise of state and legal institutions     **Letter Writing in Late Modern Europe** Marina Dossena, Gabriella Del Lungo Camiciotti, 2012 In recent years there has been a renewed interest in correspondence both as a literary genre and as cultural practice and several studies have appeared mainly spanning the centuries between Early and Late Modern times However it is between the eighteenth and nineteenth centuries that the roots of contemporary usage begin to evolve thanks to the circulation of new educational materials and more widespread schooling practices In this volume chapters representing diverse but complementary methodological approaches discuss linguistic and discursive practices of correspondence in Late Modern Europe in order to offer material for the comparative cross linguistic analyses of patterns occurring in different social contexts The volume aims to provide a general and solid methodological structure for the study of largely untapped language material from a variety of comparable sources and is

expected to appeal to scholars and students interested in the linguistic history of epistolary writing practices as well as to all those interested in the more recent history of European languages     The Mailbag ,1924     **Studies in Late Modern English Correspondence** Marina Dossena,Ingrid Tieken-Boon van Ostade,2008 The studies presented in this volume concentrate on aspects of Late Modern English correspondence in the usage of individuals belonging to different social classes writing for different purposes and finding themselves in different social contexts both in Britain and in its colonies As the growing body of research published in recent years has shown analysing the language of letters presents both a challenge and an opportunity to obtain access to as full a range of styles as would be possible for a period for which we only have access to the language in its written form It is an area of study in which all the contributors have considerable expertise which affords them to present data findings while discussing important methodological issues In addition in most cases data derive from specially designed second generation corpora reflecting state of the art approaches to historical sociolinguistics and pragmatics Theoretical issues concerning letters as a text type their role in social network analysis and their value in the identification of register or variety specific traits are highlighted alongside issues concerning the often less than easy relationship between strictly codified norms and actual usage on the part of speakers whose level of education could vary considerably     *The New American Handbook of Letter Writing* Mary A. De Vries,2000-01-01 In today s fast paced computer based world it s more important than ever to communicate efficiently and effectively This comprehensive guide addresses common correspondence dilemmas and includes over 260 model messages to help you master all forms of written communication personal or business modern or traditional Perfect for home or office use this extensively indexed handbook is an invaluable resource for anyone who wants to compose concise successful messages     His Majesty the King Cosmo Hamilton,1926     **Los Angeles Educational Research Bulletin** Board of Education of the City of Los Angeles,1927     **Industrial Arts Index** ,1926     **Business Books: 1920-1926** Newark Public Library.
